AFTER-SCHOOL  
ENRICHMENT CLASSES

BONSALL WEST ELEMENTARY SCHOOL

Each semester, we at the Bonsall Education Foundation work with our wonderful community partners to bring Bonsall kids a host of fun and educational enrichment opportunities through our after-school programs. Take a look inside and see what we've got. There's something for everyone!

(See back page for class dates, time, tuition, and location)

**ART/CERAMICS:** (760) 522-2992 \* celweb@aol.com \* allfiredupmobileceramics.com

During this class, students will learn various methods of hand-building and sculpting with clay, applications of glaze and the purpose of the kiln. Methods of decoration on projects include stamping, texturing and clay embossing. Students will take home finished projects at the end of the session.

**THE KID'S COLLEGE:** (760) 798-4064 \* thekidscollege.org

**BEGINNING VIOLIN:** Come learn to play the violin in a fun and positive way using simple tunes, basic music theory and fun rhythm games taught by a creative, early-music violin teacher. Parent meeting: 9/14 for instruments and information. Violin Rental: \$15.00 per month (violin outfit...violin, case, bow and rosin). Accessories: Digital clip on tuner and shoulder rest required, \$45.

**BAND:** The Band program will consist of 31 weekly lessons throughout the school year which will provide instruction for each student and also include up to two performances. During lessons, students will receive instruction that will focus on the techniques of their particular instrument (tone production, embouchure, tuning scales, rudiments, etc). Band instruments include: Flute, Clarinet, Saxophone, Trumpet, Trombone and Snare drum. Music instruments can be rented at a music store of your choice. There will be an evening parent meeting on 9/11/18 in the MPR that will provide more detail.

**ROBOTICS, CHALLENGES & MISSIONS:** Students will use LEGO robotics kits to expand their knowledge of robotics and coding. Using different sensors and increasing the level of challenges for their robots, students will be challenged to solve new problems that require more complexity in building and programming. Limited to 16 students.

**I CAN BE A SCIENTIST OR ENGINEER:** In this 11-week session, science will be made more relatable and personal to students as they learn about the scientists/engineers that have made outstanding contributions to the world of science. As students participate in engaging, hands-on activities related to each scientist or engineer, they will build a personal understanding of each important discovery. We hope that our students will also be able to recognize their own character traits that will lead them to success in their future careers.

Students will explore and utilize the scientific method as they:

- \*Race cars against friction
- \*See four forms of energy (sound, light, heat and electricity) transfer from place to place
- \*Learn the differences between fruits and vegetables
- \*Make sandhill crane puppets and "fly" them through their migratory route
- \*Explore the nature of reflected light
- \*Create a snowman family model to map inherited traits
- \*Observe the mathematical symmetry of artificial snowflakes
- \*Determine how windmills produce energy
- \*Construct a 3-D model of a dinosaur from a 2-D model
- \*Stay within a budget to design a boat that will carry the most pennies

**I CAN DO ROBOTICS!:** Students will work as young scientists, engineers and mathematicians. Using their creativity, students will build working models and then use logic and brainstorming skills to create a program to produce specific behaviors. Explore both engineering and coding! (Limited to first 16 students.)

**EXPERIMENTAL SCIENCE:** Do you enjoy Science? Do you like solving problems, doing experiments, and having fun? Join us as we explore science and discovery through hands-on experiments and engaging activities.

**CHESS:** (619) 585-1050 \* chesscamp.net

International Master Larry Evans and staff teach chess in 33 schools throughout San Diego County. Beginning to advanced students are welcome. Chess is a great workout for students to improve spatial reasoning, visual memory and attention span while learning good judgment, reasoning power and self-confidence. The program includes instruction, formal and casual play and a team event. Students receive prizes and trophies to reward participation. (grades 1 – 6)

**STORYBOOK MUSICAL THEATER & DANCE:** (760) 522-1442 \* [info@charlenesdance.com](mailto:info@charlenesdance.com) \* [charlenesdance.com](http://charlenesdance.com)

CASTING ALL BOYS AND GIRLS! Join us for all the fun! Be introduced to the work of musical theater and dance and let your confidence shine through! Explore fun acting, drama, and improv games/exercises, learn lines, songs, choreography, and movement to a popular musical! On the last day of the session, perform an abridged play for family and friends! Includes costumes to borrow for the performance. Past plays have included The Wizard of Oz, SING, Beauty and the Beast and more! Every 8 week session we will perform a new play!

**FITKIDS SPORTS PROGRAMS:** (760) 730-1115 \* [fitkidsamerica.org](http://fitkidsamerica.org)

**BASKETBALL:** Got Game? Learn all the skills it takes to be a master on the court! Learn how to improve your shooting, passing, catching and rebounding skills! Instructors will teach you about player positioning, dribbling, ball-handling and team concepts. Instruction includes offensive tactics such as shot selection and scoring while defensive tactics emphasize positioning and pressure from various areas of the court.

**CHEERLEADING:** Show your spirit! Learn all the cheer basics during this fun class! Cheer dances, chants, kicks and jumps are just some of the things you'll learn on your way to becoming a top notch cheerleader! Each week you'll add counts on to a cheer dance. No uniform purchase necessary.

**FLAG FOOTBALL:** Ready for some football! Learn football basics through drills, obstacle courses and strength training with an emphasis on teamwork. Increase agility, speed and self-esteem. Intramural games will be played each class. No tackling, just fun! Super Bowl will be played on the last day of the session. Group will be split by age and ability. Designed for beginning to advanced levels.

**MULTI SPORT:** Never get bored in this Multi Sport class! Class features will include a new sport every week, weekly scrimmages, speed drills, endurance training, agility obstacles, balance testing, experience-based learning and play-making class. Daily activities to include traditional sports like Flag Football, Basketball, & Soccer. To mix up the fun we'll have Dodgeball, Field Games, Ultimate Frisbee, and more!

**SOCCER:** During this one-hour class, kids will learn the following skills: kicking, dribbling, goalkeeping, passing and ball control. There will be drills where the instructor teaches the individual skills and then scrimmages where the kids put those skills to use.

**TENNIS:** Fit Kids incorporates the USTA newly developed Quickstart program. It's an exciting new play format for learning tennis, designed to bring kids into the game by utilizing specialized equipment, shorter court dimensions and modified scoring. It's the fast, fun way to get kids into tennis!

**SING 'N SPEAK SPANISH® :** 619-223-2508 \* [Julia@singnspeak.com](mailto:Julia@singnspeak.com) \* [www.singnspeak.com](http://www.singnspeak.com)

Sing 'N Speak Spanish makes learning conversational Spanish easy and fun. We set high educational goals, but teach in a playful manner – with songs, humor, puppetry, games, role-play, and a strong emphasis on the use of vocabulary in conversation. A music CD, a songbook, and workbook keep Spanish learning fun throughout the week and reinforce vocabulary at home. Sing 'n Speak Spanish is a five year sequential program going far beyond most elementary and middle school curricula. Years 1 and 2 introduce basic vocabulary and simple sentence structures on subjects children relate to. Years 3, 4, and 5 introduce more vocabulary and grammar, while constantly reinforcing vocabulary learned in earlier years. It has been taught in hundreds of elementary schools to over 10,000 students since 1998. Classes meet throughout the school year with a maximum of just 12 children per class. The class fills up quickly so make sure to sign up right away!
