

BABA JACK

BABA JACK – a band who is fast becoming one of the most sought after acts on the UK and European gig and Festival circuits! Their unique blend of roots/blues/folk fusion described by Classic Rock magazine as “an intoxicating brew of blues, folk and roots music” make for a scintillating show combining great musicianship, passion and energy that is guaranteed to wow any audience.

Becky Tate and **Trevor Steger** are the song writing core of **BabaJack**. The band have released four albums in the last five years with each one gaining greater media attention and sales figures from the music loving public as their reputation continues to grow.

Launched at the end of 2013, **RUNNING MAN** brought them attention at the top of their field and is considered one of the finest albums of its genre to be released in recent years and deservedly won coveted slots in the **Top Ten Albums Of The Year** in not only **CLASSIC ROCK** but also in **CLASSIC ROCK BLUES** and **GUITAR & BASS** magazines. Their appearance in October 2014 at **The Royal Albert Hall and recorded for Radio 2** has given them ever greater attention from the media and the music loving public.

What sets **BabaJack** apart from others is their approach to their music – it is recognisably infused in part by early blues but is in no way bound by that. Becky brings roots/funk/African rhythms to the band’s sound. Trevor brings his own mixture of ‘Punk meets Ry Cooder’ to his slide guitar style and harmonica on his growling homemade ‘Winebox guitars’. Add to this Becky’s beautiful, lyrical vocals and the driving rhythm section of **Tosh Murase** and **Adam Bertenshaw** and you have a band destined for great success!

BABA JACK Live released in October 2015, showcases not only their creativity and talent, but also their passion and energy in delivering a really dynamic live show - all of which are captured in abundance on this latest album.

Looking to the future, the next studio album will be in collaboration with **Pete Brown**, best known for his remarkable song-writing with Cream and lifetime collaboration with Jack Bruce, as well as fronting a number of his own bands, and producing several albums. The plan is to record the album early in 2016. Exciting times ahead!
