**PERSONAL DETAILS:**

Name: Sandeep Dattatray DEO

Date of Birth: 20/01/67, London

Nationality: British

Marital Status: Married to Sarah, 4 children

Address: The Corner, Sherbourne St  
Lechlade, Glos GL7 3AE

Telephone Number: Home: 01367 252687  
Work: 01793 604918

Fax number: Fax: 01793 604917

e-mail: [Sunny.Deo@gwh.nhs.uk](mailto:Sunny.Deo@gwh.nhs.uk)

GMC Registration: 3314797 01/08/90 (Full)

CCST date: 30<sup>th</sup> June 2001

Medical indemnity: ISISIS (Paragon UK)

**CURRENT POST:**

Consultant Orthopaedics & Trauma, Great Western Hospital, Swindon  
CEA Award Level 5, commencing 2005, last award 2012.

**QUALIFICATIONS:**

FRCS (Eng) ad eundem	Jun 2007
FRCS (Tr & Orth)	Nov 1999
FRCS (Ed)	Jun 1993
MB ChB	Jun 1989

**EDUCATION:**

Oxford Region T&O Training Programme	1995 - 2001
University of Birmingham Medical School	1984 - 1989
City of London School	1978 - 1984

**MERITS AND AWARDS:**

Senior author, Best sessional knee poster, EFORT	2014
Senior author, Best oral presentation, SWOC	2014
Senior author, Best poster presentation, BASK	2009
FRCS (Eng) <i>Ad eundem</i> , awarded RCS Eng	2007
Ossur Presentation Prize, Sports Knee Meeting, Warwick	2007
Member of HD "Surgical Team of the Year"	2006
Jacques Duparc Award "Top 10 EFORT poster"	2005
Zimmer UBC Research Award	2001
Joseph Trueta Travelling Prize	2000
Zimmer Travelling Fellowship,	2000
Ethicon Foundation Fund Award	2000
Norman Capener Travelling Fellowship,	1994
Mitchell Bursary, Corporation of City of London	1982

**CURRENT POST:**

**21<sup>st</sup> Oct 2001**

**Consultant Orthopaedics & Trauma  
Great Western Hospital NHS Foundation  
Trust, Swindon, UK.**

**HIGHER SURGICAL TRAINING (HST):**

**Jul 1995 – Jun 2001**

Jun 2001 to Oct 2001

**Oxford T&O Training Programme:  
Stoke Mandeville Hospital, Aylesbury  
Including 2 months as Locum Consultant  
Mr NJ Henderson and M E Guindi**

Jul 2000 to Jun 2001

**Vancouver Hospital & Health Sciences Centre  
and the University of British Columbia  
Clinical Fellow, Orthopaedic Trauma  
Dr's PA Blachut, HM Brockhuysse, RN Meek, PJ O'Brien**

Jan 2000 to Jun 2000

**Nuffield Orthopaedic Centre (NOC), Oxford  
Joint Replacement Team  
Professor D Murray**

Jul 1999 to Dec 1999

**John Radcliffe Hospital, Oxford. Trauma Unit  
Mr R Handley, Mr R Keys, Mr M McNally,  
Mr GP Wilde, Mr K Willett, Mr PH Worlock**

Jan 1999 to Jun 1999

**Northampton General Hospital  
Mr EPJ Crawford**

Jul 1998 to Dec 1998

**Nuffield Orthopaedic Centre, Oxford  
Upper Limb Unit  
Mr P Burge, Mr AJ Carr, Mr H Giele**

Jan 1998 to Jun 1998

**Nuffield Orthopaedic Centre, Oxford  
Paediatric Orthopaedics  
Mr MK Benson, Mr TN Theologis**

Jul 1997 to Dec 1997

**Stoke Mandeville Hospital, Aylesbury  
Mr NJ Henderson, Mr D Johnstone, Mr M El-Guindi**

Jan 1997 to Jun 1997

**Nuffield Orthopaedic Centre, Oxford  
Orthopaedic Spine Unit  
Mr JCT Fairbank, Mr J Wilson-Macdonald**

Jul 1996 to Dec 1996

**Nuffield Orthopaedic Centre (NOC), Oxford  
General Orthopaedics and Oncology  
Mr J Spivey**

Jan 1996 to Jul 1996

**John Radcliffe Hospital, Oxford Trauma Unit  
Mr C Bulstrode, Mr P Burge, Mr R Handley,  
Mr GP Wilde, Mr K Willett, Mr PH Worlock**

Jun 1995 - Dec 1995

**Milton Keynes General Hospital  
Mr AS Floyd, Mr RS Gunn, Mr JA Lourie,  
Mr MH Weatherill**

## **POST- FELLOWSHIP SURGICAL POSTS:**

- Feb 1995 - Jul 1995                      **Radcliffe Infirmary, Oxford**  
**SHO Plastic and Reconstructive Surgery**  
Mr DJ Coleman, Mr TEE Goodacre, Mr S Wall
- Mar 1994 - Jan 1995**                      **Groote Schuur Hospital and the University of**  
**Cape Town**  
**Registrar Trauma Unit and Surgery**  
Prof. JD Knottenbelt, Dr's P Bautz, J Van Der Spuy
- Aug 1993 - Feb 1994                      **Nuffield Orthopaedic Centre (NOC), Oxford**  
**SHO Orthopaedic surgery**  
Professor J Kenwright, Mr AHRW Simpson,  
Mr K Willett, Mr PH Worlock

## **BASIC SURGICAL TRAINING AND HOUSE OFFICER POSTS:**

- Feb 1992 - Jul 1993                      **Worcester Royal Infirmary**  
**SHO General Surgery – 1 year**  
Mr SP Lake, Mr HT Williams, Mr CWO Windsor  
**SHO Orthopaedics and Trauma - 6 months**  
Mr AA Salam, Mr JH Eckersley
- Aug 1991 - Jan 1992                      **Radcliffe Infirmary, Oxford**  
**SHO Neurological surgery**  
Mr CBT Adams, Mr M Briggs, Mr RSC Kerr,  
Mr PJ Teddy
- Feb 1991- Jul 1991                      **University of Birmingham Medical School**  
**Prosector in Anatomy**  
Professor J Owens
- Aug 1990 - Jan 1991                      **General Hospital Birmingham**  
**SHO Accident and Emergency**  
Mr ON Tubbs
- Feb 1990 - Jul 1990                      **Dudley Road Hospital, Birmingham**  
**House officer general and thoracic medicine**  
Dr PB Iles
- Aug 1989 - Jan 1990                      **Birmingham Accident Hospital**  
**House officer general and trauma surgery**  
Mr EK Alpar, Mr RF Evans

## **ORTHOPAEDIC SURGICAL EXPERIENCE:**

### **Knee arthroplasty surgery**

My principle elective interest is surgery of the knee. This includes lower limb primary arthroplasty surgery, in particular of the knee. I am implanting contemporary knee prostheses into an ever-widening group patients including those with complex knee deformity, extremes of age and clinical complexity. I undertake a significant proportion of the complex primary, unicompartmental (partial) and revision knee replacements in the department at GWH. I undertake unicompartmental surgery through a minimally invasive approach. I started to use the next phase of the Oxford Uni-uncemented UKR, in 2007, initially as one of only 5 centres in Europe, as part of multi-centre evaluations, now in terms of shape matched blocks. I continue to evaluate computer navigation for complex knee arthroplasty surgery, and lead the way locally in the use of mini-partial Hemicap replacements and the use of a new synthetic ligament system (LARS). We became one of the 1<sup>st</sup> centres to use the Stryker shape matched TKR system in Europe in early 2012. We have reported good medium term results for patellofemoral replacements, which an example of our continuing success with a number of knee related clinical research projects over the past 5 years, much of the independent work is related to observations of clinical complexity, with myself as senior author.

### **Soft tissue knee reconstruction**

My principle elective interest is surgery of the knee This includes the management of soft tissue knee problems, including the use of contemporary methods of meniscal, chondral debridements and repair; knee ligament reconstructions, including multiple knee ligament reconstructions, and opening wedge osteotomy. I undertake a full range of surgery for patellofemoral joint problems, and also problems relating to joint surface loss in younger patients, undertaking microfracture and AMIC (autologous membrane induced chondrogenesis) techniques. I have undertaken ACI (autologous chondrocyte implantation) / M(membrane)ACI procedures in 2005, and continued to as part of the MRC funded ACTIVE multi-centre study, until its cessation; I've continued to use these for individual cases. I have used innovative techniques for complex ligament problems including contemporary synthetic ligament system (LARS and more recently Rotalok). I was in the vanguard of meniscal replacement in the UK, and attended a key cadaveric course in 2009 relating to this. I was recently invited as a founding member of the Biologic Knee Society in 2014.

During my time as a specialist knee surgeon and trainer, I've become increasingly aware of the importance of diagnostic, as well as clinical, complexity in determining outcomes following surgery and other treatment modalities.

During my training experience was gained in assessment and operative management of common and complex problems, both in Oxford, DGH's and Vancouver.

### **Musculoskeletal trauma surgery**

I am continuing to take an active interest in acute trauma and trauma reconstruction, particularly with peri-articular fractures and sequelae, with the use of more contemporary modes of fixation such as LISS, percutaneous and locking plate fixations and osteotomies. I have also undertaken / supervised a significant piece of research with regard to stratification of hip fracture patients. I was one of 2 lead clinicians involved in the trauma tendering process, and was appointed Trust Trauma Lead in late 2011, as part of the move towards Regional Trauma Networks in April 2012.

This is having gained a wide experience in the management of complex trauma problems such as periarticular, open, pelvic, acetabular and spinal fractures, particularly in Vancouver, Cape Town and Oxford. This includes both acute and reconstructive trauma, with the use of more contemporary modes of fixation, particularly in Vancouver. We've had continuing success with a number of orthopaedic trauma related clinical research projects over the past 5 years, much of it independent work and with myself as senior author.

## **ORTHOPAEDIC SURGICAL EXPERIENCE: (continued):**

### **Hip arthroplasty surgery**

Experience of “standard” primary cemented knee and hip replacements was gained particularly working for Professor Murray, Mr Crawford, and Mr Spivey. I have experience of uncemented, hybrid, hip resurfacings and hip arthroscopy, towards the end of training and early consultant years. Revision experience included impaction grafting, uncemented revision prostheses, periprosthetic fracture management, and complex knee revisions. I currently continue to undertake primary THR surgery for trauma.

### **Spine surgery**

My current remit within the unit is to support to the principle spinal consultants in terms of out-patient urgent referrals and cases, such as spinal/epidural infections, acute disc prolapses and spinal trauma evaluations.

Experience was gained particularly working at the NOC, Stoke Mandeville Hospital (SMH) and neurosurgery, in a wide range of spinal conditions and operations.

### **Upper limb surgery**

I have continued a limited practice seeing common upper limb problems only. Experience was gained mainly at the NOC in the management of a wide range of shoulder and elbow problems and with procedures such as arthroscopy, arthroscopic debridement, cuff and tendon repair, stabilisations and arthroplasty. Proximal upper limb trauma and reconstruction experience was gained Vancouver and Oxford.

### **Hand surgery**

Principally while working on the Upper Limb, Plastic and Trauma Units, I gained experience in the management of common hand injuries and conditions. I also gained experience of more complex problems and reconstructions.

### **Paediatric orthopaedic surgery**

Experience of the management of paediatric orthopaedic conditions was gained particularly working at the NOC, as well as DGH posts and John Radcliffe. Paediatric upper limb and spine experience was gained in relevant attachments

### **Musculoskeletal tumour surgery**

Some experience of assessment and management of bone and soft tissues was gained working for Mr Spivey in Oxford, as well as at the spine and hand units.

### **Visceral trauma surgery**

Experience was gained particularly in South Africa, in the management of major head, neck, chest and abdominal injuries, which were frequently multiple and penetrating. Management included resuscitation, including leading resuscitations, intensive care and surgery.

### **Plastic and reconstructive surgery**

Experience was gained in the management of soft tissue and bony abnormalities / deficit due a wide range of pathologies, including hand, craniofacial local- and free- flap surgery.

### **Intensive care**

I became familiar with intubating, ventilating, invasive monitoring and managing critically ill intensive care patients in Cape Town. I managed high dependency patients in Vancouver, Neuro ITU and Worcester.

### **General and thoracic surgery**

Experience was gained in Worcester of principles of general and urological surgery. I gained experience of trauma thoracotomy and laparotomy in Cape Town.

### **Neurosurgery**

Experience was gained in a wide range of cranial and spinal surgical problems. I was taught procedures such as laminectomy, burr holes, craniotomy and shunt insertions.

### **Overseas Experience**

I have sought and been privileged to work, study and observe differences and similarities in Orthopaedic & Trauma care and health care services in general, in New Delhi as a student, in Cape Town as a registrar, Vancouver as a fellow and most recently as teaching faculty in Malawi. My time abroad also allowed me to visit other hospitals and doctors in those regions.

## **TEACHING, EDUCATION & MENTORING EXPERIENCE:**

- As a consultant I've been an educational and clinical supervisor to a number of foundation, core and specialist trainees, trust doctors and physicians' assistants over the past 14 years, and continue to do so. This includes use training, teaching mentoring of trainees in all aspects of clinical orthopaedic practice and use of the Foundation e-Portfolio and ISCP web based assessments. My feedback, both formal and informal, relating to this has almost always been excellent or good.
- As an invited faculty member on a number of international meetings and having worked abroad, I've had the opportunity to train and teach in a number of countries.
- I am the prime contributor to the department's in-house training and teaching resource, available to all trainees and doctors, which I set up in 2007.
- I am a member of the Trust's Consultant Mentoring Group for new consultants.
- As clinical lead since 2013, I've also partaken in the appraisal process for many of my consultant and senior staff grade colleagues.
- I continue to teach doctors, nurses, physiotherapists, physicians' associates, osteopaths and medical students. This includes orthopaedic and medical principles, basic surgical operative training and advanced surgical principles & skills. This includes sessions at the Regional Teaching Programme.
- I've been continuing to train physiotherapy, nurses, physicians' associates and radiographers for extended roles in knee and fracture clinics.
- I was an AO/ASIF and ATLS instructor which I have recently recertified in ATLS in 2014. I have been instructing since 2000. I am on / have attended as faculty on a number of other courses and meetings over the past year as noted on page 9, such as the Oxford Unicompartmental, Hip Fracture etc.
- I contribute to the Foundation & Generic Trust Teaching programmes.
- I contribute to the Oxford Regional Training Programme in the Knee section.
- I continue to be invited to speak to various groups about orthopaedic and trauma related topics, for example in the last 2 years I've spoken to a motorcycle club, school 6<sup>th</sup> formers, podiatrists, physiotherapists, osteopaths, GP's as well as orthopaedic surgeons at various forums, all with excellent, positive feedback. Lecture title as detailed in the appropriate section.
- I had principle responsibility for organising the Orthopaedic SHO teaching, SHO induction, competency assessments and appraisals since August 2002 up to 2012, and continue to participate in formal teaching sessions.
- I have participated in ARCP assessments and regional trainee selection programmes over the years, and aim to represent Severn in the national selection processes, to which I've been invited, in the near future.
- As the department's lead for research and audit I've supervised a large number of my trainees and trust docs to successfully complete projects to the level of national / international presentations and publications over the past 12 years, particularly the past 5. I'm continuing to do this.
- I was the Royal College Tutor for all surgical SHO's including Orthopaedic SHO training, from 2004 to 2012. This included liason with the English Royal College, Severn, Oxford and Wessex training programmes, and included the transition of core training in surgery from Wessex and Oxford to Severn, and maintaining high levels of trainee satisfaction during this time period. I continue as clinical supervisor to at least one SHO grade doctor and 1 specialist trainee.
- I have lectured to Oxford Brookes Osteopaths and McTimoney Chiropractors.
- I was a tutor to medical students in Orthopaedics in Oxford and Vancouver and continue to successfully teach medical students in the department and supervise student projects.
- As a UBC faculty member in Vancouver I taught undergraduates and residents in a PBL environment, which I still use in my teaching and training sessions currently.

## **MANAGERIAL/ADMINISTRATIVE**

Clinical Lead for Trauma & Orthopaedics, part of Planned Care Division*	2013-
Steering Committee Chairman for ACHE (Arthroplasty Candidacy Help Engine)	
Study Group (NIHR, HTA Study)*	2014-
GWH Outreach Parenteral Antibiotic Team (OPAT) representative	2013-14
Trauma Lead Clinician for GWH Trauma Unit, for 2 Trauma Networks*	2011-
Member of Trust's Consultant Mentoring Group*	2010-
Member of the Trust Influencing Group	2009-
GWH Medical Education Committee Steering Group	2009-
MDT Trauma Emergency Care Group	2008-
MDT Resuscitation / Trauma Team Group*	2008
Chairman and founder of Swindon Orthopaedic Limited*	2007
MDT Working group on enhanced recovery / reducing length of stay*	2007-
GWH Trauma Tender Group*	2007-
Severn deanery MTAS shortlist/interview panel	2007-
1 of 2 surgical representatives for GWH Trust CNST appraisal	2005
Tutor for Wessex Region T&O Finishing School	2005
Organised Oxford Region SAC T&O & Wessex BSEC visits	2004-5
Clinical Lead Surgery, GWH Emergency Services Network	2004-8
GWH Hip and Knee Tender Group*	2004
GWH Foundation Programme Steering Group / PGMEC	2004-10
Clinical Lead Surgery, GWH Emergency Services Collaborative	2003-4
Organiser of RCS Presidential visit to GWH	2004
GWH NOF# care improvement MDT group*	2003-7
SHO Surgical Tutor for the RCS England*	2003-
Responsible for evaluating the EWTD on Orthopaedic Dept	2003-4
Responsible for Orthopaedic study ½ days and SHO inductions*	2003-
Responsible for Orthopaedic SHO weekly rota (	2003-4
Educational Supervisor & T&O SHO teaching and appraisals*	2002-
PMH / GWH Transfusion Committee. Surgical representative*.	2001-
University of Birmingham Ten Year Reunion Committee	1999
Hip Replacement Care Pathway Committee Member, NOC	1998
Student representative on the Faculty Board of Medical School	1986-87
Editor of the Medical School Paper & Graduands Yearbook	1986-87
Chairman of the Medical Society Entertainment Committee	1986-87

## **COURSES, AS FACULTY**

Proven Performance in Knee Replacement, Swindon	2014
Oxford Cadaveric Uni Knee Replacement, Bristol	2013 & '15
Hip fractures: techniques and solutions, Selzach	2013 & '15
New developments in Oxford Uni Knee Replacement, Oxford	2012
Hip fractures: techniques and solutions, Oxford	2012
Swindon Basic Knee Arthroplasty Course	2011
Key Questions in Knee Surgery, Oxford	2011
Bristol / Oxford Unicompartmental Arthritis Meeting	2010
LARS Experts Forum, Oxford	2009
Oxford / Bristol Partial Knee Replacement Meeting, Oxford	2009 -
Biomet Partial Knee Replacement Masterclass, Wootton U Edge	2009
Biomet Arthroscopic ACL Meeting, Maidstone	2008
Current concepts in trauma management (OTC), Nice	2008*
Osteosynthesis Trauma Care (OTC) Meeting, Chamonix	2007
Comprehensive Team Approach, Hip & Knee Meeting, Orlando	2006

\* represents continuing and future commitments

## **COURSES AS PARTICIPANT**

ATLS Provider Course, Oxford	Nov 2014
Biologic Knee Society Meeting (Inaugural, invitation only), Reading	Oct 2014
Appraisal Training for Appraisers, Swindon	Jun 2014
Technology in Healthcare Meeting, Swindon	May 2014
Attune (TKR) Early Adopters Meeting, Miami	Nov 2012
Revalidation Training For Current Appraisers, Swindon	Nov 2012
New Solutions in Knee Joint Resurface & Recon (Cadaveric), Coventry	Sep 2012
Meniscal Repair Cadaveric Study Day (Linvatec), Oxford	Jun 2012
Knee Soft Tissue Reconstruction (Arthrex) Study Day, Munich	May 2012
Mentoring Study Day, Swindon	Feb 2012
Paediatric Immediate Life Support Course, Swindon	Nov 2011
Educational Supervisor Study Day, Swindon	Jul 2011
Meniscal Replacement Cadaveric Course, Heidelberg	Sep 2009
Clinical Investigation and Root Cause Analysis, Swindon	Jun 2009
ARCP Update, Study Day, Bristol	May 2009
Good Clinical Practice in Research, Swindon	Apr 2009
Orthopaedic Sports Injuries, London	Nov 2008
Clinical Outcomes and Research, London	Oct 2008
ARCP Training Session, Bristol	Jul 2008
MMC / ST doctors Selection Training Day, Bristol	Dec 2006
ACL Study Day, Basingstoke	Oct 2006
ISCP Study Day, Salisbury	Sep 2006
25 <sup>th</sup> Advances in Knee Arthroplasty Course, London	Jun 2006
Rapid recovery in joint arthroplasty, Meeting, Rome	Oct 2004
Emergency Services Collaborative National Workshop	Apr 2004
ACI study day and visit to RNOH (Verigen), London	Mar 2004
Introduction to Problem Based Learning, Vancouver	Oct 2001
Management Training for Specialist Registrars, Oxford	Jun 2000
ATLS Instructors Course, RCS Eng, London	May 2000
FRCS (Orth) Course, Bristol	Oct 1999
Basic Ilizarov Course, Oxford	Jun 1999
Advanced Trauma Life Support Provider Course (IP)	Mar 1999
Exeter Hip Course, Exeter	Sep 1998
Medical Teachers' Training Course, Oxford	Jul 1998
AO Basic Course, Davos	Dec 1996
British Hand Society, Hand Course. Oxford	Mar 1995
Advanced Trauma Life Support Provider Course	Aug 1993
Advanced Cardiac Life Support Provider Course (IP)	Aug 1993
Edinburgh Fellowship Course, RCS Edin	May 1993
Northwick Park Anastomosis Course, London	Oct 1992

## RESEARCH OVERVIEW

My research to date has all been undertaken whilst working full time and thus far unfunded in the NHS. I have created an extensive body of observational clinical research documenting certain key features of what I consider good and/or novel practice, including my observations and conclusions on clinical complexity and contemporary treatment. My clinical complexity work in particular hopefully sheds additional light onto flaws in big pure data collection and conclusions based on deterministic models of healthcare and disease states.

As of the end of 2014, I have undertaken as senior or lead investigator/author 23 peer reviewed publications, 93 national or international presentations, 4 book chapter.

## RESEARCH PUBLICATIONS

### Publications; submitted or due to submit

Jonas S; Rooker J, Palmer AJR, Dimbylow D, Giritharan S, Deo S. - 5-year outcomes of revision of failed uni-compartmental replacements to total. A matched pair cohort study. *Acta Orthopaedica*-2014-787 - (8147)

## **RESEARCH: BOOK CHAPTERS AND ACTIVE PROJECTS**

## **BOOK CHAPTERS:**

### **Completed, in print:**

Deo S D. **Injuries to muscle tendon units.** In Oxford Textbook of Orthopaedics and Trauma. (Ed.s - Buckwalter, Bulstrode C, Carr A J, Fairbank J C T, Wilson-Macdonald J) OUP. Completed Nov 1997. In press 2002. Editing for 2<sup>nd</sup> edition.

Deo S D, Mandalia V. **Principles of care in the operating room.** Chapter 15, Section 1. New 25<sup>th</sup> edition of Bailey & Love's Short Practice of Surgery. Section editor C Bulstrode. (Ed.s - Russell RCG, Williams NS, Bulstrode CJK) Hodder Arnold. Completed Nov 2006.

Deo S D. **Neurogenic claudication.** In Management of low back pain in primary care. (Ed – Bartley R and Coffey P) Butterworth Heineman. In press, Jan 2001.

Deo S D. **Injuries to muscle tendon units.** In Oxford Textbook of Orthopaedics and Trauma. (Ed.s - Buckwalter, Bulstrode C, Carr A J, Fairbank J C T, Wilson-Macdonald J) OUP. Completed Nov 1997. In press 2002.

## **RESEARCH WORK IN PROGRESS:**

- Analysis of pain & function following TKR / UKR / ACLR: Pilot data collection Oct 2010, in conjunction with pain team at GWH. Includes early results post-TKR in young patients. Data analysis on-going.
- Analysis of early pain & function following TKR, comparing shape-matched to conventional replacement.
- Role of physiotherapy in knee surgery. Data collection on-going currently by Fiona Thorne, Specialist Physiotherapist.
- Complexity in knee diagnosis, as well as treatment. (Pathologic, diagnostic, clinical complexity)
- Part of Signature Trial – UK surgeon in worldwide RCT of conventional Vs shape matched. Recruitment started in Jul 2014.
- Complexity stratification/classification in knee & hip fracture surgery
- Aim to roll out the complexity classification system to all TKR patients
- Part of multi-centre evaluation of uncemented Oxford UKR (bilateral study)
- Axsos plating for peri-prosthetic fractures of femur
- Analysis of outcomes as related to pre-op clinical complexity and post-op knee scores
- X-ray evaluation of UKR implantation at GWH
- Coding and clinical complexity
- Diagnostic complexity and the role of a knee pain classification system.
- The pivot apprehension sign: a new clinical test of ACL laxity. Analysis complete, ready for presentation. Inter- & intra-observer reliability awaited.
- Evaluation of Tisseal / fibrin in knee replacement patients – contributor, VSatish is CI.

## **RESEARCH ACTIVE PROJECTS:**

## **PARTICIPATION IN MULTI-CENTRE STUDIES:**

- Invited as participant in Signature UKR worldwide study (only UK surgeon, Biomet) 2012, due to start 2013
- Principal Investigator GWH for AIM Study (Multi-centre RCT, Oxford) 2011-13
- Contributor / surgeon for TOPKAT study (Multi-centre RCT, Oxford), 2010
- Invited & joined the LARS UK Experts forum 2010.
- Invited & joined the UK Clinical Leaders Network, Sep 2009
- Invited & joined Thames Valley CLRN for Injuries & Accident, Mar 2009
- Founder member by invitation to GenuKnet, multi-centre collaborative research group based in Oxford, 2008.
- ACTIVE Study – RJAH / Oswestry leading, since 2006-09
- RCT Uncemented Oxford UKR study. Oxford Uni group, 2005
- Invited & joined the Uni Knee User Group 2005
- ACI / MACI Study – RNOH group leading, 2004-5

## **POTENTIAL RESEARCH PROJECTS:**

- RCT of mobile Vs fixed bearing UKR
- Assessment and quantification of tibia vara in pre-operative knee patients, evaluating visual and radiological assessment tools.
- Incidence of bone bruising in professional footballers. Recruiting & data collection.
- The role of portable ultrasound in DVT detection in post TJR patients – 2<sup>nd</sup> phase due to commence, funding applied for, awaiting probe and adequate training prior to recruiting & data collection.
- The use of the antibiotic bead pouch in open fractures
- Antero-medial synovitis as a cause of mechanical and knee pain symptoms.
- Patellar denervation in TKR. Due to re-start with bilateral TKR's. ethics approved.
- Use of balloon kyphoplasty technique with bone substitute in tibial plateau fractures.
- Can clinical complexity rules apply to all operative treatments?
- Role of a loading device for CT scannograms for pre-operative assessment of osteotomy.
- Effect of complexity on revision TKR outcomes.
- Cadaveric biomechanics studies of locking plates in the proximal & distal femur
- Is there local complexity in UKR surgery?
- Roll-out of complexity classification to Bristol and Oxford research centres
- Role of collagen sub-types in post-TKR stiffness.
- The role of basic calcium phosphate and intracellular synovial iron ions in progression of osteoarthritis – grant proposal and protocol being constructed. bi-centre, basic science project.

## AUDIT PROJECTS

### CURRENT AUDIT PROJECTS:

- Theatre delays in hip fracture patients
- Theatre delays in elective TKR/UKR patients
- CEPOD deaths in T&O 2003-2014
- ISS patients >14 audit. Data presented to Regional network events.
- Incidence of emergency spinal admissions
- Prolonged length of stay in some TKR patients
- Delays in ankle fracture surgery 2008, 2010 – 2014 re-audit underway
- Theatre Checklists in T&O
- Deo S D, Woods S, Andrade-Carlos I, Relationship of day of admission and theatre delays for neck of femur fracture patients.
- Khan I, Deo S, Satish V. MRI requesting and correlation with management and operative findings.
- Navadgi B, Satish V, Deo S. Physiotherapy following TKR. Perception and satisfaction.

### COMPLETED AUDIT PROJECTS (since 2001)

- Gill S, Owen JM, Deo SD. Surgical safety checklists: audit of NPSA and WHO checklist usage. Podium. 7th SICOT/SIROT Annual International Conference. Gottenburg Sept 2010
- Deo S D, Kandekhar S, Vallamshetla R, Turner R, Woods S. Epidemiological trends in patients with neck of femur fractures. Retrospective study completed.
- Caldwell S, Phillips K, Deo S D. Evaluation of DONOR auto-transfusion in total knee replacement patients at GWH Jain S, Deo S D. Impact of a new helipad on the trauma services in a large DGH.
- Jain S, Turner R, Von Arx O. Audit of theatre delays in trauma 2003-4. (NOF # subset)
- Stewart M, Jordan M, Deo S D. Evaluation of a Surgical Assessment Unit for Group IV, Emerg Services Collaborative.
- Deo S D. NCEPOD audit of T&O deaths in GWH. 2002.
- Konyves A, Deo S D. Evaluation of auto-transfusion in total knee replacement patients at Princess Margaret Hospital – **audit completed**. Commenced Feb 2002.

## **OTHER TRUST DOCUMENTS / PRESENTATIONS**

### **2014**

- Peer review documents for Severn and Thames Valley Trauma Networks
- Virtual fracture clinic business case and template for set-up
- SAFER ward round guidelines, templates and business plan for T&O dept
- Notes review template for T&O
- ED flowchart for acute knee problems
- Template for virtual fracture clinic educational website
- Business case for 2 new consultants

### **2013**

- Peer review presentations for Severn and Thames Valley Trauma Networks
- Business case for physician associate trainees within T&O (with S Apperley)

### **2012**

- MSK Sepsis datasheet (paper & electronic) and set-up of weekly MDT Meetings
- Trauma Unit GWH, for Severn Trauma Network Meeting Jan 2012
- Trauma Unit GWH, good & need to improve. TV Trauma Assurance Event Feb 2012
- Trauma Network summary document.
- Chronic knee conditions flowchart
- Management of severe knee OA
- Consultant only listing algorithm
- Multiple CBD and Trauma teaching talks.

### **2011**

- Business case for shaped match TKR
- Presentation of coding errors and complexity to Trust Board Feb 2011
- Revised acute knee problems flowchart

### **2009-10**

- New format re-application for Zimmer Knee Fellow
- Job description for combined SHO/junior registrar post - Mar 2010
- Cost of open access MRI for knees. Presented to PCT Feb 2010
- Complexity, coding and costings. Presented to Planned Care Nov 2009
- Coding errors in knee surgery. Discussion document Mar 2010.
- Multiple presentations sent for Virtual Campus Oct 2009
- MRI letter templates for patient follow-up
- Patient information booklet re-editing for TKR, UKR, Osteotomy.

### **2007-8**

- Application for Zimmer Knee Fellow
- Research database update
- Proposal for Swindon Orthopaedic Outcomes Unit
- Contributor to T&O Strategy paper
- New edition of VTE prophylaxis
- TKR Pain diary
- Patient information document for TKR and UKR patients
- Proposals for combined pain clinic, and for extensive post-operative pain survey
- Business cases for LARS ligament for MPFL recon & Combined Complex Knee Pain clinic.

### **2006-7**

- Knee arthroscopy exercise sheet
- Knee replacement surgery patient booklet
- Uncemented TKR protocol
- Case for bilateral simultaneous TKR at GWH. Discussion with PCT.
- Improving theatre efficiency

## **OTHER TRUST DOCUMENTS / PRESENTATIONS prior to 2006:**

### **Prior to 2006**

- 2<sup>nd</sup> Proposal for Surgical Assessment Unit at GWH, 2005.
- Proposal for restructuring of surgical SHO's at GWH 2005.
- FRCS Orth Trauma Viva presentation 2005.
- Final report for Group 4, Surgical Division of the Emergency Services Collaborative 2004
- Proposal for Surgical Assessment Unit at GWH 2004
- Edited GWH hip care pathway 2004.
- Theatre note templates for TKR and UKR, 2004.
- Neck of femur care pathway document 2003-4
- Major trauma clerking sheets 2003
- Orthopaedic consent teaching documents – subsequently adopted and used by other departments across the trust. January 2003.
- New Orthopaedic SHO handover sheet – Jan 2003.
- New SHO weekly rota sheets – Oct 2002.
- Orthopaedic Department VTE protocol – October 2002, re-edited up to 2008
- Further contribution and editing of orthopaedic patient advice leaflets, particularly relating to fractures.

## **INTERACTION WITH INDUSTRY**

Stryker with regard to research funding and new Knee arthroplasty courses.

- The Girdlestone Orthopaedic Society
- AO/ASIF (Association for Study of internal fixation) UK
- Meek Club (Vancouver Trauma Group Alumni), Canada
- Colston Tennis Club
- Lechlade Veterens Football Club
- Birmingham Medical School Old Boys RFC

## **INTERESTS:**

Outside work I enjoy being with my family, and we particularly enjoy walking, cycling and camping. I maintain a keen interest in my children's sports teams. I keep fit by running, playing tennis, soccer, skiing, and golf. I ran my first marathon in October '98, have done regular ½ marathons and sprint triathlons since 2005. I've re-started playing competitive tennis since 2010 for Colston & Lechlade LTC's. In Oxford as a trainee I captained the NOC 5-a-side football team, and played rugby for Osler RFC. I represented my medical school in rugby, soccer and cricket. As cast member, writer and director, I participated in nine medical school revues, and several university and hospital Christmas shows, from 1989 to 1998.

## **CAREER PLANS:**

My aim is continue to provide high quality Orthopaedic and Trauma care while developing of my key interests, namely: sports knee and lower limb joint replacement surgery, the early management of trauma, complex orthopaedic trauma and sports trauma problems in Swindon.

I will continue to contribute to the faculties of a number of national and international courses, journals and books. I aim to continue as actively as previously with teaching, audit and research interests in my current hospital setting. I hope to continue to develop my research and teaching interests in particular over the next 2-3 years, in particular my observations relating to complexity of patients in clinical practice. This topic also dovetails nicely with one of my other key research interests which is how we analyse and treat pain in patients following knee surgery. Both main topics would have applicability to other specialties. I feel these strands of research are not only for the profession, but also for patient understanding, health care commissioners and future generations of healthcare workers.

**REFEREES:**

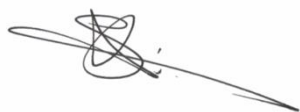

Mr M K Benson (retired), Consultant Orthopaedic Surgeon  
c/o Nuffield Orthopaedic Centre  
Windmill Road  
Headington Telephone: 01865 741155
