ElectraTek Limited Company

OWNER: Bert Mitchell

ORGANIZATION: Edmonton Company, organized 2009

HISTORY: ElectraTek Limited began as a small residential, commercial and maintenance company with Bert Mitchell, 14 years experience, and 1 apprentice. Everyone who worked with Bert at his previous employer knew that it was a matter of time before he left and started his own company. Bert's determination and quality is what has made his company stand out in a concentrated market.

SAFETY: ElectraTek is committed to completing each task effectively and safely. Safety is required to be on everyone's mind and it is no different at ElectraTek. No job is worth the risk of injury.

CAPABILITIES: Primarily a residential and commercial contractor, based in the western Edmonton area. ElectraTek can provide electrical design and consulting capabilities, with experience in the following specialty aspect of electrical work:

- Trenching
- Underground splicing, locating and testing
- Electric in-floor heating sales, installation and repair
- Street light installations and repairs
- Roof top unit repair and maintenance
- Solar ready preparations
- Backup generator sales and installations
- Hot yoga studio design and builds

ELECTRICAL QUALIFICATIONS

Encore Master Builder, North east Edmonton Verte project- Residential 120/240V service installations, design, wiring and finishing work. Each home in this area is carefully designed and laid out before it is presented to the client. Our estimating department is responsible with providing Encore Master Builder with the most recent code applications while staying competitive in today's challenging home building market. ElectraTek stays competitive by providing above minimum code ethics but staying within the acceptable price range.

Park Royal Homes, North west Edmonton Oxford project - Residential 120/240V service installations, shared unit design, wiring, finishing work, security, cable and internet wiring and terminations. This project also requires us to be very involved in customer design and relations, we are to meet with each client before electrical work commences and complete an on-site visit then design an electrical layout to meet their needs. Each home in Oxford is a multi unit project with the main and second floor of one unit while the basement is another. These units demand proper fire rating and smoke alarm design for safety and to meet today's building and electrical codes.

Urban Luxury Homes, South east Edmonton Laurel Greens project - Residential 120/240V service installations, design, wiring and finishing. Residential farm service installations, trenching, 120/240V disconnect equipment installations. On-site client meetings and electrical layout design.

Gercon Construction, Edmonton and surrounding areas custom homes - Residential 120/240V service installations, design, wiring and finishing. Trenching and underground cable installation. On-site client meetings and electrical layout design.

Justin Reynolds, West Edmonton custom home - Residential overhead 120/240V service installation, design, wiring and finishing. Trenching and underground cable installation. Custom electrical layout design and extensive client interaction.

Moksha Yoga Studio, Sherwood Park hot and warm yoga studio project - Commercial 600V - 120/208V service installation, 75 KVA transformer installation. Wiring, finishing work as well as data and telephone wiring. ElectraTek was responsible for supplying and installing the Nuvo sound system and wiring. Supply and installation of Enerjoy radiant heating panels in the warm and hot yoga studios as well as the electrical interlocking required to control temperature and humidity. Control and security wiring and installation. Emergency lighting and fire alarm wiring and installations.

KOA Hot Yoga, Fort Saskatchewan hot yoga studio project - Commercial 600V service, 100 KVA transformer. Wiring, finishing work, data and telephone wiring and terminations. Control and security wiring and installations. Supply and installation of 1100W Enerjoy radiant heating panels in the hot yoga studio and electrical interlocking required to control heat and humidity. Emergency lighting wiring and installation, fire alarm design, wiring and installation.

Bethel Stone Showroom and Warehouse, Edmonton granite shop project - Commercial 600V service. Wiring and finishing work, data, phone and security wiring and terminations. Trenching, 1 hp slurry pump wiring, 3 hp pump skid wiring, water recycling plant wiring, 600/480V 75 KVA Titan Saw wiring, CNC machine wiring. Emergency lighting wiring and installations, fire alarm design, wiring and installations.

H&R Transport yard, West Edmonton project - Supply and install LED yard lighting, supply and install electrical switchgear equipment. Lighting maintenance, LED upgrading. Removing yard lighting poles and re-installing for new fencing project. Remove yard panel for new fence project.

Intergrated Mechanical Services Ltd., Edmonton and surrounding area projects - Commercial rooftop unit repairs and maintenance. Most of the work we do with this contractor is on rooftops of commercial buildings re-wiring and maintaining rooftop units. LED retrofitting and conduit repairs.
