

ARCHITECTS , PLANNERS & DEVELOPERS

COMPANY PROFILE

About the Company:

JOTA-Arktekts is an Architectural Firm who's Principals, Jose Pachi Garcia and Jose Evencio Rodriguez have more than 17 years of experience in the Design, Management, Construction and Administration of a wide variety of Projects in Puerto Rico.

We are a professional design team offering comprehensive architectural and engineering services founded by Architects Jose Evencio & Pachi Garcia who have more than 17 years of experience. The firm's Principals independently have successfully completed a large number of projects for Government and private enterprises, and is organized to bring together the necessary resources to serve clients in need of faster and more comprehensive architectural services. Pachi previously worked in one of the most recognized and largest development teams in the Island, Prisa Group specifically side by side with Owner Friddel Stubbe and Eng. Orlando Mendez. After departing from Prisa Group, Pachi worked independently in the Design, Design-Build and Construction majorly on residential projects. Jose Evencio previously practiced Architecture in one of the Island's top Firms Taller Borinquen/Quinones & Rodriguez where he worked from an entry level architect to becoming a Principal/Administrator of the firm under the wing of he's belated father Evencio Rodriguez. Together they have assembled a prime combination of backgrounds and ideals to for a unique well rounded Architectural Firm which addresses the needs of a wide range of projects.

In JOTA-Arktekts we understand how to successfully work with high level difficulty projects and develop them in order to leave a remarkable legacy of how we can better serve the island. The firm offers an experienced and highly qualified consulting team for your specific needs. All projects are directed and executed by the principal partners who sustain direct communication with clients and their enterprises. The latest CAD technology is utilized along with networked cad stations, and an online communication to maximize production of Contract Documents, while providing highly efficient coordination with our consultants and clients.

Firm Information

JOTA-ARKITEKTS, founded in 2012, is a professional design team whose partners have been offering comprehensive architectural and engineering services since 1995.

The firm's partners have successfully completed a large number of projects for Government and private enterprises, and is organized to bring together the necessary resources to service clients in need of faster and more comprehensive architectural services. All projects are directed and executed by the principal partners who sustain direct communication with clients and their representatives.

When engaged in projects of high complexity or when a particular aspect requires additional research, the team compliments its services with established relationships with professionals in the different specialized fields of design, engineering and construction. In addition to offering a greater assurance for the client, this special consultation can often make for a more precise and successful job.

JOTA-Arktekts is a professional design team offering comprehensive architectural and engineering services founded by Architects Jose Evencio & Pachi Garcia who have more than 17 years of experience. The firm's Principals independently have successfully completed a large number of projects for Government and private enterprises, and is organized to bring together the necessary resources to serve clients in need of faster and more comprehensive architectural services. Pachi previously worked in one of the most recognized and largest development teams in the Island, Prisa Group specifically side by side with Owner Friddel Stubbe and Eng. Orlando Mendez. After departing from Prisa Group, Pachi worked independently in the Design, Design-Build and Construction majorly on residential projects. Jose Evencio previously practiced Architecture in one of the Island's top Firms Taller Borinquen/Quinones & Rodriguez where he worked from an entry level architect to becoming a Principal/Administrator of the firm under the wing of his belated father Evencio Rodriguez. Together they have assembled a prime combination of backgrounds and ideals to for a unique well rounded Architectural Firm which addresses the needs of a wide range of projects.

The Principals have worked in a variety of projects including but not limiting to the following:

- Contracts with the Housing Department for HUD Program Residential Inspections and environmental assessments, working directly with the Director of the HOME Program within The Housing Department.
- Property Assessments for ADA and Code Compliance for existing buildings, especially Educational and Commercial Buildings.
- Design Development and Construction Documents for a wide range of projects, some of them included herein.
- Project Management for wide range of different projects.
- Value Engineering.
- References upon request.

The firm utilizes the latest CAD technology, Networked cad stations, and a Internet Web Page to maximize communication and production of Contract Documents, while providing a highly efficient coordination with our consultant and clients.

The firm carries a professional liability insurance and will provide coverage for a project at the client's request.
