

If you have a pattern/thread preference, please include the ideas you would like on the order form in the special instruction section and include the order form with your package. I have pattern pictures I can send you too, if you wish, or I am happy to do something I think will look nice.

Please make sure quilt top, batting and backing are separated, no stitching or pins. The backing and batting need to be 4 inches bigger than the top, if that is a problem let me know. Also, please ensure all pressing is done before you send.

If you would include a return label for returning your package that would be great. Also, please use a box big enough to send back the finished quilt in, the finished size has more bulk to it. I will take the cost of shipping and add the same amount to your invoice. I recommend insuring your package and let me know the insurance amount; I will make sure I insure for the same amount on the return shipping. Also, please wrap your quilt in a plastic bag to ensure no damage in transport.

Once the quilt arrives, I will let you know it's here and then I will set up an invoice through PayPal for the quoted amount of your quilt plus the added shipping, if for some reason the quote is different I will contact you first.

I am currently approximately 3-4 weeks out, if you have a specific deadline please note that on your order form.

If you have any questions, don't hesitate to contact me. Thanks again. I look forward to working with you!

Happy Quilting!
