

UBC AeroDesign

Sponsorship Booklet

2019-2020

Our Mission

To provide professional development opportunities and a second classroom for students passionate in aeronautical engineering.

Who We Are

UBC AeroDesign is an engineering student design team that designs, builds and flies fixed-wing, payload-lifting, remote-controlled airplanes. We compete in the annual SAE Aero Design series against universities from around the world to take on a real-life aviation challenge. In 2020, we will compete in the SAE Aero Design West Competition in Fort Worth, TX.

Be a Part of Our Success

ADV **5th** Overall & **2nd** in Design Report in SAE Aero 2019

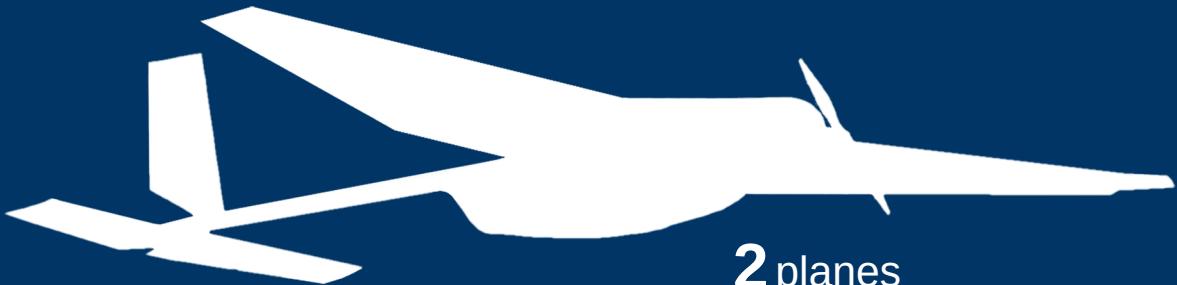

15 Top 5 Overall finishes since 1992

8 Top 3 in Design finishes since 1992

20 sponsors & **\$36k** budget in 2018-2019

63 members across **13** fields of study

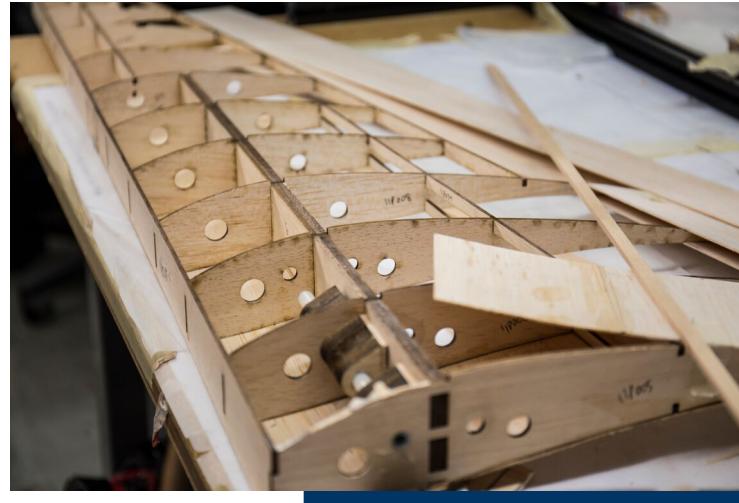

2 planes

The Design Challenge

The **Regular Class** challenge involves a short take-off and landing bush plane that carries outsized cargo. Constraints include a 10-ft wingspan, 1000 W of power, and no composite construction.

The **Advanced Class** challenge is to lift and release various payloads onto a target from an altitude of 50–100 ft, including autonomous gliders that land themselves! Composites are allowed.

Sponsorship Benefits

As a student-run team, we rely on the generous support of our corporate sponsors and local donors to achieve our goals. Here's what we can offer you. Custom benefits can also be arranged for any tier.

— Only one —
