accepting any electronics this year due to the cost. Discussion was held on the cost and alternatives for recycling electronics. Ferguson said Cindy has printed flyers to hand out during the Fall Cleanup with information from the County for places to recycle electronics.

Township Building Air Quality – Zimmerman said the duct cleaning services the Board approved last month were completed. Ferguson said the air seemed better after the cleaning was done, but the employees are still experiencing the same symptoms, the problem is not solved. Zimmerman said the proposal for \$2,430 (1Source) is not to fix anything, just to determine if there is anything wrong and after that they will invoice us for services to correct the issues; he feels it is an open ended proposal. Ferguson said 1Source provides diagnostic services only, she has not found anyone who will do both diagnostics and remediation.

Kosack asked if it affects the Zoning Officer and Ferguson said it has sometimes. Ferguson said she is the one who is here long hours and with consistent exposure she gets pain in her hands, etc. Ferguson said she doesn't want to work in the building anymore because she knows whenever she comes in she will be sick and won't get relief until she leaves; sometimes it takes hours after she leaves to feel better.

Zimmerman said we don't have the expenditure budgeted, how do we plan on paying for it. Zimmerman said he does not want to be derelict as an employer; the duct work and HVAC has been cleaned. Ferguson asked about the insulation. Zimmerman told Ferguson the insulation hasn't changed in the thirteen years she has been here, if anything has changed she has; that doesn't mean there is a problem with the insulation. Ferguson said the heating system has been changed and her health has declined since she is working here.

Zimmerman asked Solicitor DiNicola what liability the Township has. DiNicola said they are raising issues regarding personal medical information. Zimmerman asked if they are derelict if they don't address the issue tonight. DiNicola said generally speaking from an employer's perspective you've taken appropriate action so far. Kosack said as an employer we are obligated to find out what is wrong. Zimmerman said he would like to table it until next month's meeting.

Kosack asked how we would pay for things in an emergency situation. Ferguson said we would pay and figure it out later; take the money from Capital Reserves.

Kosack said we owe it to the employees to move forward. Discussion followed on the bid from 1Source to diagnose the problem. Ferguson said it is a two-fold issue, to diagnose the problem and to remediate the problem. Zimmerman said you cannot approve a company to do something without the cost. Ferguson said you can set a certain amount to investigate and remediate a problem. Zimmerman said he is not comfortable in doing that without firm numbers. Kosack said a decision would be made at the budget meeting on October 4th.
