

## CLINICAL HEALTH INFORMATION FORM

When your BGV is unwell, your vet will often do various tests to diagnose the problem. We would like you to tell us the results or final clinical diagnoses when a condition was first confirmed. With your vet's help if necessary, please complete this form and include any relevant information provided by your vet.

**THIS INFORMATION** will be confidential to the BGV Club Health Officer receiving it. General data will be used by the BGVC and shared with the PBGV Club of America who are completing a similar study. It will help determine whether any health problems need researching for the future. Specific details about you and your BGV will NOT be published.

\* *Necessary information.*

### BGV INFO

Breed: \* Grand  Petit

Registered Name: \*

Reg Number:

Sire (father):

Dam (mother):
