

## Wine Amphora

This is a beautiful amphora shaped wine decanter complete with a metal stand. It is glazed inside so your wine will not seep through the clay.

Decanting improves most wines whether young or old, red or white, expensive or cheap.

This amphora makes a statement on any table and will keep the red wine at an ambient temperature and the white wine cool.

It is available in medium and large. The medium holds two bottles of wine and the large three (nearly four!) bottles.
