about

# BLACK LIES MATTER

→ **93%** of black homicides are committed by blacks

→ Blacks are **12x** MORE likely to murder **other races** than to be murdered by another race

→ **6x** more likely to murder than non-blacks

→ **27x** more likely to **attack** Whites

While George Soros funds his disciples to busy themselves burning cities & getting arrested in the name of "justice" over 1,000 black babies are aborted at Planned Parenthood

Blacks don't care about lives. They care about who's going to score the next ghetto lottery because an officer justifiably killed one of their tribe members
