

B ANDREW SKIN CARE LLC,

OUR MISSION

Our Mission is to be a globally recognized manufacturer and provider of pure, high quality, safe non-toxic, hand-crafted skin, hair and health care products.

Providing the purest quality products without petroleum, SLS, genetically altered or synthetic ingredients, chemically derived preservatives, dyes or other potentially dangerous ingredients.

*Products that promote and assist in the health, vitality and well-being of every consumer.

*Products that are produced and manufactured using cold formulation, hand-crafting and simplicity with proven environmentally friendly and safe procedures.

*To educate globally on the safe production and uses of consumer products including skin care, hair care, cosmetics and health care.

FOUNDER & CREATOR
JOHN ANDREW GUILFOIL IV

Andrew Guilfoil has been a leader in the natural skin care industry with his creations of natural skin care products since 1992. His concerns reflect a dedication of the whole body through health, nutrition and the use of natural products. His lifetime studies of the functions and nourishment of the skin open the doors to a new level of understanding.

B Andrew Skin Care was created in 2010 by Andrew Guilfoil and Brett Crandal, to provide pure natural products directly to the consumer market with extraordinary service, simple education and the highest integrity. The result of our work is happy customers who refer new customers buying and using B Andrew's products.

Interesting Facts

The skin is the largest organ of the body

The skin protects us from outside invaders, controls the temperature of the body, provides us with sensory sensation (touch, heat, cold, socio-sexual and emotional), eliminates excess waste, poisons and toxins, synthesizes vitamin D and minerals, prevents loss of essential body fluids, provides immunological protection and mechanical support.

The average adult is exposed to over 800 toxic chemicals per day.

The largest and most dangerous exposure to chemicals comes from personal care products.

Studies have proven that a 1/3 reduction in daily chemical exposure can increase health by 70%!

What Chemical & Synthetic Ingredients Do to Your Skin

Chemical ingredients cause dehydration of the skin's deepest layers.

Chemical Ingredients destroy and numb the Sensory Receptors.

Chemical ingredients destroy the synthesis of Vitamin D

Chemical ingredients destroy healthy tissue, cells and cellular activity.

Chemical ingredients clog the pores trapping toxins and poisons.

Chemical ingredients penetrate the liver within 15 seconds.

Chemical ingredients destroy, impede and block all the natural functions of the skin.

Before

After

I am very pleased with the B Andrew Organic skin line. After doing many facials with these products, all my client's leave with glowing and hydrated skin. My clients and my staff love the aroma and the serums are out of this world good. I also really like the unique facial steps that goes with the B Andrew line. It is different from other facials as detoxifying is a priority and a first step. I believe it is because of this step that the facial is so effective.

Testimonials

Before I tried B Andrew products (then Natures Embrace Organics) in 2008, I was using another very popular product sold in health stores and supposedly one of the best "organic" products out there. It had some "organic" ingredients, but many ingredients were just like the chemicals in most common products. During the brief time between Natures Embrace Organics and B Andrew coming out, I tried to find something else, but was not happy with anything I tried. I've been spoiled by this wonderful chemical free product. There does not seem to be anything else out there that is as pure or feels so good on my face.

Susan Johnson, Atlanta, Georgia

I am a 74 year old lady and have lived a very healthy lifestyle for over 40 years. I have searched for natural skin products for a very long time and was extremely happy when I met Andrew a few years ago and found he had wonderful natural skin products, with no chemicals. I have found from my experience, that it is something that has been almost impossible to find. Since using Andrew's products, I am constantly told that I have beautiful glowing skin and best of all, no wrinkles. People are always telling me I don't look more than 50. To someone my age that is very gratifying. I learned years ago how important it is not to put anything on my skin that contains chemicals, because it is absorbed into the blood and liver and can cause disease. I am a Certified Health Consultant and I tell everyone about the best things I have found, to enhance their lifestyle, so I am delighted to tell them about Andrew's products. I wouldn't be without them. I must also say that Andrew is one of the most ethical people I have ever met, which assures me he is producing the best skin products on the market.
