

2017 SUNY TYESA Mini UAV Competition Funding Request Form

The TYESA organization will allocate at most \$2500 (an increase of 2.5x from last year) for funding the component cost this year in the UAV competition. The amount will be distributed based on the number of participant institutions. Participating TYESA schools will be awarded \$300. In the event that the number of TYESA school applications exceeds 8, the total allocated amount of \$2500 will instead be equally divided among the schools.

Teams who receive financial assistance from the SUNY TYESA organization must participate in the 2017 SUNY TYESA competition at Monroe Community College on Friday, May 5, 2017. Otherwise, the awarded funds must be returned to the TYESA organization. The applicant teams must provide the following information.

Goal of this project (between 50-100 words)

Benefits to the college (between 50-100 words)

Benefits to students (between 50-100 words)

Anticipated outcomes (between 50-100 words)

Budget Overview (Excel format)
