- ◇ Wedding gift candles

Baan Hom is a our own brand meaning 'Fragrant House' in Thai, our company Baan Hom Limited registered in London is a partnership with a Thai company who specializes in producing home fragrance products, personnel care products and soaps.

Our manufacturing is in Bangkok Thailand.

We use the highest quality products from leading suppliers in Thailand. Our delightful fragrances are a mix of essential oils and fragrance oils our candles have 10% fragrance and Aroma diffusers 20% fragrance.

The gorgeous fragrance blends are produced by the number one fragrance supplier in Thailand

Due to our low cost manufacturing base we can produce products at competitive prices. We welcome working with our customers to develop new fragrances and products to their specification.

Please do not hesitate to contact us with your requirements our English Speaking customer service office will deal with your request promptly and professionally.

Baan Hom scented home products are made from high quality materials our luxurious range of Candles, Aroma room diffusers and Room spray's will fill your home with beautiful scents.

Candles

Soywax blended Candles. Single wick candles are available with a burn time up to 50 hours. We include high percentage of the finest fragrance oils. Top range 'Triple scented' candles.

Our top range of candles are available with real chrome metal lids.

- ◆ Coloured glass , Coloured wax, 2 or 3 wick candles, Jar Candles, Travel Candles, Tin Candles

Aroma Room Diffusers

Our luxurious range of Aroma room diffusers will fill your living space with beautiful scents giving you a feeling of happiness and well being, the attractive bottles look good on any shelf. The scent will last for months and refills are available to top up the diffusing liquid. OUR POLY FIBRE REED STICKS DO NOT COLOUR BLEED AND THE SCENT DIFFUSION IS FAR SUPERIOR THAN RATTAN

Room Sprays

Our room sprays are a perfect addition to the Candle and Diffuser range, the matching fragrance room sprays can be used to freshen up your home and furnishings.

CANDLE FIRE SAFETY RULES

- **Always keep a burning candle within sight.** Extinguish all candles when leaving a room or before going to sleep. Be sure the wick ember is no longer glowing
- **Never burn a candle on or near anything that can catch fire.** Keep burning candles away from furniture, drapes, bedding, carpets, books, paper, flammable decorations, etc.
- **Keep burning candles out of the reach of children and pets.**
- **Trim candlewicks to ¼ inch each time before burning.** Long or crooked wicks can cause uneven burning and dripping.
- **Always use a candleholder specifically designed for candle use.** The holder should be heat resistant, sturdy, and large enough to contain any drips or melted wax.
- **Be sure the candleholder is placed on a stable, heat-resistant surface.** This can help prevent heat damage to underlying surfaces and prevent glass containers from breaking.
- **Keep the wax pool free of wick trimmings, matches and debris at all times.**
- **Always read and follow the manufacturer's use and safety instructions carefully.** Don't burn a candle longer than the manufacturer recommends.
- **Keep burning candles away from drafts, vents, ceiling fans and air currents.** This will help prevent rapid, uneven burning, and avoid flame flare-ups and sooting. Drafts can also blow nearby lightweight items into the flame where they could catch fire.
- **Always burn candles in a well-ventilated room.** Don't burn too many candles in a small room or in a "tight" home where air exchange is limited.
- **Don't burn a candle all the way down.** Extinguish the flame if it comes too close to the holder or container. For a margin of safety, discontinue burning a candle when 2 inches of wax remains or ½ inch if in a container.
- **Never touch or move a burning candle or container candle when the wax is liquid.**
- **Never use a knife or sharp object to remove wax drippings from a glass holder.** It might scratch, weaken, or cause the glass to break upon subsequent use.
- **Place burning candles at least three inches apart from one another.** This helps ensure they don't melt one another, or create their own drafts to cause improper burning.
- **Use a snuffer to extinguish a candle.** It's the safest way to prevent hot wax splatters.
- **Never extinguish candles with water.** The water can cause the hot wax to splatter and might cause a glass container to break.
- **Be very careful if using candles during a power outage.** Flashlights and other battery-powered lights are safer sources of light during a power failure.
- **Extinguish a candle if it repeatedly smokes, flickers, or the flame becomes too high.** The candle isn't burning properly. Cool, trim the wick, then check for drafts before relighting.
- **Never use a candle as a night light.**
