Run 1605 - Gone to the 'dogs

OK, Roodogs turn has come around to set a run, so what does Rood dog do? He DOGS IT !

Thankfully he was able to con Essy into setting the run but unfortunately would only give her one piece of orange chalk to mark 'his' run, so she definitely made it last with economical use of the half a stick on offer.

A boiling hot day and arvo did little to deter the hardy band of Bushrangers, visitor hasher and some new starters who assembled for the best run from Stanhope so far in 2019. A confused start had runners and walkers all bunching up for a while until Esmerelda explained some new age marking system she was using, and then the field spread out with Firey, Spurt on, Just Emma and Just the guy from Illawarra, having a few 'interval' runs as the marking became clearer with the PNS foot patrol in hot pursuit, and the rest all setting their own pace and no doubt having as much fun as we were up the front.

Essy did a good job of ensuring the loop was a long and virtually short cut proof one, taking us through parks and Burbs in even order with a main road or two to break the serenity.

On home came all too soon although it was a 5 + run and then we had the anxious wait for the keys to turn up to get at the beers and other drinks to cool down because it was still in the 30's and cold beer is the only thing doctors recommend to lower your core temperature!

Circle up was the usual mix of Monty Python silliness, mess room bawdiness and naughty kids saying rude words masked as 'songs' with our guest from Borneo Su Su, Emma and 'guy from Illawarra' taking their medicine, along some poor scribe bloke who is making amends with an early edition!

Down Downs went to: The Hare - Esmerelda (Roodog will be sentenced next week), SuSu all the way from Borneo, New hasher Emma, Just the Guy from Illawarra and Esmerelda for not having enough chalk, and who would have thought - Firey for excellent LATE trashes !

Hashers: Esmerelda, Deep Purple, Spurt On, Cocky, Wasted, Skeleton, Firey, Terminator, PNS, Su Su ,Mr Humfrees, Mrs Slowcum, Just Emma, Just Guy from Illawarra

ON ON!

A quick update on Interhash 2020 in Trinidad & Tobago. Registrations have reached nearly 1800 paid hashers so far, with plenty of room for more. But take note, the price is currently \$200US, and will increase to \$225US on 1 January 2019.

You probably already know about the "virtual" International Hash T-Shirt Museum located on the internet at <http://gototheshash.net/hashshirts.html> . . . but you may not have heard of the somewhat new actual Hash T-Shirt Museum currently located in The Netherlands, for details see <https://sites.google.com/view/hhbmuseum/homepage>

This months In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor

clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3 in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
