Run 1606 - Shop till you drop!

When Skeleton and I hit the Hawkesbury we knew we had reached the right place, and then found PNS for a pre-lube at the Macquarie Arms while everyone started getting there, and get there they did !!! We had guest hashers, virgin hashers, the regular hashers and some late summer hashers who were so staunch they came after work to join us for the circle and pub food that followed. This run also attracted a new class of hasher - The "shop while you run hasher", as opposed to the drink while you run types we are used to.

Circle up and the hare announced FIVE checks - all with on-backs thankfully, and an easy run length for all, because we had to be inside ordering dinner at 1930 so allowances were made for drinking beforehand instead of extra K's.

Spurt On and Firey headed off on the run to clear the checks asap and like Forrest just kept running. Good pretty level stuff and clear marks so it was easy going but the checks did their job with B4 catching up for a bit of a run with us, and to witness an SCB cut across the sports fields on our left to save wear on his runners. Bad luck - ya busted son!

All the other hashers were having a great time enjoying the best hash weather you could wish for with the late summer conditions hitting the sweet spot. No SCB's reported and I reckon from all accounts the run course was well liked but was naturally a shit run regardless!

The shopping hashers couldn't resist stopping in the mall, and thanks to SST bank rolling them, they were cashed up and Skeleton came back with Wonka bars and other stuff, but Deep Purple came back empty handed from the games store !!!

All home and the circle was a big one which over ran the Beer Meisters esky so he sprinted off and bought another slab - thanks Spurt On ! Dinner at the pub and I reckon just about everyone ordered the schnitties at \$10 and then PNS brought the Birthday Kiddies cakes and candles out for a thoughtful acknowledgement that all three are getting OLDER and another great night was done!

Down Downs went to: The Hare - Sunshine, PNS x 2 - False charge against Roodog and SCB, Birthday DD to B4, Sunshine, Deep Purple, Skeleton and Deep Purple - shopping, Lois (because) and Taliban for finding his way to the run, virgin hashers Simone and Karen.

Hashers: Sunshine, Bumsteer, PNS, Terminator, Skeleton, Firey, Deep Purple, Spurt On, Cocky, Wasted, SST, Mr Humpfrees, Mrs Slowcum, Just Simone, Just Karen, Taliban, Lois, B4, Carnivore, Roodog, and guest hashers Trust Me, No Way, Sprinkles, Dilmah

At the end of the night they will hand the esky over to the Hare for the next week and so on. Any questions? Ask the GM, SST.
- **New runners** will be given a 'buddy' from now on, to help them settle in to our wonderful disarrangements.
- **If WEARING New runners be prepared to drink a down down from one of them in the time-honoured tradition!!!**

BEFORE WE GO....

A quick update on Interhash 2020 in Trinidad & Tobago. Registrations have reached nearly 1800 paid hashers so far, with plenty of room for more. But take note, the price is currently \$200US, and will increase to \$225US on 1 January 2019.

You probably already know about the "virtual" International Hash T-Shirt Museum located on the internet at <http://gototheshash.net/hashshirts.html> . . . but you may not have heard of the somewhat new actual Hash T-Shirt Museum currently located in The Netherlands, for details see <https://sites.google.com/view/hhhmuseum/homepage>

This month's In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3 in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
