## Run 1608-the Flat Run

*Because I was on shift I have relied on my roving reporter in the field again so all information and she did a great job....*

*If there is one thing with hashing PNS hates it is hills, so being the hare he set out to eliminate them, and from the reports I received, he succeeded! No doubt something most likely appreciated by a few others as well! For a certified SCB he also managed to shortcut proof the run so no SCB's this week.*

*Spurt On and 'just the guy from the Illawarra' ran the checks and they were so enthusiastic the false trail markings were missing making it a bit tricky for the walkers following so DP will have to train his enthusiastic co-runner next Monday✓*

*Hapless hashers trailed along enjoying the scenery, continuously asking where all the hills were expecting to round the corner to a 'Mt Everest' but no luck as the burbs glided past, all the while shouting their On On's to eventually find their way back to the start.*

*Meanwhile, being a very clean hasher, 'just the guy from Illawarra' had to have a shower!!! Cleanliness is next to Godliness, so they say!!!*

*With the run done, comments were as follows:*

*"walk was terrible" - Wasted*

*"wonderful, no hills" - Deep Purple*

*"good run, but better if you were there so had to make do" Bumsteer (referring to scribe)*

*"best run so far this year, naturally" Also "virtually the same length of the normal park run on Saturdays" - PNS (note - PNS set the run)*

*"I'm so hot" - Cocky*

*"shit run" Also "they can't measure either" (referring to run length PNS claimed) - B4*

*A naming was also done with - 'just the guy from Illawarra' is now Golden Showers (read above) and his comment was "not sure if my granny will like this name" Shhh, don't tell her! Shame about the headfull of beer - another shower required.*

*"finally, finally" Golden Showers given his name. Also "I hate that name" meaning I really like it and I'll get a worse one if an appeal is lodged. Welcome to Bushrangers H3 mate!*

Down Downs went to: The Hare - PNS, virgin hasher Just Karen, Golden Showers for having a shower after a run,

Hashers: PNS, Terminator, Skeleton, Bumsteer, Sunshine, B4, Carnivore, Spurt On, Deep Purple, Cocky, Mrs Slowcum, Mr Humfree, Roodog, Esmerelda, Golden Showers, Just Julie (welcome)

This month's In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

### In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3

in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
