Run 1608 - Short Circuit !!!

With the weather being unpredictable and slightly wet this last couple of weeks, and with no working lights in the big picnic shed it meant a quick run was on (for some more energetic hashers) or a shorter leisurely walk for others. No one was complaining and it made for an easy night.

The circle included a met report and a bunch of poor excuses from the hares (yes, plural) as SST very kindly helped Wasted as the weather had washed half her marks away.

Off we went heading towards what was looking like a big loop around the parkland precinct hitting check one almost straight away. Only clearing that one and bugger (not Bugga who couldn't make it - G'day Bugga and Tartis) another one. 'Team back markers' took the checks in their stride as we eventually reached a clear trail and just enjoyed an easy walk for a change as the trail wound it's way through the pretty soggy parks drenched from the heavy falls that had gone through earlier.

It wasn't long before we were back at the big shed for the best part of any run - the drinking and BS. Usual banter and a mention of some bloke taking a leak mid run without the slightest bit of modesty involved, and I'm pretty sure there is a law that deals with that but at least he wasn't a H3 "Poo Jogger"!

Circle up for the song singing and insult bit, and then under starters orders it was off to the Kings Park Tavern which, as luck had it, has a Monday specials board so for this scribe it was his pub favourite - schnitty dinner and eventually we got to celebrate B4's SIXTIETH BIRTHDAY which had been rained out the Sunday before. Welcome to the 60 and up club, you old coot!

Down Downs went to: The Hare Team - Wasted and SST as co-conspirators, Seedless (visitor), B4 who has hit SIX OHHHHHH, and last but not least, Mr Humfree for weeing on the wee trail! I think Lois got a DD too as he always gets one... Might have been one or two others but can't remember

Hashers: Wasted, SST, PNS, Terminator, Skeleton, Firey, B4, Carnivore, Spurt On, Deep Purple, Cocky, Mrs Slowcum, Mr Humfree, Roodog, Seedless (Capital), Lois, Just Julie

Bushranger's Mis-Management Committee:

- **Grand Master** - SST
- **Assistant Grand Mattress** - Terminator
- **RA** - Mrs Slowcum
- **On Sex** - Firey Flynn
- **Beer Meister** - Spurt On
- **Hash Cash** - Mr Humpfree
- **Haberdasher** - B4
- **Hash Flash** (aka Papparazzi Hasher) - Tartis
- **Song Mattress** - Slowcum
- **Trail Mattress** - Carnivore
- **Web Mattress** - Wasted
- **Beer arrangements notes from the GM:**
- The Beermaster, Spurt On, will buy beer, soft drinks, water etc on a regular basis and bring this to the runs. Each week, the Hare for the next week's run will take the esky (and any replenishments from Spurt On) home, and bring it to their run, fully iced and ready to drink. At the end of the night they will hand the esky over to the Hare for the next week and so on. Any questions? Ask the GM, SST.
- **New runners** will be given a 'buddy' from now on, to help them settle in to our wonderful disarrangements.
- **If WEARING New runners be prepared to drink a down down from one of them in the time-honoured tradition!!!**

BEFORE WE GO....

A quick update on Interhash 2020 in Trinidad & Tobago. Registrations have reached nearly 1800 paid hashers so far, with plenty of room for more. But take note, the price is currently \$200US, and will increase to \$225US on 1 January 2019.

InterScandi 2019 has a new website URL, and there is still time to sign up . .

You probably already know about the "virtual" International Hash T-Shirt Museum located on the internet at <http://gototheshash.net/hashshirts.html> . . . but you may not have heard of the somewhat new actual Hash T-Shirt Museum currently located in The Netherlands, for details see <https://sites.google.com/view/hhhmuseum/homepage>

This months In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3 in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and

progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
