Run 1610 - Cocky clocks #1!!!

Well Cocky's turn came at last, and it saw all of the Bushrangers finest assemble on the banks of the Nepean River to check out what she had set for us. We hadn't been told to bring swimmers and a push bike so it definitely wasn't a triathlon!

The car park was massive and full of security cameras so it would have had them puzzled as to why a group of suss people were gathering in a far corner. We were of course checking their cameras to find a blind spot so we could have the circle in peace!

ON ON took us along the forecourt of the flashy, newly built café and entertainment precinct which only a short time ago were some paddocks with a lone Coffee Club standing there, with Spurt On, B4 and Firey running the start and Bugga and Tartis deliberately trailing to the rear so they could engage in sex on trail. The rest of the pack spread out in dribs and drabs following the bridge over the Nepean River into Leonay, the suburb on the other side.

We had just come down off the bridge when we had a chance encounter with the hare and her hare stylist, Wasted, who was showing her the ropes with both of them waiting until all had gone through to mark a return trail.

Cocky had set a good run (contrary to the circle's opinion where all said it was a shit run) and it took us to pretty much Emu Plains, then headed to the river trails, which with the temperature dropping made for a good run although we were going so fast (BS) we missed seeing sheep and an old bomb in someone's front garden masquerading as 'garden art'.

The run back to us back to the bridge which was good as it was too far to swim to the other side and then we came on hieroglyphics like arrows with points at either end and some other squiggles which meant nothing to us so we just ran back to the café area because we could smell beer. Only problem was Deep Purple who always does a good job of being Beer Meister, did a poor job of taking the keys with him so our enthusiasm for getting back early went down the dunny because we had to wait for the others to come so we could open the car!

All in all Cocky had done a great job and we look forward to what she can come up with next time!

Down Downs went to: The Hare - Cocky, first run set, Bug'ga and Tartis - sex on trail (again). Firey and Skeleton - talking in class, Carnivore, the dog walker.

Hashers: Cocky, Taliban, Wasted, SST, Skeleton, Firey, B4, Carnivore, Spurt On, Deep Purple, Cocky, Mrs Slowcum, Mr Humfree, Bumsteer, Sunshine,

Bushrangers Next Runs

1611	01Apr	Firey - 1 Bushy Glen., Glenhaven. (last daylight saving run)	
1612	08Apr	Lois - Tallawong Road (Chinese) Blacktown.	TORCHES !

Bushranger's Mis-Management Committee:

- **Grand Master** - SST
- **Assistant Grand Mattress** - Terminator
- **RA** - Mrs Slowcum
- **On Sex** - Firey Flynn
- **Beer Meister** - Spurt On
- **Hash Cash** - Mr Humpfree
- **Haberdasher** - B4
- **Hash Flash** (aka Papparazzi Hasher) - Tartis
- **Song Mattress** - Slowcum
- **Trail Mattress** - Carnivore
- **Web Mattress** - Wasted
- **Beer arrangements notes from the GM:**
 - The Beermaster, Spurt On, will buy beer, soft drinks, water etc on a regular basis and bring this to the runs. Each week, the Hare for the next week's run will take the esky (and any replenishments from Spurt On) home, and bring it to their run, fully iced and ready to drink. At the end of the night they will hand the esky over to the Hare for the next week and so on. Any questions? Ask the GM, SST.
 - **New runners** will be given a 'buddy' from now on, to help them settle in to our wonderful disarrangements.
 - **If WEARING New runners be prepared to drink a down down from one of them in the time-honoured tradition!!!**

BEFORE WE GO....

A quick update on Interhash 2020 in Trinidad & Tobago. Registrations have reached nearly 1800 paid hashers so far, with plenty of room for more. But take note, the price is currently \$200US, and will increase to \$225US on 1 January 2019.

InterScandi 2019 has a new website URL, and there is still time to sign up . .

You probably already know about the "virtual" International Hash T-Shirt Museum located on the internet at <http://gotothefash.net/hashshirts.html> . . . but you may not have heard of the somewhat new actual Hash T-Shirt Museum currently located in The Netherlands, for details see <https://sites.google.com/view/hhhmuseum/homepage>

This months In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear

Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3 in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
