Run 1614 - Follow the bunny !

Ok, so everyone would be going away for Easter? Wrong!

When we (Skeleton and I) thought it might be worth doing a run on Easter Monday for the few who might still think it was worthwhile given so many go on holidays, it was a surprise to get a roll up as big as we did and it made for a great night.

Even with a jet lagged PNS and Terminator turning up and PNS being told in advance that he couldn't get into the bowlo without his drivers licence (photo ID) it didn't thwart us - instead we decided we do the circle at the end and then go to a Thai place afterwards depriving the bowlo of a heap of money!!!

We had 'son of Firey', Just James experience a taste of hashing come along, and with Skeleton's quick briefing it was On On through the suburbs with Spurt On running ahead clearing the checks, making for a good flow for the rest of us. Skeleton made sure there were enough hilly bits to make for a fitness course, and everyone spread out behind us until we ended up with a welcome detour.

Skeleton had set up a great P.S. at her house where she was house sitting for her daughter and family, and when we arrived she had all the treats laid out, as well as the port for a quick shot. It gave Terminator and her minders time to catch up and then go again for the short run back to On Home at the bowlo carpark where we had the usual circle silliness, and an "up yours" to the Bowlo table booking. Instead we had a fantastic time at the "Money Bag" Thai with friendly staff and a good feed.

Your scribe attempted to do the hash cash thing and I take my hat off to Mr Humfree who usually takes the cash off us and makes it all look easy !!!

See you all at Bumsteers's run !!!

Down Downs went to: The Easter Bunny - Skeleton for a crap (ie great) run, Just James - first run, Two Up and Deep Purple requiring assistance on hills ???

This months In the Spotlight comes from a recommendation from my good friend Moose Diver, a typical drunk Irish hasher, who splits his time between the Schaffhausen H3 in Switzerland and the Munich H3 in Germany.

In the Spotlight - Hash Genealogy

Much like your own family, each hash club has its own genealogy. The HHH Genealogy project was founded by William "Tumblin Bill" Panton back in the early 1990s. His goal was to capture the lineage of the hash, and how it has spread out since 1938. As you would expect, every hash club can be traced back to the "Hash House Harriers" (a.k.a. Kuala Lumpur H3, or Mother Hash). Now the question posed to me was which hash club has the most ancestors. But first, let's take a look at which clubs have the most "direct" progeny. Also as you might suspect, Mother Hash has the most direct progeny with 38 clubs that were founded by hashers who left KL and went off in their lives and started hash clubs in new locations. Mother Hash is closely followed by the Singapore H3 with 31 clubs, Okinawa H3 with 28, Jakarta H3 with 27, and the Hong Kong H3 with 23.

Getting back to the original question, after a bit of research I discovered 5 hash clubs that had 10 ancestor clubs, of which 4 are located in the USA (Dallas Fort Worth Family H3, Los Alamos Atomic H3, Nuclear Meltdown Full Moon H3, and the Old Frederick and Rural Territory H3). But the most diverse lineage of all was the Hindu Kush H3 in Afghanistan, which traces its roots through the Every Day is Wednesday H3 in Washington DC, the White House H3 also in DC, the Vindobona H3 in Austria, the Carthage H3 in Tunisia, the Islamabad H3 in Pakistan, the Shanghai H3 in China, the Beijing H3 also in China, the Hong Kong H3, Father Hash in Singapore, and finally to Mother Hash back in Kuala Lumpur.

Now to further expand the genealogy question, which has the most combined ancestors and progeny? Mother Hash leads off with the 38 progeny, Singapore H3 with 1 ancestor and 31 progeny, Okinawa H3 with 3/28, Jakarta H3 with 1/27, Hong Kong H3 with 2/23, the Bangkok Men's H3 with 2/20. Next is the Houston H3 with 3/18, followed by Bicester H3 with 5/15 and San Diego H3 with 4/16, Cheltenham & Cotswold H3 with 6/10, Vindobona H3 with 7/6, and the Whitehouse H4 with 8/4. If you would like to look up your hash club to discover its genealogy, see the listings at <http://www.thehashhouse.org.my/genealogy/genpresentations.html>
