

# Webster Lake Association

## Mission Statement

To protect the quality of our environment,  
particularly the quality of our lakes.

To keep the membership informed of  
new and changing community issues.

To cooperate with and assist local government and  
civic organizations with programs of value to this area.

To represent our membership in matters of common interest  
with the appropriate branches of government.

To secure united action in the protection of  
the property of its members, where appropriate.

To encourage beautification in common areas  
of the community.

To provide social and recreational activities for our members.

To encourage tax-deductible contributions to the  
Association to fund special projects.
