## DOSING TANKS, BUNDS & CONTAINERS

# DOSING TANKS

Designed for use in chemical dosing, Aqua dosing tanks have a number of features making them easy to use, long lasting and well suited to many water treatment and storage applications:

- Seamless one piece moulding
- Strong and durable design
- Split level moulded top allows for the mounting of apparatus
- Tight fitting screw caps supplied as standard
- Integrated volume gauge (litres)
- Moulded in virgin MDPE, food grade and UV resistant

## COLOURS

The Aqua range of tanks and bunds can be supplied in alternative colours on request:

- Allows for easy coding and segregation
- Dark colours block UV rays, protecting contents of tank

## DOSING TANK BUNDS

To complement the tanks we offer a range of bunds. A separate bund for each size tank ensures bunds are the optimum size to retain spillages without taking up more space than necessary.

### Bund Features:

- Will hold 110% volume of corresponding tank
- One piece durable moulding
- Designed to inter stack, for efficient storage and shipping
- Moulded steps to prevent bunds from jamming when nested
