

"Magical Migration"

One authentic mobile tented camp, but moving between two locations, namely in the south of Serengeti in Ndutu for the migration birthing season between December and March and then up to Northern Serengeti for the world famous river crossings. This way we ensure guests enjoy ringside seats to the spectacle of the magnificent wildebeest migration year-round. Both are setup in sublime locations offering a high quality safari experience with excellent guiding

Lemala Mara & Lemala Ndutu is a mobile tented camp offering an authentic bush experience, where the tents are spacious and each is furnished with two queen-size beds and all the little luxuries that make them very comfortable. After an evening game drive, your tent attendant ensures your safari shower is filled with hot water to wash away the dust of the African savannah. Tasty meals are freshly prepared, and the camp organizes great picnic breakfasts and lunches for those who want to go on extended full-day game drives.

The communal areas have separate lounge and dining areas and are beautifully decorated with leather sofas, chandeliers, side cabinets, rugs, chests and a bar. In the evening, guests can gather around the campfire to enjoy pre-dinner drinks and canapés and share their safari stories.

Sundowners are more than just a happy hour, they are a very cherished African tradition and form an integral part of your safari experience. It is a time to relax, reminisce the day gone by, enjoy a cocktail or glass of wine around the camp fire with fellow travellers who become friends as you review the events of the day. A balloon safari offers an opportunity to see the Serengeti from a unique perspective. Drink in the wilderness below as you silently float over the vast plains... before touching down for a bush breakfast like no other. If you only take one balloon flight in your life, this is the place to do it.

Is there a better place in Africa to view wildlife?

Rambling through the bush in an open-topped vehicle is the image that springs to mind most when people think about Africa. And there is no better place to go on safari than Tanzania. The sense of anticipation, as you set off at daybreak. Never knowing what lies around the next corner – or behind the next tree. Perhaps a lion in a tree, a leopard sloping off through the bush or a herd of elephants majestically crossing the plains... it's the thrill of the chase that keeps you going back for more.

LOCATION

We have carefully positioned our mobile camps to ensure easy access to the river crossings in Northern Serengeti and the Ndutu plains in the NCAA.

- 8Km - Kogatende Airstrip to Lemala Mara
- 7km - Ndutu airstrip to Lemala Ndutu

Discover the real Tanzania!

Ask a first-time traveller to Africa what they are looking forward to seeing most and they will probably reply, "the wildlife". Ask them, on their return home, what the best bit of their trip was and they will more-than-likely say, "the people". Tanzanians are among the most welcoming and approachable people on earth. With a wide variety of fascinating cultures to discover, and along with the phenomenal wildlife, it is likely to be one of the most rewarding experiences of your life.
