Install the Sound File

The audio file for *Optometry Messages On Hold* is supplied in a standard mp3 format.

Import the file into your digital music player, either directly if applicable or via the desktop music library software (eg iTunes).

Connect the Digital Player to the Phone

Connect the headphone outlet on the digital music player (eg mp3 or iPod) to the “Messages” input on the telephone system control box.

Play the Messages File

Set the digital music player (eg mp3 or iPod) to play the audio file *Optometry Messages On Hold* and set it to “repeat”:
