

LIMIT OF RESPONSIBILITY

Use Of My Own Frame

I understand and accept that the fitting of new lenses into my own existing spectacle frame will be handled with care.

However, I also understand that my frame is not new and that it may have areas of weakness or cracking. These may cause unforeseen damage to the frame when technicians attempt to work with it. As a result, the practice named on this letterhead will not be responsible for any frames left for re-fitting, adjustment or repair.

I also understand that the normal warranties provided by this practice can only cover the frames or lenses that are being purchased new from them.
