Dear Friend of Recreational Fishing and Conservation,

The Poggie Club of Washington, Seattle Chapter, is a non-profit corporation organized in 1932. Our goal has always been to protect, propagate, and increase fish and game stocks and to improve habitat for all wildlife.

One of our primary objectives is to fund tuition for up to eight youths to attend the Washington State Boys and Girls Conservation Camp on Orcas Island, WA each summer.

To accomplish this goal, we are holding our annual fundraiser and banquet on April 6, 2019. We request that businesses that support sustainable recreational fishing, provide donated items we can use in our silent auctions and raffle prizes. We heartily appreciate your contribution and are committed to using your gift in the most efficient way possible. The operating funds we generate at the banquet, permit us to continue meeting our club's goals for the coming year.

A contribution from your establishment provides a unique opportunity to benefit fishing advocacy, education, and wildlife conservation in our region. We will honor your confidence in us by maintaining the highest standards in our fundraising and program efforts. Your name will be listed in our banquet program and highlighted to our membership to demonstrate your support. Additionally, your organization will be included with other donors on our website in appreciation of your support; therefore, a donation could be applied as part of your advertising budget for tax purposes.

Thank you in advance for considering us. Your generosity will enable us to pay it forward for those who follow our legacy in conservation and recreational fishing. We invite you to take a moment and visit our website www.seattlepoggies.com. We would welcome and appreciate your contribution toward meeting our goals and objectives.

Henry A. Zebroski Jr.
President
