

## WELCOME

The Weaving Shed name has an historic link to the building you are in. This room was the original Weaving shed when textiles were produced here.

After Stephen Moulton converted the mills into a rubber factory in the mid 19th century, this room became known as “The Black Hole” to locals (not really an appropriate name for a restaurant!)

Our aim is to give you the best experience we can, from the scrumptious food to the juicy cocktails. The kitchen is open for a reason, we are proud of what we do, so don't be shy to talk to our chefs!
