EDUCATION & EXPERIENCE

THE CARRIE SNAPSHOT

When I declared my majors at St. Norbert College in 1999, I had no idea that almost 20 years later I would continue to crave more marketing knowledge and more creativity. Whenever possible, I position myself to be an extension of a marketing strategy or department. With 15 plus years of freelance experience, I've built a unique portfolio which support multiple facets of marketing. My skills range from artistic graphic design to digital optimization and strategy. I feel fortunate to tap into each unique skill as I continue fulfilling the marketing needs of my clients.

Personally, I am a wife, mom, sister, friend, neighbor and disciple - and am originally from a small town in Wisconsin. I am committed to providing marketing services with integrity and intention. I am always grateful for professional opportunities to provide insightful, effective and productive marketing solutions of integrity.
