

MUSC Shawn Jenkins Children's Hospital Field Trips

The Robins & Morton/Cumming/Brownstone Construction Management Team invites your students to explore the construction site of the future MUSC Children's Hospital. Your students will be given a tour of the jobsite, including a birds-eye view of the work taking place. Afterwards, we welcome each class into our office for a presentation and step-by-step description of how the hospital is being built from Demolition to Completion.

We encourage students to participate in a hands-on learning activity catered specifically to their age group. Let's Imagine What's Possible.
