## LDW COLLECTION

The LDW lighting collection was specially created as a tribute to the London Design Week venue.

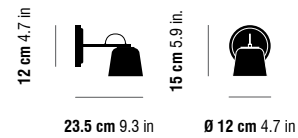

After the success of being the lighting best seller at the Serralves Contemporanean Museum Store, the new collection London Design Week 100% Black Limited Series was released in different finishes, now available in natural metal appearance as copper, brass and chrome or painted RAL colors.

This post modern lighting collection is shaped with a particular tectonic view, representing the new brutalist Stabörd & Co. aesthetics, enhancing the independence of the brand personality.
