

To Eternal Victory

TO ETERNAL VICTORY

Great White
Brotherhood

VOLUME IV

The Celestial Dawn rises over earth bringing to all Men the Message that the New Era is here, and in projecting itself into Men's consciousness the Good News is declared.

Oh, August Presences, Beings of Light of this New Era, now strongly projected on earth is the New Announcement of the arrival of the Lord; a New Bethlehem. The trumpets sound, the Seraphic Hosts of Light take the Message to the corners of earth! Oh, Gabriel, Mary, you once moulded in the Virgin Presence the Seed of the New Messiah! And the time of the New Messiah has come! Listen to the Announcement! The Angels of the Lord take the New Hope to the corners of earth! The Black Race must be raised, taken to the Light, the stigma cleansed, their wounds healed!

The New Era commences with the cleansing of this part of earth. Saint Germain represents its healing. It is earth's Salvation. Invoke, project the Violet Flame. There its Presence is needed! Project it where the wound is opened and do not forget that Africa is the heaviest load on earth. There will appear the New Bethlehem. The arrival of the Light will be announced. It is already awaited. You must direct your efforts there. The Black Race awaits you. You are the Hope of earth. They will bend their knees and will raise up the Star. Look for It in your hearts. She guides you. She awaits you! The Beacon concentrates Its Light in black Africa, in the darkness of their consciousness. The scar of Mother Earth is there. It is still open and bleeding! It must be healed with Love, with your surrender in devotion. The Master

Presence will guide you. It is a Beautiful Task. Raise your sights to that black crust that adheres itself to earth and will not allow it to breathe!

Oh, Brothers, we see many Loving Presences projecting over you. You are the Hope of the Era. There are many centres of Light that wait for you to be projected outward, to invoke over that world of darkness. It is the part that requires more surrender in devotion. It is the force not conquered!

Oh, Earth, how beautiful will be the day in which whites and blacks walk together hand in hand, and there the day and the night will merge into a full dawn. The Father–Mother awaits you. You are the lost Children. He hopes that the wave of Light that is now projected is transformed into that majestic force that carries earth to becoming a Star!

The black brothers need you. They need your presence. They need to feel themselves Loved, to feel themselves projected towards the One Light! The party cannot be perfect if all the Children of the Father do not attend. Do not look at them with contempt. They are also Beings of Light trapped in darkness. They are brothers that fell to very dense levels. Many children require of your presences. There are many calls for assistance and many screams of despair! Listen to them brothers. They all await your help! Your Service will be the most perfect Manifestation of Love, of surrender in devotion to the Obedience of the I Am!

Earth is ready for the change to become a Star, but she will not do so until your black brothers become a part of the

whole that they are! The trumpets sound announcing the Good News! Laborers of the Father now commence the Task! The entire Galaxy will be dressed up and the Father–Mother watches your Presences! Do not relax in your efforts. Do not lessen your desires! The Service is dressed in the radiant diadem and on your foreheads, is reflected the most beautiful Light. You are the cup that will bring the Divine Abundance of Gifts of the Father to earth!

Sons, daughters, my brothers, I Am in you the Living Torch that lights the Path! You will not fail; you will not stumble, if you keep your sight centred on the August Presence of the Loving Mother. She sustains you in Her arms and Her Mantle of Light covers you. Do not be afraid. You are the Suns that begin to project your own Light and you are needed in the darkest parts of Earth! The Father–Mother covers you with His Blessings! You are the Hope! Do not allow yourselves to place your personal wishes before these efforts, before your Service! The Dawn is coming closer and in Her, the Prime Essence of Love will take you to master the glories of the Father–Creator.

The Light covers you. Project it where it is missing. Crown yourselves on the Thrones of Service, and in the kind Presence of the Mother, Freedom will be your most beautiful standard. Your Beings are shields to any attack. Those who think they are weak take themselves out of the effort without considering the Great Father–Mother. Do not be afraid. Decide to continue in your titanic efforts. You will project earth towards the Centre of the Father–Mother.

Together We will arrive to the Throne of the Lord because I will guide you, until all together before the August Presence, We will bow our heads before the Love–Father–Mother.

The quiet Presence of Hope covers you in Her Mantle of Light.

HOPE
LIGHT

Serapis Bey is the Commander of the forces that represent Purity. The Seraphic Beings that express the Light of the Father without any colouring wish to express that the Light poured over you must be channelled with the “greatest Purity of heart and Purity of motive”.

Children, the lost brothers are the Manifestation of that part of the consciousness. Because of being in darkness, they project outward what is not channelled through the conscious being. Darkness is the part which, because it is not being illuminated, and that is what it wants, projects outward all its dense Light.

The Angelic Hosts that I Command are always gravitating over you to render the Service that you need; to raise towards the Heart–Centre all disharmony, misery and grief that reaches your Lives. The required Service must be done with a Purity of Motive so there be no doubt that you can be a medium by which the Father can use to express Himself to the outer world. It is said, and it is so, that you are Suns, but your Light must be purified to reach others without impure shades of colouring, projecting the Perfect Light of the Father. Each given task must be manifested with Purity of Motive, Purity of Action, Purity of Heart, Purity, Purity.

The Flame of Ascension is at your Service by requesting it, to raise those parts that do not allow the Light of the Father–Mother to be expressed with perfection. The Brotherhood of Luxor (Long Island) has a permanent watch over you

because it depends on you that many things come to occupy their correct positions. The inclusion of each one of you in this project has been meditated in the Silence from long ago. Little by little each one has edged closer to the Centre and there has projected his internal desire of channelling the Light that is required for a Higher Service than what your personalities are normally able to render.

The effort sustained by each is seen by Us with much pleasure. You must start to activate the Flame of Ascension with the Purity of Motive in each of your acts. You must be continually conscious of each of your acts. You must project yourselves in Consciousness of Purity into what represents your given task. You must feel that each beat of your hearts is an act established only for the purpose of awakening you to what was inscribed there at the time of your Pro-Creation.

The natural tendency is to forget that only purity has made it possible to sustain each one on this planet, and It has been hidden in each electron of your elemental bodies. It has been there for centuries, awaiting the time to be projected. It is what has sustained the Immaculate Concept in each Being (BE SONS OF THE One Light – BE SUNS). Purity has attracted towards you the desire of channelling the Light, to take it to where it is not recognized, where the Father–Mother is not manifested, and so comply with your Divine Plan to return earth to her initial condition.

Oh, brothers all! We are Sons of Unity! The Unifying Centre of Love! The Father–Mother that has never stopped desiring to see His Light reflected in each creation!

The Heart has pulsed with a slow rhythm in each embryo, in each being, but now, with a real desire in each one, the desire of the Father–Mother can be manifested with more intensity.

Sustain yourselves united externally. Internally we sustain you, tied with threads of such Purity that you only reflect the Light of the Father.

Oh, Sons of the One, do not dismay in your purposes! Ask for our support when you feel the oppressive forces making you feel defenceless, and without force! Our Light will be channelled and in the Flame of Ascension your limitations will disappear.

Your Unity in the Heart Centre was established at the time of your creation. It has been sustained throughout this time with ever increasing strength as your power to manifest those desires were coloured by the Purity of motive in your hearts. I project the Ascension Flame towards you, covering you in its Purity.

You have to Pray so that you feel the Flame of Ascension lifting up every disharmony in you, surrounding you in its Purity.

I Am an Elder Brother at your Unconditional Service for the Manifestation of Purity of the One God.

SERAPIS BEY

Glorious bells ring announcing the Presence of a new year filled with Love. The Father Creator has decreed that the Archetype of Love manifest here on Earth. His Name will be Glorified under the Clear Presence of Love. Each “particle” of Light will have its own representation within the Heart of the Logos. Each one will be able to “give Light” from the human form of himself.

When the glorious ringing of the bells announces the arrival of the New Year, be ready to open your heart to receive the Son of Light that will be born through you. Prepare the land so that He can grow in all his Majestic Presence. Bring Him to the Light. Light, He Is, and He Will Be the Guiding Beacon in your lives.

Oh, Glorious Presences, announcers of the New Messiah, get ready to walk earth in this New Dawn, carrying the Messages of the Lord! Sing His Glories in each dawn! Give thanks to the Life that flows in your blood and radiate it from your Beings! Bathe yourselves in the Glorious Presence of Love! Drink it in a constant Consecration of your Being! Walk, glorious points of Light. Spread your abundant Currents of Love throughout the world.

Oh, Bethlehem awaits you! The manger is prepared! Only your presence is required, your gift of Service to the world!

Oh, Glorious Dawn in each being, Hope gains force because all gates will be opened and from them will come

the flowers of Love as silent gifts to each man, to each being on this planet!

Raise your voices with glories to the King of Kings! Sing songs in his honour!

Oh, Majestic Presence of Life!

Oh, Love, fragrant aroma that is spread over the four cardinal points, the expression of the Love of the Father–Mother contained in each heart! The dawn of a New Year is getting closer. Bless the Presence of the One that arrives with it. He is a Being of Light of great proportions and brings gifts for those who are willing to be born again in the Lord, to live in Him.

Trumpets announce His arrival. The Glorious Presence of Love will cover you under His wings. Announce the arrival of Love! The Service that you have to fulfil must be done in the fullness of Love. Do it in Love. The quiet Presence of this Beautiful Being kneels before your Beings in surrender in devotion to the Service of the Lord.

Walk hand in hand. You will begin to take small steps at first but that will grow through the year. The Will will claim your presence, and in each new step you will have it ready at your Service. Ask for it, sustain yourselves in It. The surrender in devotion in Love will make it possible for you to be covered with Its Protecting Mantle. The force generated in the heart will be directed under the Service being rendered in and for Love. Accept each particle of Light projected. Take it to your heart centre. Nourish it with your Love and with the

glorious will of your Presences channel it to Service where the effort is required, where it is being requested, where it is requested to manifest Love. Each cell will be filled with the Presence of Love because they will request its Presence to give their gifts to the Service of the Father–Mother. Each one will channel the virtue that his Being has ready, but with the Cohesive Force of Love in your hearts and the persevering will in your Being you will have an assured Victory. You will be able to be the Gem in the Crown that the Father–Mother has on His Glorious Forehead. Reach your place in the Throne room of the Father and from there help govern earth with the Love to Impersonal Service.

Anyone who has requested his Plan of Life will have to fill his Being with the purpose of Purity, manifest it in Purity, and sustain it in Purity. Each one must sustain himself in that Glorious Flame, with each act being part of its overall action, because you must remember that the Hosts of Love will take you to be verified in the Flame of Ascension. Each candidate will have to render accounts before the Great Regent and in his open book will be the list of acts of the heart of each one, but if Purity has directed each motive, you will be able to continue on the programmed path. He that for any reason has deviated will have to begin again on the Path of the Love and for Love. Do not believe this is not just. When a Being tries to reach the Throne, he must have cleansed every desire, every step, every action in the Crystalline Source of Purity first. There it will be seen if he really is a candidate willing in the Service of Love.

Beings are required that have already recognized the Voice of the Command and are ready to abandon all that

which is not real. Then without “worldly dress” surrender to Service without doubt. Purity represents the Guardian of the Door and to It you will render your accounts upon arrival. Get ready for the dawn that now arrives, clean your body and be ready to channel the Presence of the Father–Mother. Each one will be able to do it in the measure of your efforts, of your disposition.

Love has touched the doors of the heart. Open them. It will help you make the Path seem easier. Feel yourselves covered in Its Light and with confident steps and certainty in your hearts, ask the Will for its Help. Clamour to it to fill your bodies with perseverance towards the Conquest of the Solar Logos. You will walk your own Ascension and on the way the Light of your Being radiates. There it is taken by Light Beings to spread throughout the corners of the Universe. It will be known everywhere that the fight for the Freedom on earth has begun.

Feel yourselves covered by the silent Presence of Love and pour “your sorrows” into It to be purified in its Purity, and the Will will fill your Beings with its Light. Many Presences are now over you. Receive them willingly. Serve the Father–Mother. Be a carrier of His Gifts. Crown yourselves and Crown the Light.

I Am the Presence within you, in Love and for Love. I Am Gabriel in the Service of Serapis Bey. The Light unites you. In It Everything Is, when It Is, and when It Must Be.

GABRIEL

Seraphic Beings fly over the face of earth pouring Purity over all. They move quickly from one place to another spreading Purity in their flights.

The work of Impersonal Service now commences and therefore you have to purify each desire, each act, and pour it purified over your objective. You must not desire anything else but to be a channel in Purity of the Disposition of the Father to each one. Do it with the certainty in your hearts that it is the Father–Mother in you who is the source of the channel. Put aside the wishes of the personality for Impersonal Service and turn your attention to the Being. Each one must project himself outward. When you consider what it means to Serve the Will, to get ready to comply with Purity in the heart, you will open another window for your Being to be expressed. Each one has the right to desire whatever he wants, but where do personal wishes take you but to delay your return Home? Then, let yourselves be guided. Be that door by which the Light of the Universal Father is outpoured to others. Be that Door that gives way to the Gifts of the Father.

Feel yourselves covered by the Presence of Unity and in the Purity of heart, let the Being flow, let it act, let it take control of the personality. You must understand that this part of you is real. It is your I Am that is screaming and clamouring for Freedom, for the opportunity to express and radiate its own Light. Oh, Love Him! Feel it asking the personality for the opportunity to Serve, to express itself, to

do the Will of the One. Feel the pain that your Being feels when seeing the personality again and again getting what it wants, that the personality again did “its will”. Let yourself be led by the Being. Be as children, that even by being rebellious you can put it aside before Love and comply with the assigned tasks, and even more, you see the Light surrounding you. You are that Light.

It is enough of playing games. Balance your accounts and surrender in the hands of Love. Feel the balsam, the Elixir of Love, heal every wound, filling you with the Love of Life. It is that same Life that has waited to see you walk on its Paths and the Light that illuminates the path for others. Do not delay the return. The countdown has already started. Another opportunity will be harder to come by. Take advantage of this one and get ready to Serve as a channel of the Presence, to the Will in Service of the Being, not to the Personality.

In this opportunity you have with you Beings of Light that have seen you, wandering without direction, but for the Love of the Light that shines in you, they are at your disposition, at the Service of your Beings for you to be able to return home. Do not let this offer pass you by because later it will be too late for them to help. They will not be by your side.

In the Purity of your Heart you will be able to attract to you your own Manifestation of Light. Feel it increase in each act of Purity. Feel it come to you. Your Being is ready to take command, to be channelled by you. Love it and be ready to channel it. Be at its Service. It is your own Being.

The Light poured in abundance over you is given under the direction of Serapis Bey. He and Lord Zadkiel make it possible that all the variety of virtues be at your Service, only by wishing from your heart that the Governing Presence be the one to manifest it. Only needed is the wish of each one to radiate the Light, to channel it with the humility of your Beings and to the Service of the One Light. *There cannot be Two Masters.* Let yourselves be led to Impersonal Service.

The channelling of all the abundance of Light towards Gran Sabana is to give force to the group, to its wish to achieve the Unification of earth in the Light, of its achievement, of the projection of Love over earth and to be able to establish the Seventh Root Race.

The will manifested by each in your hearts has made possible this focus and the outcome continues to depend on you for its success. It is beautiful, and from your limited personal sight you cannot comprehend what it means, but, if you only let yourselves be led towards the achievement of your own Freedom and in it watch the panorama of Light that is in front of you.

Little by little the truth will attract over you His Light Essence and you will be able to realize what this project means, not only for earth, but for all Galaxies and the ones yet to be Created. You will help establish the basis for a New Race that will have its Seat and Throne on the Star of Liberation because She will complete her walk on the Path and reach her position of Glory.

The Will will illuminate each one with His own Light in the measure of your Service. You will find in it the solid support that will allow you to comply with the task. Then, be the Torch that lights the Path to the ones coming behind you. Be the living signal that will guide them. Kneel before the Presence, and in the humility of your Beings, give yourselves to render its Service and be its channel.

Purity will illuminate you and will fill your Beings in each act and will take you to achieve the glories that are waiting for you.

In the Will of the Being, let yourselves be led. Be the will and everything will be prepared to Serve you, to achieve the Goal.

I cover you in the Purity of Serving the Will of the Father–Mother.

GABRIEL

The Light that pulses Life is glorified in Love, and through this Pristine Substance it is possible that, in its Cohesive Force, the Presence of the Father–Mother be dressed in Light over each manifestation. Oh, Glorious Life! Oh, Glorious Love! Oh, Glorious Father–Mother, the Only Source! I kneel before your Presence in recognition of the Light, and in the Humility of My Being I give to your Service. I cover everyone who in recognition of You has decided to allow the flow of Your Light.

Oh, Africa, you have been waiting so long! So very long! But the bell has rung announcing that Freedom has arrived! Wake up, Africa! The Light pulses over you in a constant rhythm and in a beautiful and glorious procession the gifts that the Father–Mother has for his children have arrived!

Oh, Africa, you are the impregnable strength and Love has made possible for the Light to be filtered to you, stronger with time. You will be able to feel it flowing over you as the Presence of the Father–Mother in Action! You will feel the Embrace of Love and the lethargy that confined you to darkness will no longer be. It will disappear, and your Glorious Presence will be Liberated. You will Carry the Torch of Freedom!

Oh, Freedom, bearer of the Virtues of the Father–Mother! Bearer of the Light that will fill the Being of Africa! Let us raise that Torch and let us project its Light over the Continent covered in darkness! Let us hold our efforts sustained in the

Unity of Micah, and in a beautiful gesture of Love let us outpour over Africa the impulse that comes from the Being to Liberate each part of Life, to fill it with Light!

Oh, Zadkiel, cover each act with your Light. Sustain it under your Mantle and together with Lady Portia, purify each desire to pour the Light on Africa! All must be Torch carriers of the Light!

Glorious Brothers all, let us build a beautiful Majestic Pillar of Love and let us pour over Africa the Cohesive Force of its Being. In Manifestation of Love to Life, let us fill the Being of each brother with its Light. This is a Glorious opportunity to Serve Life, to heal its wounds, to fill it with Love. Africa represents all that man has made from incarnation to incarnation. Then, in a sustained effort to clean it up and to liberate all Life imprisoned there, let us channel over Africa the Light that pulses in the Being bearing the Love of the Father–Mother.

Oh, Brothers, you are just a reduced representation of humanity. You have nevertheless decided to work for the cause. Feel the pulsing in your Being of all the marvellous virtues of the Father–Mother and pour them over Africa. Feel the Unifying impulse of Micah sustaining you. Feel the One Light pulsing, commanding your Beings to Impersonal Service. The opportunity is offered by Portia, be the Source of Life and of Light. Give yourselves to the Service of Love and in each manifestation, share its gifts. You are Glorious Presences of Light that have taken on this beautiful task. Feel the Embrace in which we sustain you! Feel Us! Our attention enfolds you! Feel the Purity gravitating over each one in

Glorious Manifestation. Feel it, and in its Pristine Presence outpour each desire so that they are purified in the Flame of Ascension and poured over Africa as an expression of Love. Be Purity in each act and sustain it in the heart, it being your own Manifestation! What a Glorious opportunity! Let us unite our forces.

As conscious Beings you can share with Us this marvellous expression of Love of the Father over Africa. Be our channels so that in a sustained effort we are able to reach each brother with Our Beings. Only be the Torch that Lights the way and spreads the Light over Africa.

Sustain yourselves in the Unity of your Beings and from there pulse Us into the Action. Give Us the opportunity to experience in you the Freedom of others because in Freedom We Can Be; in Freedom We are the One Light in Action.

With the Glorious Manifestation that is projected over Africa, in the Purity of Action I sustain you covered in the Flame of Ascension pulsing the Purity of your Beings, calling you to your Impersonal Service. Feel Me in your Presences as the channelling Force of all the colours of the virtues that pulsates over Africa.

In the Majestic presence of Love and in His Purest Manifestation, I sustain you in My Embrace of Brotherhood. Under the action of My Purifying Light, I leave you in the Vibration of My Being to manifest the Purity in each of your actions.

SERAPIS BEY

·VI·

The Governing Presence of the One Father is made manifested through the Presence of Clarity. I Am Your Faithful Servant, your channelling in the Manifestation of Purity. I Am Your Perfect Manifestation. Through Me, the One Father Glorifies His delivery of Purity and Glorifies Me in It.

I Am Clarity, the Elohim of Purity. I want each one of you to reach a Momentum with Me. I will pour My Being on each one, pulsing that radiation so badly needed so that you can reach the Presence of the One Father.

I Am Clarity. In you is planted the Hope of earth. I pour the Purity needed in order for it to grow and for you to Liberate earth with the impetus of your Being.

I Am in each one, the Purity of Life within each electron of your bodies. I Am Purity, and I know that each one can and must arrive “clean” to the Father, bathed with the Light of My Being.

I Am Clarity. I have sustained in each one that momentum in which the Father, for the first time, breathes Life into a physical body. I sustain that Momentum in each one. It is a Glorious, Beautiful Momentum in which converges in man all the virtues of the Father, in marvellous colours, covering all with the Qualities of the Father, and in His Glorious Momentum, He bathes your Beings with the Mantle of Purity.

I Am Clarity, I sustain in each one that Glorious Momentum. It is Beautiful! Become conscious of it. Live it. You are Sons of the One Father. You are His Sons and as HE IS, so you are. Sustain yourselves in the Purity of your Being that clamours, cries, and screams for its Freedom, for its Glorious Freedom.

I Am Clarity. I have sustained that Supreme instant of Creation in each one, and I still sustain it. I will sustain it until each part of Life trapped in you is Liberated; until the Beauty and the Glory of the Being becomes One with all Life.

I Am Clarity, Elohim Clarity. In Me are contained all the cells that the Father placed in you, charged with Purity at the moment of your Creation. I contain them, I have jealously kept them from the corruption that has corrupted your bodies. I Am in you that Momentum of Purity. I Am your Momentum. You have to know Me because I sustain the Ideal of Purity in each one. I sustain that Ideal alive in the Being for its Manifestation.

I Am Clarity. I sustain Your Purity and I will sustain it until freed from the garbage in which you are immersed. You must call to Me and I, together with the Being of Serapis Bey, will Crown you with the Glorious Diadem of Freedom. Then, only then, will you be able to cross the door that takes you Home. Then, only then, will you be able to arrive there.

I Am Clarity. I became part of you at the instant of your Creation, but the Father, in a Loving gesture, covered My Being with His Own Being so the garbage suffocating you will not be able to reach Me.

I Am the living Purity in each being, the one that cries surrounded by all your garbage, the one asking for Freedom.

I Am Clarity. I have pulsed in each the action of the White Flame many, many times.

I Am Clarity. I Am. I Am contained in the Central Nucleus of your Beings, I radiate My Being from there.

I Am Clarity, and in each one I sustain that impulse of wanting to arrive bathed in the Pristine Light of MY Being before the Father. It is and must Be so. Only through Purity can you cross that door, only through Clarity.

I Am your Momentum. Reach out to Me. Be Me because I contain the Glorious moment in which the Father insufflated in you the Divine Breath. I hold it.

I Am Clarity, and I make this call to each one:

Children of the One! Repent, because over each one hangs your last chance! Over each one hangs the black sickle of eternal death! Repent! Come out of that dirty, black cave in which you shelter yourselves! Bathe each of your bodies in My Light! I will take you by My Hand to the Presence of the One and there we will Glorify His Being, His Holy Being!

I Am Clarity. I Am imprisoned in each one. Liberate Me! Let Me Be Free! Conquer that Central Nucleus, the Nous Atom that contains Me. Liberate Me and Liberate yourselves in My Conquest!

Brothers, take the opportunity that you have been offered. Take advantage of it. Bathe yourselves in the Light of My Being and be only Being. Liberate yourselves in Me, because I contain the Keys of the Kingdom. I have them and only through My Presence can you reach Him. Conquer Me and in that manner, you will be Free, I will give you the Keys and I will open the door for you.

I Am Clarity, I pour on each one the Light of the Being, Pure, Beautiful and Immaculate. Sustain yourselves in the fight for Freedom. The “black earth” clamours and calls for its salvation. Apply yourselves there because there MY Being will open the doors. That Nucleus contains the full Glorious Freedom. That Fortitude is My Fortitude. There I sustain the Immaculate Concept of Life. There I fill you with Light. So, become determined because the time for you has already sounded. You are a Nucleus, a Glorious Nucleus of Light. Crown yourselves in each effort. Pulse the Pure, Beautiful, Immaculate Conception of Life into each effort because Life is Pure, Beautiful and Glorious. It is the being of the Father and He Is Only Purity in Action, in Manifestation.

The Immaculate Concept has been protected and sustained by My Being. It was necessary to protect it from the filthiness that surrounds you, therefore I maintained it and I sustained it in the Purity of My Being. It will reach you at the moment you become Free from all carrion, as you come before the One with your foreheads inclined and bending your knees asking for forgiveness. I contain that Momentum in Me. It is the Momentum of your Creation. Achieve it. It is Yours. It is your own pristine Life pulsing. It is your Own Majestic Light. It is your Own Glorious Being.

I have kept that “coffer” well safe. Its contents are very valuable. You must prove that you deserve it before I will be able to deposit it in “your hands”.

I Am Purity, and I pour My Light in the Central Nucleus of your Being, in the Central Nucleus of Your Life. Conquer Me in your pristine, Pure Life. Conquer Me. Only with effort may you do so. Only with a total surrender in devotion can you reach Me. Do it, because I have the keys of the Kingdom.

I Am Clarity, the Bearer of your Freedom, the Freedom of the Being. I Am that, and only that. You can pour yourselves in Me. I will pour you Pure as you Are; Pure in the Presence of the All One Light.

I Am Clarity, Your Servant. I pulse from each electron the pure Light of the Father and My Being is contained in each one. Liberate yourselves and the Keys of the Kingdom will be yours.

I Am Clarity. I Am the Purity in Manifestation from your Central Nucleus, in the Nous Atom of your Being. I Am Clarity, Purity pulsing in each one the desire to reach and be only Light, Pure, Beautiful Light.

I Am Clarity, Your Servant. Conquer My Nucleus. I Am. I Am the Manifestation of the Purity of the One. I Am Clarity, the Truth contained in your Being. Allow yourselves to Be.

I Am Clarity, Elohim of Purity. Serapis and I sustain the impulse for you to be able to Be Free in the Unity of the One

Life that pulses in the Being. Be. Let Yourselves Be Pure, Radiant Light, the Light of the Being, the All Being.

I Am pulsing in you the White Flame of Purity, the Flame of the Being, the Flame of Ascension that will bathe you in the Purity of the Love of the One.

I Am Clarity. I sustain you in a Momentum of Unity with Me. I Am your Purity.

CLARITY, ELOHIM OF PURITY

·VII·

I Am Gabriel. I Am the Commissioner. Together with Serapis and the Brothers that Serve on the Fourth Ray, We pulse Purity over earth. Together with Clarity, we sustain the purity pulsating in your Beings. It is a beautiful act of Service to Life because now that it is so much desired to permit the Manifestation of the Golden Era in all Its Glorious Magnificence, it becomes necessary to sustain the Purity over each brother on Earth.

Purity represents the Door by which you must pass to reach the Presence of the Father. Purity. To sustain yourselves in It is to allow Love to radiate Its Beneficent Light to each part of Life in its Immaculate Concept. To allow the action of purity is to maintain the Immaculate Concept of Creation. It is to see realized that Pure act in each Manifestation.

Sustain yourselves in Purity. Each act, each thought, emit them in Purity. Sustain in your Heart a Momentum of Purity, channel it from there. It is beautiful to see how the Action of Purity is expanded and the Being vivifies himself in It. Sustain yourselves in Purity. Purity is the Door and only through it you may reach your Goal. Each effort that you realize, that you wish to realize, dedicate it to Purity, so that It can sustain your Being.

Purity, the fine Manifestation of the Father. Purity, One Light in Action. The Father–Mother is Purity. They are pristine Light without stain, Immaculate; therefore, sustain, build a

Momentum with Purity in your hearts. It will open all doors for you.

We, the Brothers of the Fourth Ray, are the Outpourers of that Being, the Channelers of Him. Realize this Momentum of Unity with Us. We will sustain you. Serapis Bey will radiate from His Being all that He can. We will all do the same in order for you to be able to sustain yourselves in a Momentum of Purity. Do it. You have to understand that this is the Door and if you have not complied with the requirements established by it, you will not be able to continue on the Path. The Door that leads to the Presence of the I Am will not open to you.

Achieve Purity. Vivify it in your Beings, in each of your cells, in each act that you do. Vivify it.

To obtain a Momentum of Purity is to reach the highest height of the Being. It is to realize the Being. Each effort is a point in your favour but be conscious in and of your efforts. You must be conscious of what you want to reach.

Sustain yourselves in each desire of the heart that wants to manifest Purity. It is a fine, delicate, fragrant, tenuous, a very tenuous Being. It is a Veil that tears at the slightest intent of something that it is not. Do not tear it. Let it surrender itself to you for the effort of bringing it into your heart. It is a very fine veil that covers the Door that takes you to the Father. To cross that door, you only have to Pass through Purity, but you do not have to tear it. The fineness of your Beings will make it possible for Purity to give way to your Light and allow your passage through it and to the door.

Brothers, without doubt, to achieve Purity you have to sustain your effort, to be constant and to be willing to give Unconditional and Impersonal Service.

The personality alone is the door that allows the exit of the Light towards the dense world. You are already Masters of the dense because if you do not really have to make a conscious effort to outpour the Light there, then your personalities are kings of that medium. So now you must bring yourselves into balance. It is time to let your Beings outflow. The Being works in an opposite manner than your personalities, which mostly act as obstacles to its intent. So understand that now is the time for the Being to manifest itself just where the personality has made its kingdom. The Being must have free access and there install Purity. Then, pour the Being there, in your dense matter, on the dark parts. Concentrate in the parts of the personality that persist in offering itself as a channel. Refine them. Turn around its function and cause each cell of your personality to shine with Impersonal and Unconditional Service.

Brothers, for centuries you have played a single part. You must understand that you are dualities: Light–Matter, Darkness–Light. Therefore, what is manifested in the dense your personalities must balance towards the Light. What is manifested in the Light your Being must balance to the dense. Each part of you must be united fully so that Purity, which is in the middle as the point of balance, can open the Door to the Kingdom.

You must understand the marvellous Light that My Being outpours now. You have to take it into the Being. Let it flow

in your personality, lifting it to the Light, and let the Being flow towards your dense part.

Repolarize, then polarize again. Refine your matter. Conquer the Being because it is trapped in the garbage piled over it for untold time. So refine your personalities and densify the Being in its function. It is All Light and to do this the Being has to come down to where everything is physical matter. The personality is all matter and it has to refine its channel. Purity is the medium that equalizes in the Rhythmic Balanced Interchange until the moment when

each has reached their Male–Female state and have purified their parts. Then Purity permits them to go on to Crown themselves before the One ALL Light FATHER.

I Am Gabriel, Brother in Unconditional Service to each one.

I Am Gabriel, and together with the Brothers of the Fourth Ray, as we are called, we will pulse to you the forces for you to use them properly.

So Be It!

Gabriel, Your Brother in the Light to the Service of Purity.

GABRIEL

·VIII·

I Am Astrea, Bearer of Purity. I make it reach each of you in that small Momentum that you sustain with Me in My Being.

I Am Astrea. I Am Purity. Through Me, this Being, this Glorious Being is manifested. I outpour it to each one. I make it possible for each of you to feel the desire of reaching the Father covered in Purity. I Am the Bearer of the Flame that enfolds you in its Light, that makes possible the glorification of purity in your Being.

I Am Astrea. Earth requires My Presence. I offer it to you as it is: Pure, Beautiful, in the Virginal Mantle of the Purity, in his Pristine and Brilliant Being.

I have the Keys of the Kingdom because through My Being I outpour Purity. I sustain that Glorious Momentum of seeing to the Freedom of each Being on earth. I sustain that Momentum. It is Beautiful, filled with the Light of the Being, with the Light of My Being.

Be Purity. Live it. Over each one pulses the desire of achieving it, of Being Only Light, only Being. Purity is only Light, only Being. Achieve it. It waits for you. Achieve it. Reach it. It is yours. With this effort you will make it possible to create this Momentum in your Beings and from there pulse Its Light, and from there radiate Its being.

I Am Astrea. Each one will have to pass by My Door. I await you who are already Free of all chains, of all weights. You must arrive dressed only with the Light of the Being, glorious for having conquered density, the matter that imprisoned you.

I Am Astrea. I will pulsate My Being to each one: Purity. I will sustain the desire in each to arrive home bathed in My Light.

I Am Astrea, the adjuster of your efforts. I Am the faithful balance that brings justice. I Am the Door, so reach Me. Everything has to be perfect. Everything must pass by My Being. It is Law, the Law of Purity.

I Am Astrea. I pour My Being on each one. Receive it. Sustain it. I cover the door with My Being. I sustain it in Him.

I Am Astrea. Sustain the Momentum that My Being leaves with you, pulsating the Flame of Ascension, the Flame of Purity.

I Am Astrea, your Door, the narrow entrance that leads you to the Father, that takes you to Him, to His Glorious Face, to His Majestic Presence.

I Am Astrea. I carry the Keys of the Kingdom because Purity is My Being. I will put them in the hands of each of you in that moment when, having realized your task, you reach Me looking for your Freedom. Purity will Crown you, so comply with it. Liberate yourselves in It. Each one knows what he has to do. Each one knows from where radiates your

force. Achieve it then, because Astrea waits at the entrance of the Door with the Word to enter or not. So get ready to Serve because the opportunity has already been given. Be ready to comply because Light is poured over you. You must use it in right action for the Manifestation of the Light.

I Am Astrea. I leave you My Being, Purity, pulsating in you the desire to Be, the desire to arrive Home again, the desire to reach Freedom. Sustain yourselves in It. It is a glorious moment. Sustain yourselves. It is your last opportunity. Take advantage of it. Much Light has been poured on you. Radiate it to each part of the Life that contains you, to each part of Life that you contain.

I Am Astrea, the Guardian of the Door. I want to see you achieve Me Liberated, with the work done Perfectly, because otherwise My Being will tell you: Return! And where will you go if there are no more opportunities? Where would you go?

I Am Astrea. I want to Crown you with My Being and deposit in your hands of Light the Key, your Key that will let you open the Door before the One Father that awaits you with your Crown, to sit you down before Him.

I Am Astrea. I Am the Door. Come to Me with all your debts canceled. I Am waiting for you.

I Am Astrea, your own Guardian. I will pour on each one the Flame of Ascension, the Flame of Purity at the moment that you request It.

I Am Astrea, and before anything I Am a Sister that hopes to see you arrive Free, Free before Me and before the Father.

I Am Astrea, the Star of Liberation. You must mould Me into earth, Free from all miasma.

I Am Astrea, I bow My head before each one. I Am at your Service. Call. I will come quickly to your call.

I Am Astrea, the Guardian of the Door. My Being, Purity, will cover you with Its Light if you only demand from It Its Presence.

I Am Astrea, Your Guardian.

Astrea. Astrea – Star of Liberation.

Come to Me, I await you.

I Am Astrea. My Being, Purity, awaits you. Crown yourselves in It. Astrea awaits you to take you before the Father.

*YOUR SISTER IN THE LIGHT,
ASTREA, I AWAIT YOU*

·IX·

The action of the One Light reacts in support to your work because of the circumstances that surround your movement. We feel the need to manifest our Vote of Confidence to the task that you have taken up. Let this Be one more “grain of sand” that offers support to your efforts. Necessarily, you must confront the Truth in the action that you now commence. When a person has clarified his Real Purpose, then he can take the step that is asked of him. He cannot allow any external desire to interrupt the impersonal purpose that guides him.

In general terms, we see that there is still much attachment to things of the material world and that at the moment of taking a fundamental decision, you still feel the weight, the force that binds you to the external Life. Lamentably, this indicates a great lack of purity in your purposes, because he who has really determined to Serve the One Cause must not be afraid when he is asked to abandon his personal Life in benefit of the Light. On the contrary, he should be happy, because it is a signal that the Divine Presence will act through him, supplying what he needs in the external world with the Perfect and Beautiful Light of Love.

Brothers, affirm your desires and motives because it pains Us to see how heavy it is the material part in each and how it closes the doors to a real Impersonal Life. How many times have you been called to it? Seek within yourselves for the Truth of this. Test each step that you are going to take, and

based on the certainty in your heart, on the basis of the Presence of Purity, confirm if your desire to Serve is real or not, and if it is in agreement with the principles of Unity and Love. See if you have really felt the call of your Being or if you only do it for comfort, convenience and advantage behind comfort, or to occupy a place that can offer you new perspectives of external convenience and advantage behind comfort.

Brothers, this is a daily action of the Principle of Unity in each one. It is a daily gesture of the Purity in each action. Do not delegate your forces to the external world. Gather yourselves in the Light of Love and surrender yourselves in the Purity of motive, with the heart charged with Light in benefit of the Triune and One Presence.

Brothers, how many beautiful things would you achieve if you could understand that each object, each desire, each possession, separates you from the Path. How much would you be able to reach by opening yourselves to the action of the Light and by putting aside all your desires in benefit of Love. How light would your bodies be if you were able to detach yourselves from that load of matter that enfolds you. Understand that on this Path you do not travel with a backpack because that loads down the person, and because you would always be attached to it. This Path is travelled free of all desire, free of all possession, with the certainty that the Father will supply everything needed, with the certainty that nothing will be lacking, and above all, with the certainty that you are One with the Light and that by the Principle of Unity everything will Flow in the Magic Presence and nothing fails in It. On the contrary, now you lack the most appreciated

values, because in your desire to possess physical things you have forgotten to request the Real part of you. Jesus said: “Build treasures in heaven, where the moths cannot damage them”. So each one must build there because nothing is sure on Earth, nothing is eternal. Everything that is material passes. It does not last of its own nature and form.

Brothers, we understand that this is due to the lack of Faith and Purity in your actions because when there is Certainty, there is no fear. Faith strengthens you in moments of weakness, becoming internal fortitude. It is a great treasure. You can count on it in the dark moments for supplying you with everything that is needed.

Brothers, human nature has often failed because its foundation does not have a good basis. Therefore, you are asked to recycle your external energies towards the internal, and in this way, you may build your treasures which will later supply you. With regard to your impersonal actions, your needs will be supplied with Light–Force by the inner Being. As soon as his assistance is needed, it will be immediately offered. The Internal Certainty that is felt at this time will tell you that the call has been answered. Only open yourselves and listen to your Real Nature. You will understand that you have never been unattended or unassisted in your calls for help. So then, how can you be afraid to abandon your desires and possessions in benefit of the One Cause?

Brothers, the flow of Life supplies your needs and it is not necessary to be asking for assistance every moment because this is a natural process. Its function is to supply each of your elements. Then, why be fearful if you would now form up

within a Superior Order of Action? Do it and you will be assisted in the most minimum of your requirements because you will be subject to the action of the Light and it never fails in its Manifestation! Affirm this to yourselves at each step and see that it is in accordance with the Great Plan. Do not forget that your small desires bind themselves to you and they form a great wall that darkens your internal vision. Do not be afraid of being fair with each part that calls for your attention and give up your desires in benefit of Impersonal Service to the One Cause.

Give yourself without fear or doubt, because now more than ever you will be heard and assisted. Now more than ever you are closer to the Nucleus that gave you Origin and therefore you will not be abandoned. You will not be disregarded in any of your external and internal needs. Only surrender yourselves and you will see that until now you have not participated in the Majestic Influence of what is in reality the Impersonal Life. Until now you have had the door closed to its action. Open up and you will really see that the Great Cosmic Brotherhood has been waiting for you to *Be One in the Light, to Be Only Light. What Are You Waiting For?* Oh, Brothers, do not be afraid! You have never lacked anything. How could you now?

For Love of the One Cause, in a Service of Illumination in benefit of the Purity in each heart, for the Active Principle Unixitron, the Great White Brotherhood makes this call to each heart. In the name of the Triumvirate of the Light, Be the One Cause, the great nourishment for each one.

SERAPIS. SO BE IT!

Purity, as the acting force in each one should be anchored in your internal bodies by the constant demand of your actions. That element must necessarily be fed to be fortified and can be radiated in each expression, and in each action. When a person has chosen to Serve, it is necessary to turn to the Source of Purity and bathe your motives and desires there because in that way, only that which must Be is manifested.

The Good Will in Service is caused by the Purity that moves the action. It is not enough to desire it, but you must act to allow the flow. Purity is a very fine element, fragrant as a flower and delicate as a very tenuous veil. It has marvellous characteristics and it must be carefully treated because it breaks at the slightest “false movement”. It is like a bridge between two very separates mountains. Something that is hanging from one extreme to the other and your step has to be taken without doubt, with certainty and Purity in the heart, because otherwise you fall to the abyss that separates the two ends. You must be like a child, that by knowing in front of you is the wonderful world that you dream of, you advance without fear and cross that fine thread that binds the two worlds. When crossing, you will be able to contemplate the abyss that separates them and realize that only your Faith and your Purity of Motive allows the safe passage.

That is an example to explain the action that each one must take. You are at one end of that abyss because you

have not decided yet to cross that barrier which separates your lives: The Real, Impersonal; the material, the unreal. Be like children desirous of reaching that beautiful world that awaits you, with a Purity of desire sufficiently strong to say no to the dark work that surrounds you. Do not look at the abyss because then you will not be able to cross.

Be conscious that it exists and that you can fall by taking a false step. Remember only the Pure desire in your Heart, the desire for Liberation. Feed yourselves with the force of Purity and you will be able to advance through that bridge that hangs between your two worlds. When you cross, cut the point of connection with feeling that each one possesses. Purity will receive you after crossing that bridge. Be nothing else but essences that need food to grow. Purity will supply that food, it will be the Nurse that will watch each step, the Mother that will cover your Beings and will help you to remove the heaviness of the material world. Be, then, what you really are: Child-Beings, defenceless before the contingencies but desirous of returning to Him and never again leaving Home.

Brothers, Children of the One, My Call is to that part of you which has remained silent for so long. That virgin part that needs to grow and feed itself to be able to fructify in the Light. That part that has slept because of the darkness that surrounded you. I make a call to your Light Essences to wake up from the lethargy and cross the barrier that separates you from the Light. You should only look in front of you, where the Morning Star shines gracefully showing you the Way. You must only look at the Light that will feed your desire to come out of the enclosure in which you have been for centuries.

Perform the effort and receive on your foreheads the kiss of Light from the Star that shows you the Way. Receive the Blessing of the Light, of Life, of the Real Life, of the Conscious Act. Wake up and notice that in front of you shines the Announcing Star of Liberation. Do not allow more heaviness in your lives. take only one step forward and remove the loads that have held you in the shadows for so long.

I call to that child part to take a step forward and take the force. I call to you to open yourselves to the influx of Purity and dress yourselves with the Light of your Action.

Let us go child. Raise yourself up and Walk! Do not fear! You will cross the Abyss that separates you from the Light! The Angels of Purity will guide you!

Let us go child. Do not be afraid! The Golden World that you dream of awaits you. It is a reality now. You only need to take off that heavy veil from your eyes and then you will be able to see it!

Let us go children! Do not stop. Go ahead! Before you is the Door that takes you Home! The Father–Mother awaits you. His only request is Purity.

Let us go child. Keep on going! Your steps must be firm and without vacillation. Cross the barrier that separates you from the One Light, from Unity, from Purity!

Let us go. Continue. Everything is already set for the great party. Do not miss it because the wait has been so very long!

Let us go child. The table is set. We are only waiting for you to begin transforming the physical food into Divine Nourishment! You are the only one missing and then all United, we will be the One Source of the Purest Divine Abundance! Let us be the Nourishment for Earth!

Let us go child. Do not stop! Cross now that space that separates us! Let us join ourselves for the Love of Earth and let us be a Source of Blessing for each part of Life on it!

Let us go child. There should be no more waiting! Everything is ready to start the party. You are the only one missing! Return! Everything is ready to complete the Holy Will!

Child, I Am calling you. I Am awaiting your Return Home.

FOR THE LIGHT, I AM SERAPIS

·XI·

The Unconditional Surrender in devotion of a person to the One Light has to be a very conscious act because, if not, it will cause very strong contradictions in him instead of helping him, it will obstruct his evolution and that of those close to him.

A surrender in devotion is without conditions; it is irrevocable, definite. It is an Act of Marriage with the Real, Divine Part. It is a bond that must become more and more insoluble. You or they do not exist anymore. Only I Am Exists, in an Impersonal and constant Service, in a constant shining of the Divine Light.

The Unconditional Surrender in devotion, as the name indicates, is like that, without reserve, without impediments. It is Total and Absolute. It is a very internal process in which every day surfaces the imperative need to Be One in the Light and with the Light. It is a process that you reach by Discernment, by the constant clarification of those thoughts and desires that come to the personality. This is not a game. It is the opportunity to marry again the opposites of each one, to come back to join the Divine Nature and Be One with it, to put behind you the plane of matter and enter deeper and higher onto the Path of Light. It is a progressive refinement of each and all of your thoughts, until it is Light, only Light.

Brothers, your personality shows a panorama that is still very turbid, there are still many obstacles in your lower

bodies that prevent you from taking the force, all the Force and to take that conscious step. It is a wanting and not wanting. It is a game to Be and not Be. It is a skirmish for not saying: yes, I want. It is already. It is a non-sense game, absurd, which because of the lack of Discernment darkens the beautiful Light of your Beings. You believe that by saying yes with the mouth is enough. You believe that by taking one or another step externally is enough, but it's not so. It is something from very deep inside, very fine. It is a yes with the Heart, a yes without hesitation, without doubts. We understand that the external world still weighs very much, but, do you listen to the Voice of your Presence? Do you listen to the call that it is making? If so, why do not you answer it? Why do you give so much power to that which confuses your hearts and to the desires that hold you trapped in darkness?

Brothers, this is not a game. Better said, it is a very important preparation for internal cleansing. It is a feeling of anxiety before a Very Pure Process. Consider this purpose as a pure and sweet bride that awaits you. Do not you feel it? If it is so, why do you play with wishing? Why do you persist in the masquerade that will lead you to the darkest contradictions? You must get married to Purity and she does not allow games, but she demands a very clean body (Temple, a groom or a bride with a very Pure Constricted Heart), for the act of Marriage, of the Wedding of the Unconditional, Divine, Pure Union.

Brothers, do not be afraid if that is the way you feel, if that has been your preparation, because there will be no element contrary to your surrender in devotion. But if you

still have lower desires, this will darken your panorama and you will not have enough force to take the step to say Yes, not to someone or something, but to say Yes to that bride or groom that awaits you, to that Radiant Purity that awaits you in the Altar of your hearts.

Brothers, the personality is gross, uncouth in spite of the matter that houses it. It is a body of desires that must be elevated. It must be refined; must be Purified, so that only the Light is expressed through it. There is no way or human manner that makes this possible because even the most learned or versed “illustrious men”, if they have not worked with their lower parts, must continue being elements of low expression, of the gross. Position does not matter in this dark world. What matters is the action of the Real Nature expressing through you. You cannot masquerade in the world where you are requested to enter because Purity discovers any impure element, no matter how small or hidden it is. It Discovers the most insignificant thing that interferes with the Light.

Brothers, considering your unsteadiness, we have noticed that the Purity of Motive is very much missed; that you have wanted to masquerade as a lamb but having the wolf always ready, waiting for the opportunity to attack. You have not seen this step as it is: a marriage with a divine principle, with purity. your bodies must be cleaned, and your hearts constricted willing to go ahead with this fusion. You have seen only the external matter, the superficial part, the part of physical realization, of physical work, of physical Service. Lamentably, it is not this way. It is something much more elevated, very fine, Very Pure. It is something that transcends

much more than human nature is capable of up to now. Something that is seated in the very Heart Centre of the Father–Mother, in His Light Nucleus. The external is a pretext, a preparation, a very small motive that Yields the real step of Surrender in Devotion, which is from the Heart.

Brothers, seeing these failures, We dedicate ourselves to call for the Light for each of your bodies, wishing that the Light of Discernment puts Order in your actions and will clarify the purpose of the movement and of the need for surrender in devotion. Centre yourselves in the Heart–Centre and look there for the Truth. There are many builders in the world of form but very few or none that are Achievers. You are called to Achieve (yourselves) in benefit of the One Light. You are called to Raise the Light on planet Earth and this part cannot be done by the unconscious human part, but by the Real and Divine part. It is not an act of construction but of Realization (*Real–lization*) of the Light, of Rising the fallen Light, of Establishing the Magic Presence in each One.

Brothers, do not get confused about your motives, do not permit that the external part hide your wishes, steel your forces. Keep yourself centred in your hearts and bathe in Purity each step you give. Tune yourself with the Presence I Am and say No to the passions that want to keep you trapped, enslaved, in the gross matter.

Brothers, it is your last chance. Do not lose it by allowing “apparent inoffensive desires” to take command of you. Take the force and raise yourselves because the One and Triune Light calls you to Command with it; calls you to Raise

the Luminous Cross of the Cosmic Christ; calls you to Raise the Magic Presence on this Planet.

Brothers, become Conscious and in that task, dress each act in Purity.

Refine your thoughts, actions and desires, and in virtue of that Light, clarify inside, deep inside, what you must do, what you have to do.

As a Service of Love, bathing you in Light, Purity Dresses your Hearts. Be your Action in the Light.

So Be It!

SERAPIS BEY

It pertains to man to raise the Light contained in his vehicles. It is a personal action toward an Impersonal purpose. Each person must determine for himself to proceed with the process of evolution that surrounds him and move him to seek, more so with the passing of time, the opportunity to express more Light through his vehicles. It is a personal task but one which becomes impersonal when the person realizes that he is a whole reflected in the individual. There begins the process of recognition and acceptance. There begins the search for Truth and for Liberation. When this level is reached he is able to see that all are mirrors that reflect the errors to be repaired. The correct attitude is that which allows him to accept the other person as his own reflection and love himself with all the intensity of his Being, taking the reflected Light that was confined in his Current of Life and cancelling the pending debts of past incarnations.

It is understood that man has allowed within his nature the storage of many past mistakes and therefore has created a layer that prevents him from seeing the Light that is reflected in others, he should see his own “I Am Presence”, but only sees his own shadows. By accepting this reality, he cancels his past mistakes and allows the Liberation of his own Light, reflecting it in others. When he has understood that he is a vast unity of brothers outside, he can realize the greatness of the Father–Mother and the Love with which he has been Created and surrounded, sustaining him, emanating through each particle of Life and each part of himself.

The search for the self implies a self-recognition, a constant acceptance of that internal reflection seen in the one who is in front of him. It is a process done day by day, moment to moment. Liberation is born in this recognition and acceptance because this is how the debts are cancelled and the Light of Love flows.

Brothers, each one of you is a very similar pattern that reflects the other and that you must cleanse. Your personalities have sustained a game that has prevented you from having a truthful communication with yourselves. Each one has considered himself better than the other, better than the rest. This position is absurd because each one is an exact copy of the other that reflects the dark parts that he must repair. Each one complies with the Internal Pattern of Light established, so that with a perfect attitude he may achieve the Original Plan and become a Source of Light for all of those who are looking for their Freedom.

Your Currents of Life are nothing but reflections of your actions. Each one reflects to the other: “that is right, or that is wrong”. “Fix it here or fix it there”. It is a process of cleansing, otherwise it would be very hard to cancel the debts and clean your networks. You must understand that you have been placed next to the other to accept yourselves in the recognition of others, to love yourselves there and cancel your debts, to heal the wounds and establish Divine Order in your lives.

Time and again you are told the same things, because time and again you make the same mistakes, because time and again you judge, and you criticize. It is to yourselves that

you deny the opportunity to do things right. Each one, in one way or another complies with his Original Pattern. See how you are and accept yourselves as a part of the other, as a piece within a larger body, as a part of a mechanism, which at the time of synchronizing your functions will start up as a Beautiful and Perfect structure that will allow the anchoring of the Magic Presence I Am on the planet.

Brothers, do not limit yourselves. Expand yourselves in very strong, very beautiful, very pure luminous concentric waves. Allow your higher bodies to expand themselves more and more, to see yourselves more and more in the other person, and to form the Perfect and Pure Presence of Unity to Manifest the Light Body that you are. Do not limit yourselves from others and arrive to the Presence of Unity, assuring yourselves in the Principle of Purity in which you were created.

Each one is a luminous electron within that Ocean of Light. Your Life must be concentrated in a constant projection of Love. Do not limit yourselves. Expand yourselves and circle the planet with your luminous bodies bound by the Cohesive Force of Love, fed by the Purity of the I Am.

For the One Light, you are Pure and Perfect particles. Maintain the Immaculate Concept over yourselves.

Grow in the Light of the Magic Presence.

SERAPIS BEY

·XIII·

The Powerful Presence of Love, the Divine I Am Presence in the Permanent Presence of the All Being, emanates its Light over planet Earth. In the Law of Unity by the Unixitron Principle, each part of the I Am, receives the Blessing of Its Light.

The Being Trinitizes the Light and moulds its action of Liberation into its fallen nature. The Adam-Eve part is liberated from the prison that shelters them. The Archetype Presence is projected from the subconscious worlds and is moulded more completely with the passing of time. At this time there are many possibilities for the Light to mould Its Pattern of Perfection on the planet.

The etheric mass that has kept the fallen nature hidden feels strongly the influx of the pressure performed by the Impersonal Action of the Being dedicated to the Action of Liberation.

The opportunity has been offered, sustained by the Unixitron Principle and of the Concept of Unity. Each electron that raises its vibratory rate attracts others towards it creating a very large vortex of Light that breaks the dark barriers of the etheric mass surrounding the planet. The Expression of Light that is actually poured covers the Familiar pattern in an ascendant wave of expression. The premises given for the elevation of your action towards the Model of the Real Action creates a very strong vortex over the family, over the community and society. The veils are drawn and

each part in representation of the Divine Archetype on planet Earth will receive the thrust of Light to Liberate itself and to sow the Light of the I Am over each part.

It is urgent to establish the Divine Action at all levels and it is the task of men in charge of the “destiny of the nations” to absorb within their action the model given for the evolution of the patterns to be imposed on society, and to establish one single Pattern of Action: the Divine I Am Presence Commanding in each Element, in each Action.

The fallen nature has to raise up, step by step, the energy that has sustained it. Darkness has to be raised up little by little. This is why the veils have been drawn, but it is understood that as a mass you are represented by people that in one way or another have “your destiny in hand”.

I make a call to you brothers, to restore within yourselves in an Action of Love the True Action of the I Am, opening your hearts to the Light, and to allow in your Currents of Life the Presence of Unity, and to offer all your parts to the Father–Mother as Light, as Love and in Brotherhood. I make this call to all the elements in charge of the organisms that have something to do with the evolution of the youth and the children of the planet. You are the most appropriate environment to establish the ideal conditions, to bring about again the rebirth of the Brotherhood of Man on Planet Earth, to show again the Divine I Am Presence, with Its Action of Light over each part of you.

Brothers, your hearts are receptacles of the One. Have communion there with HIS Light and receive the Kiss of

Purity that is given with so much Love to His Children on the planet. Feel His Divine Liberating Action and see yourselves as what you are: Light, only Light. You are electrons that orbit His Nucleus of Perfection in search of reaching the Purity of His Light and absorbing yourselves in His Divine Matrix, in His Glorious I Am Presence, with the Divine and Pure Presence Father–Mother in Action.

In benefit of the Glorious Expression of the I Am, be covered in His Light. Take to yourselves the Purest Expression of Love.

For the Divine Light, I Am Gabriel, Messenger of the Light, Messenger of Love.

PEACE, LOVE, BROTHERHOOD, UNITY
GABRIEL
