# TO ETERNAL VICTORY

Great White  
Brotherhood

*VOLUME VII*

In this Era filled with Light, a New Era in every manner of Manifestation, the Being will recreate itself, rejoicing because the Presence of Love fills it.

The Being, in his constant searching incarnation after incarnation, has stored in itself a complete group of virtues that make possible the Manifestation of the Living Presence of the Father–Mother. the Being, at its passage through each ray, has assimilated from each what was strongly learned in each lifetime. This has made it possible for each man to receive the Gifts the Father had arranged for him in his trips to Earth. It is your turn now to project outwards that part that manifests the will of the Father. the Being of each one has especially learned a certain part of the whole range of virtues, and with this aspect you must now Serve on Earth.

The beautiful procession of incarnation after incarnation, and I say beautiful because it is a wonderful opportunity offered to the Being to incarnate again, permits that the Being grow in stature and learn to value the virtue that pertains to him to express. the personality usually manifests the opposite, establishing a fight that will show who of the two is stronger.

If the personality wins, the Being becomes trapped in a cave of darkness where he has to regain again the force to express Itself through the personality later. Sometimes these fights are repeated incarnation after incarnation, but each time the Being loses he is confined deeper into darkness,

from where he must regain his force to again try to express Himself. To pour outwards all the Light that he has is a hard task, because with each victory the personality grows in negative strength. To pour through the garbage that the personality has accumulated requires the ability of the Being to gain and filter the Light of the Father, having then the opportunity of channelling that Light.

Sometimes He resigns in his diligence and remains confined, reduced to near nothing, and the personality wanders as an animal without owner. But the Being that continues is fortified because the garbage stored over him teaches him to exert himself more forcefully. Finally, the being will master the Light necessary to counter the personality. When he finally does so, the battle is won, and he is “Crowned with the Laurels”, the Being is filled with Light and can outpour without any obstacles. This offers a great joy to all of Us who have worked with Him! We who have sustained His efforts.

It gives Us a great Joy because the victory is for all. the Light is recreated in Him and in each dawn. He can assimilate the kindness with which the Father fills him. the task that He has to fulfil can begin to be channelled because He can now count on His “own Forces” to manifest Himself, *because He Has Become Conscious that It Is the Father–Mother who is Manifested through Him.* The path will be short or long, depending on the garbage stored over Him, and on His disposition to Serve one single Master, but He is always fortified more with time as He continues to Manifest the Will of the Father–Mother.

When the conquest begins through others, the Force of the Father–Mother does not stop flowing through the Being, being sustained in each effort and in each act. To conquer yourself in others is to Liberate each part of Life imprisoned there, taking you closer to the Father–Mother, and it is to win one more point in the Impersonal battle in your Service of the Light.

The Will to Serve is accumulated in the Being and must be directed outward in each act. the Light is to be channelled and can be the torch that illuminates the path for others. the Voice of Command will be obeyed, and the Service will be done with the true conviction that by giving the Light to himself and others, He will then be filled with the Love of the Father.

The time to Serve has come for those who have asked for an opportunity at Gran Sabana. Be ready to comply with the Voice of Command and your Beings will be filled with the Light. It is a beautiful opportunity. Do not let it pass! Grasp it, because there are few times like this in which so much Light is offered to a group of people united in the same purpose. Be ready, and at the least thing required, do it with the certainty in your hearts that the Father–Mother is the one who has arranged it and He Is the Channeler.

Sons! in the present Era the Light has to be poured in abundance over the Earth and you are the most appropriate Beings to help Us in doing so. We send our efforts from behind the veil through you. You are conscious that the Light has to reach each part of the Life, that the Earth is in a critical time, and a great effort must be accomplished to Liberate it

from the garbage stored on it. Do not look back. Do not wait for others to take the first step. Do it yourselves. You are conscious that the acts of each makes up your common action; the work of one is that of the other; and that it will reverberate to each corner of the Earth because the wave of action scatters and projects itself. Then, project yourselves, project Us.

We have waited for this moment for a long time and now that the door is open, allow Us to be with you with all the Force of the Presence of the Father–Mother. Be yourselves filled with Light, the receptacle to shelter Us and express Us outwards. We will gravitate over you awaiting your decision. Take the force and let us begin this work. Together we can reach the goal. Together we will arrive before the Father Creator.

If you are ready, we are ready, because we cannot violate your wishes. We cannot force your action. Get going. You will climb higher mountains; you will be filled with more Light; and you will move closer to the Heart Centre.

Clean your cups for this beautiful opportunity. Use them to receive the Divine Light. the Violet Flame of Lord Saint Germain awaits your usage and to each petition it will comply with its Service to manifest the Golden Era. Use it. That is why it was created, to clean what is not. That is Its Function, Its Service to Life. Fill yourselves with Its action. Pour over others the virtue that pulsates from your Beings in an unconditional act of Love.

I cover you with My Mantle of Violet Light, waiting for your hearts to accept Our Impersonal Service to Life. Feel Me filling your Beings with the Compassionate Forgiveness for what fills your worlds and to be raised to the Light in this loving embrace. I remain in each one pulsating the violet flame from the Being of the Father–Mother, the Light of Forgiveness in the Compassionate Presence of Love.

I Love you Free, because you are Free. I Kwam Yin, Goddess of Mercy, offer you My Blessing and Unconditional Service in this special time.

KWAM YIN

I Am Lady Portia, the Goddess of Opportunity. As the bearer of the Transmuting Violet Flame, I will pour My Light towards the African Continent only if you demand My Presence there. Channel it with the Virtue that each one has to express and pour it on Lake Victoria, creating a great Volcano of Violet Flame that outpours over all Africa and pulses a great Current of Light over the Nile, transmuting all the darkness that It encounters.

Take advantage of the opportunity that you have now to pulsate the Violet Flame in the Action of Liberating each Current of Life trapped in deep darkness there. Be the channel by which I can pour Myself on Africa. Be a beautiful Pillar of Violet flame pulsating there, generating the Purification of the Light.

I cover you with the impulse to Purify all that is not real. Outpour yourselves with Love to Saint Germain. Be the Glorious Presence that wants to manifest and make it possible for the Star of Liberation to shelter in her womb those children that wait to manifest themselves in the Golden Era; the Era of Saint Germain, where only Love will reign, where only Light will be, and where the Father–Mother will walk by the side of His Sons.

Pour yourselves and pour Me, and in the Unity of purpose lets be a great Pillar of Violet Flame pulsating over Lake Victoria. Feel the Nile run through that land thirsty for Love, transmuting its waters with the Pure Violet Flame, with its

Pure Cleansing Action, its Pure and divine Purifying Action. Pour yourselves and give me the opportunity of being your channeler there, to pour the Violet flame with each Gift, maintaining it over Africa, liberating the brothers that clamour for Forgiveness. Let us pour Love, let us pour Forgiveness, let us pour Liberation towards each of them, and let us feel the Liberation, the Action of Love in Mercy to each Life trapped, the joy and beauty in each Life Liberated.

For the One Cause, towards the Liberation of Africa, let us pulsate our Beings towards its Central Focus, towards its Spinal Marrow, towards the Channel that can pour the Violet Flame through that Earth. Let us fill it with the Purifying action and under the Tutelage of Saint Germain, let us be the Torch of Freedom; let us be the Always Present Dawn. Let us raise each heart in Victory there.

In the opportunity of becoming a channel to your Service, I cover you in My Mantle of Light. Feel Me, and at the same time be the focus that can pour Me. Do it with the certainty that I will Light the Torch of Freedom with a marvellous Violet Flame pulsating over Africa.

From Lake Victoria, from the Base established to conquer Africa pulsates My Being towards your Beings.

*I COVER YOU IN MY LIBERATING ACTION  
LADY PORTIA, GODDESS OF OPPORTUNITY*

Be in the understanding that each one is only a bearer of a part of Life originating from the Father–Mother. You must comply with the function that each one is committed to realize; to be only a channel by which the Light is outpoured to others, and in the Love of Service, command It where it is required. In these times plenty of Light is required over Africa because the African brothers are clamouring for their Freedom. Conscious of your function, fill your Beings with an Impersonal Service and pour each Virtue over Africa, over Lake Victoria; cover it with the Violet flame and submit it with Love to your African brothers.

I, Saint Germain, Hierarch of the Temple of the Violet Flame, have the pleasure to pour the Transmuting Flame over you, so that you enclose each desire in its flame and enliven the Light that shines in your Beings. In union with the Goddess of Opportunity, I manifest the desire that each one pour his Virtues over Africa, pulsating in a constant rhythm, sending the Light over your brothers so that in the darkness of their bodies they feel the Flame of Love pulsing. They are asking for forgiveness for their debts and call to be Liberated from all the darkness that covers them. Let us accept this Unifying Impulse of the all Life, of the all Being, and in compliance with the Father–Mother, Giver of Life, let us help these brothers trapped there.

The opportunity that Portia offers is marvellous, because the establishment of the base of action over Lake Victoria means having a point of reference to which you can pour

your forces. the Violet flame pulsates in Its Transmuting Action, amplifying and projecting itself over Africa. Accept this impulse and pour yourselves consciously so that in each act of Unity, the Life that pulsates in the Father is Glorified in each Creation. Allow Freedom to reach each imprisoned atom, each part covered in disorder, and in a gesture of Love toward Life, pour yourselves with your gifts over Lake Victoria where Portia will purify your outpouring and will redistribute them as fresh water over Africa.

Take this opportunity and give full reign to your Beings so that they may manifest the Presence of the Father–Mother in each action. With Purity of heart, of action, of motive, be the Torch of Freedom and together with Portia, pour yourselves in the Glorious Manifestation to Life.

For the Glorious hour that gets closer, be the bearers of the keys that open the doors of the prison in which the African brothers are held. I Am willing to Serve you with My effort, sustaining the activity that you are now realizing. In the opportunity to Serve you, I leave the Violet Flame of Liberating Love pulsating over your Beings in its cleansing action.

Allow Me to be the Guardian that opens the doors to the Kingdom of Light awaiting to manifest on the Star of Liberation. I cover you with My Liberating Action, towards the conquest of Africa. I Am in you for the action to Liberate each Life imprisoned in darkness.

*I COVER YOU IN AN EMBRACE OF BROTHERHOOD  
SAINT GERMAIN*

Like the flame of a candle that softly scatters its light and projects your Beings until your Light becomes brilliant and as glorious suns cannot be contained any longer over the Earth. In a softly balanced and harmoniously sustained rhythm, pour yourselves to Life. Let yourselves be commanded by your Beings and in a marvellous expression of Love, Liberate yourselves.

This glorious opportunity that has always pulsed over you has been sustained with a soft and quiet rhythm, as the palpitation of your Hearts and that in each pulsation expands Its Light. I have sustained it over you and I have poured strongly always, with an accelerating rhythm in the measure that your hearts have accepted it, and as you have given way to the Being in your Impersonal Service. Feel It in you constantly pulsating from your hearts, announcing the Glorious time that is getting closer.

Brothers, sustain yourselves under the umbrella of Love that pulsates over you in a softly balanced rhythm, in a musical and beautiful rhythm.

It flows without obstacles. It pulsates and reaches where it is commanded without any blemish or colour.

Accept Me, and in My Rhythm, I will pour over you each palpitation that comes out of the heart of the Father–Mother charged with Love. I have always been at your Service. I have always waited for this moment in which consciously you would accept Me in the world of form and you would see Me as one with you in your own rhythm of Life.

Oh, Brothers! It is a Glorious opportunity. Feel the joy of My Being, charged with love towards each one. Feel Me. the moment of being able to reach you is Glorious. I sustain you in My Rhythm to Liberate the Light over each part of Life. Accept It and accept Me. Allow Me to Liberate Myself in each of your Acts projecting Love. Oh, brothers, thank you! Thank you for giving Me this opportunity. My Being is glorious, joyful, and I want to cover you in It, softly, calmly, gloriously.

Oh, Life! How radiant you look, so beautiful, so pure. Oh, Life! Thank you for giving Me the opportunity to reach the Being in each brother on Earth. Thank you for being able to reach Gran Sabana and pulsate from the Being of those working there, Liberating them in each expression of the Father–Mother. Oh, Glorious Beings of Light, feel My joy; feel my Act of Love covering you, enfolding you with Unity towards each Life.

Gran Sabana is the Nucleus of Light, the Body of Love. what a beautiful Being is being gestated there. Beautiful! Oh, Love, fill yourself there. Give them the needed force! Gran Sabana! such a small corner on Earth. How gloriously you raise your head and in your heart, receive the Light of the Father–Mother pouring it over the earth. Oh, communion of forces! Oh, Unifying Being!

Feel the Presence of Lady Diana pulsating over you. Feel it in a unifying embrace. Feel it! Accept it and together we will be able, little by little, to join forces and put them at the Service of Love and at the Service of Life. Oh, Micah, Glorious Being! sustain them in an Embrace of Unity. Let us pour Our forces and sustain their Liberating action. Let us fill the Torch of Freedom with the Light that flourishes there. Oh, Life, you will pour much Light! Oh, Earth, the Dawn announces your Liberation! the Pristine Substance is being gestated. Love is gestated. the submission will be in Africa. Let us get ready for that great and beautiful explosion of Light. Let us prepare the path for Africa and pour there all the torrent of Light that is being gestated at Gran Sabana.

Oh, Life! Oh, Light! Oh, Glorious Presence Father–Mother! Finally! the Trumpet sounded announcing the Arrival of the Lord. His Hosts are ready to fight the battle, to crown the conqueror.

Oh, Glorious dawn! Fill yourself with the living Essence of Love and mould it where it is required, where it is called for. Leave it there pulsating! pulsating the Glorious Presence of the Father–Mother in each action.

Oh, Conjunction of the Spheres! Oh, Glorious Light! Oh, Saint Germain! the wait is over. In Glorious Procession of the “Light Children” can come to Earth, your Children of Love. The time is now, and everything can be moulded because in Gran Sabana the Liberation of the Earth is being gestated. Feel it come, and in each dawn, mould it in your hearts. Sow it and water it with Love. Let us mould it in Africa, in a marvellous submission to the Life imprisoned there.

I, Lady Diana, Am at your Service. Feel Me in the palpitation of your hearts, softly, rhythmically. Feel Me in the breathing, in the flowing of the blood. I Am in you, pulsating Life towards the Liberation. I remain in you pulsating the Love to all Life.

In love and for Love to Life I Am yours, Lady Diana, Goddess of Rhythm.

Feel and live the Momentum established by Lord Lin in each cell of your Beings and of your bodies. It is a Glorious Momentum because each act of Impersonal Service must be done with joy in the heart, with joy in the Service rendered.

To live Life in joy is to accept each expression of it as a kind and pleasant expression of the Father–Mother. Feel that joyful Presence and grasp that Momentum in your Beings. Accept the Light which is poured with Love to each part of Life, pulsating the Liberating joy for the opportunity given to Serve, to Liberate itself through others. the joy of the Being is towards Impersonal Service and is poured to others by radiating the Light according to the Internal Plan of each one.

There is a momentum that sustains each activity towards Unconditional Service to Life; that Momentum is Joy because in it you can “revive” and regain force for Service. To fill yourselves with joy is to fill yourselves with Love and makes possible the submission in each act. the opportunity that Portia offers is joyful and happy. The clock that controls time on Earth had stopped and its mechanical parts are a jumble. But now, with the Conscious Surrender of your Beings and with each conscious act of your personalities, this clock will start again.

Brothers, understand that each one is part of that clock and if the light poured over each one is not used correctly, the clock had to stop so the time of your existence not be wasted without having achieved something. Now that you make conscious movements, it starts again to indicate the time. Use the time that your Being is expressing the Light. It depends on each of you that the clock remains activated over the Earth and indicates its Light Hour. This is necessary, and this is only achieved with your conscious work.

Brothers, you must take into consideration that “your clocks” had been stopped for a long time and that now it will begin with a new Rhythm. When the Great clock of the Earth is activated, then everything mechanical will stop being on Earth. Your internal clocks are already functioning and want to pour the Light outwards. the movement has commenced. You cannot stop it.

Keep it going with your Light. Each second that passes that your Beings are not expressed is charged to your accounts. Take into consideration that each one has taken gigantic steps for this moment and now you must wake up completely from the lethargy that has enfolded you.

Brothers, each one of you is the living Presence of the Father for the Earth and therefore the mechanism of your clock will be activated with each of your manifestations. There will be many changes because the New Era cannot be manifested in structures consumed by the mechanical action of the personality. It will only be manifested through conscious action; therefore, any structure needed for its manifestation must be accomplished based on conscious efforts and work.

You must realize that when the clock is activated, it will indicate the New Era along with all the evolutionary processes that it brings with it together with all the accompanying new structures. Everything will be structured and re-structured under new concepts, new laws, new actions. So, it pertains to you, by Divine Law, to ensure that the One Presence is Manifested with all Its Glorious Light under a different pattern, under a new form of thought and actions.

The New Era pulsates in each one as the Era of Love, the Beautiful Expression of the Being. For that Beautiful Light, I call on you to Consciously prepare yourselves, because you are the initiators of the New Movement who will restructure the basis for the establishment of the New Era on Earth. You are the bearers of the Power necessary to make each thing be in its correct centre, to be expressed at its correct moment.

The Sceptre of Power is in your Beings. It remains placed on your altars so when you decide to express the Presence and Manifest Its Action, it will be given to each one for you to

Manifest the Light. Only Conscious Acts will put it in your hands. Only the Conscious Acts will make it happen.

Brothers, you cannot sleep anymore because the Call of the Father is very strong. You must comply with His Will for the Light to Be. The New Era will initiate the path of your Presence. Your internal clocks have been activated, it captivates your movements. Become aware of it. the Earth Being awaits its activation, which depends on you.

In accordance with the Cosmic Plan decreed for Gran Sabana, every constructive effort in benefit of Peace, of Love, and of Freedom is to be bathed in Light. Be then an embrace of Love to all the brothers that have committed themselves to this Action. Activate each of the Divine Principles that remain trapped in your memories and undo the record of past errors that are recorded in your genes. So be it in virtue of the Impersonal Service that you sustain.

In benefit of the One Light, sustain yourselves in an umbrella of Light over the Gran Sabana and pour the Liberating Love over each one of your brothers. We see that each day you advance more with respect to being able to work in favour of the One Cause. May each effort be multiplied in an act of Light over each of your vehicles.

The Brotherhood Principle that covers you must be activated daily. You must polarize your vehicles with the Cohesive Force of Love and dedicate yourselves in each opportunity as individuals fitted to carry on with this beautiful Plan. Each one has been able to sustain himself within the established precepts for the task required, in reference to efforts and physical works, but you must not forget that by the Law of Unity you are a body that needs food at all levels. Consider this as a remark to be taken into consideration about your internal parts. They have been forgotten in this process.

Brothers, each level of action has a parallel level of Light Activity, dedicated to the reactivation of your bodies. Each activity must have a complement, either physically or internally, of the other. None must be executed to the detriment of its opposite. Now, all mistakes must be corrected regularly, and each body must be put into activity so that the Divine energies recycle those which remain trapped in your different bodies.

The Great White Brotherhood manifest their desire of Serving you with Internal Guidance in your future action. Open yourselves to Our action so your vehicles can receive the Blessing of the Light so necessary in the recycling of the energies contained in each one. Be then in the measure of your external effort, energized with the corresponding internal work. Take the time necessary to bathe in Light of each of your bodies. Remember yourselves to be the active Male–Female Principle and repolarize the Divine Duality in that Action. Project yourselves in conscious Unity over the area that sustains you and allow Us to multiply your efforts with a pulse of Light to each desire for Liberation.

Brothers, you need to outpour from your Internal vehicles the beautiful torrent of Light that remains imprisoned within you. Energize the Central Nucleus that contains the information of your past lives and prepare yourselves to Serve as channels of the One Source in Benefit of the Light. Unity, as an Active Principle, needs you to be indifferent to the big or small entities that remain in each one. So, may the desire of Liberation be energized more and more each day, so the egocentric individuality become your “Impersonal Unity”.

You must activate the Divine Principle of Unity in which you were Created. Do it conscious of being a Divine Entity again, coming out from darkness, and dedicated to the benefit of Love, to the Conscious projection of the Active Force of Liberation.

Each one is a part, nothing else, and as such, integrate yourselves into the Unity of Impersonal Service with a desire to Manifest the Golden Era of the Triune and One Light over the Earth.

Saint Germain blesses each of your vehicles in the effort of Liberation. Receive this Liberating Action as a vote of confidence in the effort that you take in benefit of the Earth.

Feel in your bodies the divine Sage of Love, energizing your desires for Liberation. For the divine Grace of the Liberating Love and in conjunction with the Activation of the Triune and One Light, may your Light Bodies be activated in benefit of Impersonal Service.

Brothers, dedicate and prepare yourselves in benefit of all sleeping brothers. Be the outpost of the Light for the cleaning of darkness on the Planet.

*So Be It!*

SAINT GERMAIN

Greeting, brothers. May the light of Love be translated in each one, feeding the desire of Liberation, and vivifying the Divine Light in the Central Nucleus. the Triune and One Light pulsates over the Earth the Liberating Force of Love in the desire that man may reach the Light Goal.

The internal condition of the planet is grave because the Laws that rule the Principles of Brotherhood, freedom and Love and of its Plan for Life, have been violated. the need to be able to restore the Divine Harmony on Earth is great because this Beautiful Being is being suffocated in a dark mass called the garbage of human ignorance. This Beautiful Planetary School truly needs a great dosage of Love, and only the men who live on It can consciously energize the One and Triune Light, allowing the return to its Divine Plan.

This opportunity is being offered in the dawn that is now rising over the Earth, and for said goal, the internal clocks of everyone who have committed to the Liberating effort of the planet are being activated. It is a joint action that requires an Impersonal Action of everyone who has felt the call for help by the Earth. There are still many strong dark nucleuses that persist; but to be conscious that you are a channel of the Light is a great help to you because it opens the door for this action so the divine Presence can be anchored on the planet. the main purpose of each one must be this one. This is why we insist and insist that you open your hearts to the influx of Love, because this Force allows much more to be accomplished than what one hundred men could do

physically. the Divine Light is able to confront everything, and an individual surrendering to it can be used as a channel to Liberate the Blessings of Light over the Planet.

The menace of destruction that weighs over the Earth is very real because in the outrageous arms race, man has continued to build more destructive than constructive elements, and for that reason, the Presence of Peace requires Beings willing to be channels for its expression. All who fill their vehicles with this Beautiful quality will be Greatly Blessed.

The Presence of Unity, emanating from Unixi, covers all of the planet, but it is necessary for the ones committed to this plan to open themselves up and permit this force to be seated in their Light Nucleus and from there, be radiated to the whole Earth. Remember that the clock has been activated in each of you and will not stop until the Octave of Light given for the realization of this Plan is achieved.

The Central Galaxy emits Waves of Light very strongly, that in their passage through Earth activate the clock in each one and put them in Harmony with the One of the planet. Each one marks time with the planet and each one must, at the same time, indicate the exact time in accordance with the Plan. the activation of this mechanism causes a very large vibrational movement in each one, making your body fluids lighter. You are being helped to achieve a connection with the Great Cosmic Wheel so that you can synchronize with the passage of the Sphere of Light over the Earth.

It is necessary that each one feels the Liberation of the etheric memories because this will make your outer personality indifferent to each of the elements that load your physical bodies. It is necessary to let go all the weight that you carry, to lighten the load and be able to increase your vibration with time, and to be able to reach the rotational speed needed to counterbalance the force of gravity caused by the dark mass of the planet. Each one is a gravitational centre that must unite himself to the brother next to you, and so on, building the Vortex of Light that will make possible, with the Force of attraction, the anchorage of the Presence of the One and Triune Light.

Brothers, it will be effort after effort, because in this manner your internal bodies are energized and vibrate in unison with the Light of the Trinity. Understand that you have slept for a long time and that much dense matter has been created in your bodies, and only with the friction caused by a conscious passage can they be separated. Activate your fluids to be in synchronous with the Eternal Vibration of Love. Those are very fast waves and to achieve synchronization with them, it is necessary to have each of your bodies very clean.

With the completion of each step more Light will appear in your Internal Bodies. That is why you are asked to become conscious of each action to be performed. This is also why you are called on to let go of your attachments and to lighten your load, so that you may reach the frequency of vibration needed to tune yourselves with the Great Cosmic Wheel, participating in Divine Harmony without internal obstacles.

May the activation of your vehicles BE, as well as the repolarization of the Light. May each step be Conscious, and may you break the barriers imposed by egocentric separatism. Be the Light of Love; Be the Liberating Force, expanding through you and bathing each part of Life with its action.

In the Active Principle of Love is Freedom for each one. Repolarize yourselves in It and permit the Earth to reach the Goal on its Path of Liberation and to Crown Itself with It as the Holy Star of Liberation.

From Unixi, with Love to each one. Be the Light in Your vehicles.

*I COVER YOU IN AN EMBRACE OF LOVE  
SAINT GERMAIN*

The Divine I Am Presence presents man with the opportunity to be able to cancel his karma with the elements to which he is constantly tied, the results of mistaken past actions that have disturbed the Light and created the wrong conditions between mankind. the opportunity is constantly given, and it is offered in your daily actioning, to polish your roughness that damages your relations of Love which must be established in each Current of Life.

The Karmic Tribunal summons individuals to tests again and again so that in conscious acts, they may clean their wounds and cancel their debts. Much garbage has been stored over your Currents of Life with the passage of time. the opportunity given to each of you is for this goal, to cancel Karma among your family members, among your friends, and among your neighbours.

You are not placed where you now are by some random act. You are put where your violations have been repeated Life after Life and have caused a short circuit in your energies. Become aware of this process. You will see that it is not rare to return to repetitive interactions with others.

If you have understood that your debts are from past eternities more than from the present, gather your force and clean your network of those dark moments. Gather your force and pour Love over the brothers who have followed your steps. Give opportunity to your I Am Presence to

Command these actions and clean each negative and separatist element from your Currents of Life.

In past times your networks have been impacted and damaged. They persist still, recorded deep in your memories. the majority are not conscious of this process yet, but the ones that have understood that no encounter is a casual one, can gather their force and clean their network. Love other Beings as yourselves. Liberate them of the load that has been accumulating in their lives.

Every process of cleansing begins from inside towards the outside because you will become conscious that everything you see is a reflection of the internal process. It is a process of acceptance, of recognition, of not blaming anyone for the reflection, because it was created at some point in time in the past. Each brother is a mirror of the other. Each one has a part in that Current of Life; each one is bearer of that element that needs to be liberated, and by its reflection it is to be accepted and Liberated.

Take into consideration that you have not been isolated, that you are born of the same nucleus and, therefore, your networks are interconnected. In this process you have created problems that caused short circuits more or less grave in your Currents of Life. You are taken daily to situations where you are offered the opportunity to cancel them with the help of others, to Liberate another problem, to establish a new relation, and to cancel karma.

Brothers, each step has its purpose, a specific and clear goal. You must become conscious that if you have been

placed in repetitive situations, it is to cancel your pending debts, to establish correct relationships, to clean up your network.

Take into consideration that you must Pour much Love over those parts of Life, and above all, to recognize in the other person that which pulsates to be liberated. Love it and let it go, covered with the Light in the I Am Presence, awakening in the other the Immaculate Concept of His Creation. It is to establish in the other the Magic I Am Presence, *Loving in the other the Light That Emanates from their Higher Bodies*, and Loving yourself in the other as you are: *Sons of the same Father–Mother. You are Pure Light, just Pure Light.*

Brothers, when an individual has decided to surrender to the Will of the One, he is taken, step by step to cancel the debts created in past incarnations. It is a process of cleansing, of Love. It is a process that implies the conjunction with his purest elements and the Marriage in Unity. It is to establish the Balance with each Brother so that no single point of the network remains unconnected, so that no single point of the network remains dark.

This process will take you to a total internal cleansing so the Magic I Am Presence is expressed without obstacles, with Love to each Current of Life. Therefore, the Karmic Tribunal reunites time and time again those persons that must clean their networks, that must balance their lives, so that in a process of Harmony there is established the Real Union, the true Union among men.

Do not skip this effort because the process might be single or bilateral; but in one way or another it is valid so that the network is illuminated, and the balance Re-Established. The Principle of Unity that Unites you takes you to marry the elements that request more redemption, with the parts that Life after Life have committed the same error. Do not allow that to happen again. End your disagreements and cancel your pending debts. Do it for Love to the Principle of Unity, for the Love to Life, for Love of the Liberation of the planet.
