Full-Time Custodial Care At Home

Dementia? Stroke? Parkinsons? Fall risk? Imagine having a "best of the best" premium caregiver move into the guest room at your loved ones home and helping them as needed during the day, then sleeping over each night "just in case". Imagine the peace of mind!

Half the cost of 24 hr home-care by an agency.

According to Genworth 2017, "Cost of Care" survey the national average for a home-care agency's 24 hr. rate at \$516 per day. Our model averages \$236.

Premium 1 on 1 attention, not 1 on 15 like a care facility

Waiting, waiting and more waiting for someone to help in care facility. Never make them wait with a one on one live-in aide all to themselves.

24/7 peace of mind : day or night, they are not alone.

In most states, lives-ins work 16 hours a day assisting your loved one as needed, then sleep over unpaid overnight "just in case" help is needed.

Ideal for Stroke, Dementia, or Parkinson's care at home.

Most live-ins are experienced nurse's aides. They can assist with transfers, ambulation, toileting, bathing, grooming, dressing and feeding.

Live-ins do almost anything that a family member would do to help out by moving in with the care recipient. That includes keeping the house maintained, cooking, cleaning, and assisting mom or dad with anything that they need physical help with, including hands-on personal care (ADLs).

They will feed the cat , walk the dog, water the garden, and bring in the mail. They will assist with food-shopping, drive mom to see some of her friends, or dad to the VFW fund-raiser dinner. A live-in will help your parents stay living safe at their own home much longer than would otherwise be possible. They do not need to move to receive care. We move the care to them!

Rated in the Top 1% in Home-Care

Grandma Joan's Live-in Care was ranked in the top 1% of SeniorAdvisors 45,000 screened and rated senior care partners in the US and Canada. The ranking is based on reviews from clients that they referred to the 45,000 senior care companies in 2014 and again in 2017.

Only one out of ten caregivers passes our vigorous screening.

We have the toughest screening and vetting process in the industry. It includes a 10 panel drug test, a social security trace, county, federal and nationwide criminal checks. We require reference checks from previous families and agencies/ care facilities of employ and require a minimum of 3 interviews. Fewer than 10% of the caregivers will actually pass our vetting process. **We only work with the best of the best private live-ins.**

Each of our candidates come with recommendations from previous families that have already used them.

One of the requirements to pass our screening is that we need to speak to families, like your own, who have already hired and tried the candidate in their own homes, caring for and living with a loved one. Even if a candidate passes all of the background checks, they will not pass the screening without 2 recommendations from past clients.

Honor your parent's wishes AND have peace of mind.

We send you vetted candidates that meet your search criteria, and YOU CHOOSE your favorite. This greatly increases the care recipients "buy in" to having a caregiver. They can meet and choose who moves in with them.

No long term contracts to sign.

We know that some care situations can be fluid. Families can be put in a tight space and have to decide what is best for their loved ones upon discharge from the hospital or rehab. The decision process can be daunting. What is best for them? What if their needs or wishes change? We understand. There are no minimum time requirements for our service. Use your chosen live-in for one month or 10 years.

If you are not 100% satisfied with your chosen live-in, we will replace them at no additional charge anytime within one year of your contract with us.

We want to make sure that you are happy with both our service and that of the live-in caregiver that you have chosen to hire.

Put The Spare Bedroom To Work

Why pay for expensive hourly care overnight when they only need help with a bathroom visit or in cases of an emergency. If your loved one has a spare bedroom, they can use it to drastically lower their custodial care costs.

Sleep soundly knowing that someone is there overnight "Just in Case".

Frequently Asked Questions

How long does the process usually take?

In most cases you will be able to meet screened candidates to choose from within 1-2 weeks of sending us back the referral agreement.

How do we pay the premium live-in?

Grandma Joan is national partners with HomePay, the largest domestic payroll service in the US. You pay HomePay and they will handle all of your payroll obligations / taxes. They are a turnkey solution. Their services and all of your payroll taxes are included in our quoted rates.

How much does a premium live-in cost through your model?

In 2017, the average cost was \$6,338 per month, while the national average for a nursing home was \$8,100 month. To get a rate for your specific situation and location go to: <http://grandmajoans.net/rate-quote>

How do you make money if we pay them directly?

We charge a onetime placement fee of 5% for finding and screening the best of the best private live-ins for you. Its just 1/3 of what an employment agency charges. Annually our model is 100k less per year then 24 hr home care, and thousands less than custodial care provided by an understaffed care facility.

Can we hire someone to monitor and oversee them?

Absolutely. Many families partner with a Care Manager to assess, advise monitor and oversee the entire process. The cost is minimal compared to using an agency. We can refer you to a care manager that services your area.

What is the process to begin services?

1. Fill out a Rate Quote form : <http://grandmajoans.net/rate-quote>
2. Speak to us and send back the Referral Agreement
3. Meet and choose your favorite live-in

Grandma Joan acts solely as a recruiting, screening and referral source and does not employ or co-employ any live-in. CA has laws that limit services. Services void where prohibited. Rates and fees quoted subject to change. Visit our website for current rates.

Help at Home Whenever Needed

Grandma Joan has been recruiting and screening premium level live-in caregivers on the private-hire market since 2010. We do nothing else. Our job is to find and screen live-ins who meet your family's needs. We set you up with an FLSA compliant domestic payroll service to pay them following all state and federal laws. You can even get workers comp insurance for 100% liability protection. True 24/7 peace of mind.

Rating

Your Own Private Caregiver

The wonderful thing about live-in care is that you can get a premium level caregiver for about 1/2 of the rate that an agency will charge for 24hr service. Not only that, but they will sleep over unpaid each night and be on-call just in case they are needed (except in CA). The added bonus with live-in care is that you get one person instead of an agency sending multiple caregivers to cover the same amount of time. This allows for the care recipient and the care provider to bond like family.
