

California Seniors STAY HOME

Memory or ADL Care At Home

Dementia? Stroke? Parkinsons? Fall risk? Imagine having a "best of the best" premium caregiver move into the guest room at your loved ones home and helping them as needed during the day, then sleeping over each night "just in case". Imagine the peace of mind!

Premium 1-on-1 attention, not 1 on 15 like a care facility
Waiting, waiting and more waiting for someone to help in care facility.
Never make them wait with a one on one live-in aide all to themselves.

24 hr peace of mind : day or night, they are not alone.

There is nothing like the peace of mind , knowing that someone is there with your loved one, both day and night. They can assist them with their needs, at 2pm or 2am, as needed.

Ideal for Stroke, Dementia, or Parkinson's care at home.

Most live-ins are experienced nurse's aides. They can assist with transfers, ambulation, toileting, bathing, grooming, dressing and feeding.

How long does the process usually take?

In most cases 1-2 weeks of sending us back the placement agreement.

Live-ins can do almost anything that a family member would do to help out by moving in with the care recipient. That includes keeping the house maintained, cooking, cleaning and assisting mom or dad with anything that they need physical help with, including hands-on personal care (ADLs).

They will feed the cat , walk the dog, water the garden, bring in the mail and assist with food-shopping. They can drive mom to see some of her friends, or dad to the VFW fundraiser dinner. A live-in will help your parents stay living safe at their own home much longer than would otherwise be possible. They do not need to move to receive care. We move the care to them!

Rated in the Top 1% in Home-Care
Grandma Joan's Live-in Care was ranked in the *top 1% of 18,000 senior care companies* in the US and Canada for Customer Satisfaction. The ranking is based on reviews from clients that were referred to the 18,000 senior care companies. They have won this annual award 3 times. (2014, 2017 and 2018)

Only one out of ten caregivers passes our vigorous screening.

We have one of the toughest screening process in the industry. It includes a 10 panel drug test, a social security trace, county, federal and nationwide criminal checks. We require reference checks from previous families and agencies of employ and require a minimum of 3 interviews. **We only work with the best of the best private live-ins.**

Each of our candidates come with recommendations from previous families that have already used them.

One of the requirements to pass our screening is that we need to speak to families who have already hired and tried the candidate in their own homes, caring for and living with a loved one. Even if a candidate passes all of the background checks, they will not pass the screening without 2 recommendations from past clients.

Honor your parent's wishes AND have peace of mind.

We send you vetted candidates that meet your search criteria, and YOU CHOOSE your favorite. This greatly increases the care recipients "buy in" to having a caregiver. They can meet and choose who moves in with them.

No long term contracts to sign.

We know that some care situations can be fluid. Families can be put in a tight space and have to decide what is best for their loved ones upon discharge from the hospital or rehab. The decision process can be daunting. What is best for them? What if their needs or wishes change? We understand. There are no minimum time requirements for our service. Use your chosen live-in for one month or 10 years.

If you are not 100% satisfied with your chosen live-in, we will replace them at no additional charge anytime within the contract term chosen.

We want to make sure that you are happy with both our service and that of the live-in caregiver that you have chosen to hire.

Put The Spare Bedroom To Work

Why pay for expensive hourly care overnight when they only need help with a bathroom visit or in cases of an emergency. If your loved one has a spare bedroom, they can use it to drastically lower their custodial care costs.

Sleep soundly knowing that someone is there overnight "Just in Case".

Frequently Asked Questions

How do we pay the premium live-in?

Grandma Joan refers clients to HomePay, the largest household payroll service in the US. You pay HomePay and they can handle all of your payroll obligations / taxes / HR. They are a turnkey solution. Their fees are included in the payroll estimates that we give clients.

How much does a premium live-in cost through your model?

The average cost in most areas of CA is \$11,050 per month while a home-care agency averages \$18,720 for the same coverage. Annualized, that's \$92,000 LESS PER YEAR than an agency.

How do you make money if we pay them directly?

We charge a onetime placement fee for finding and screening the best of the best private live-ins for you. Our fee is less than half of what an employment agency charges for the same service.

What is the process to begin services?

1. Fill out a short form on our website : <https://grandmajoans.net/payroll-estimator>
2. Speak to us and send back the Placement Agreement.
3. Meet and choose your favorite live-in.
4. Enjoy 24/7 peace of mind.

Legal: Grandma Joan acts solely as a recruiting, screening and staffing service for families seeking a non-medical live-in caregiver and does not employ or co-employ any live-in. Family is the employer. Workers comp insurance is mandatory in CA and costs approx \$500 per year. Quoted rates are based on 24/6 coverage and include the employer's payroll taxes and a payroll service to handle all of the family's payroll obligations. Live-in needs one day off a week for respite. A local agency can staff the day off in most situations. Speak to us for a referral to a Care Manager that can help assess the feasibility of our option and / or other options. Services and offers subject to change. See our website for updates.

Help at Home Whenever Needed

Grandma Joan has been recruiting and screening premium level live-in caregivers on the private-hire market since 2010. We do nothing else. Our job is to find and screen live-ins who meet your family's needs. We can refer you to an FLSA compliant household payroll service to pay them following all state and federal laws. You can even get workers comp insurance for 100% liability protection. True 24/7 peace of mind.

Your Own Private Caregiver

The wonderful thing about live-in care is that you can get a premium level caregiver for about 60% of the rate that an agency will charge for 24 hr service. Not only that, but they will sleep over each night and be on-call just in case they are needed. The added bonus with live-in care is that you get one person instead of an agency sending multiple caregivers to cover the same amount of time. This allows for the care recipient and the care provider to bond like family.
