

# Instructions For Tying Your Belt

HINT: Put a piece of masking tape on each end of the belt and label one side A and the other side B.

A side will be in your right hand and B side will be in your left hand (to start).

Follow instructions carefully while looking at diagram.

1.

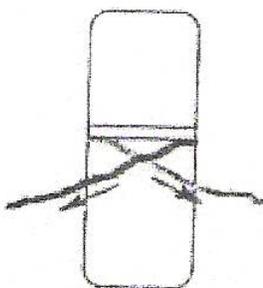

Starting in the front. Place the middle of the belt on your waist and begin folding it around your waist.

2.

Crisscross the A&B in the back with the right hand side (A) going under the left side (B) to give the appearance of one belt in the back.

3.

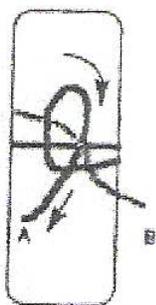

Continue tucking the (A) side under the (B) side until the belt ends pass each other in the front.

4.

Bring the new right side (A) up and pass behind all sections of the belt.  
(see diagram)

5.

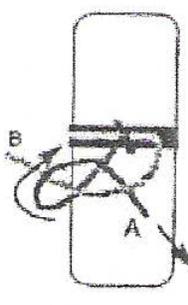

Pull (A) back over to the right side where it originated from.

6.

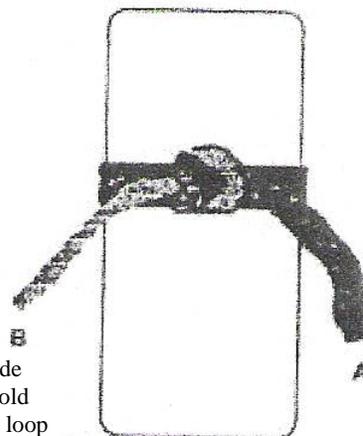

Pull ends of A&B tight to form 1/2 part of knot.

7.

Fold B back to the right side and cross over top of A. Fold A up and tuck through the loop to complete the knot.

8.

Finished Belt - Pull Tight.
