We believe in the power of visual communications.

The images that capture the moments of a larger story.

The MAC logo is displayed in a large, white, stylized font on a black background. The letters are bold and angular, with the 'A' and 'C' having unique, elongated shapes.

ABOUT US

We believe in the power of visual communications. The images that capture the moments of a larger story. A story that places products and services into the context of people's lives. And, brings into focus our needs and what motivates us to act.

Images and branding that ring true break through—with clarity—the visual noise of today's marketplace.

We invite you to break through with more clarity, color and texture in unexpected designs, structures and venues. We invite you to engage and excite your customers.

Under one roof in Beaverton, Oregon, we specialize in accessible, personalized service—along with large-format, dye-sublimation fabric printing. We also offer in-house design and display hardware fabrication.

We are North America Display Corporation.

10' Timberline Light Box Display

Modular display frame with center LED back-lit light box assembly, wave canopy, dye-sub fabric graphic, back-printed acrylic header, frosted acrylic reception desk, molded plastic wheeled case.

TOTAL IGNITION
Illumination on both sides.

- Freestanding back-lit LED lighting creates long-distance, high visibility with stunning visual impact
- Dye-sublimation graphics deliver deep density colors and blacks that brighten, but not wash-out with back lighting
- Soft fabric offers richness and intensity of both color and texture

FRAMES CAN BE MADE TO ANY SIZE
PLEASE CALL FOR PROMPT QUOTATION

Slim/Easy wall mount bracket

One or two sided graphics

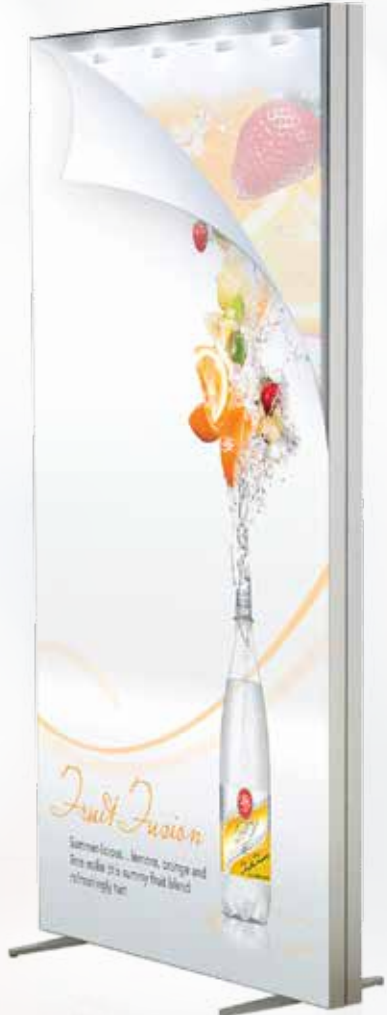

LED lights emit approx. 1,400 – 1,500 lms

Graphics slips easily into frame

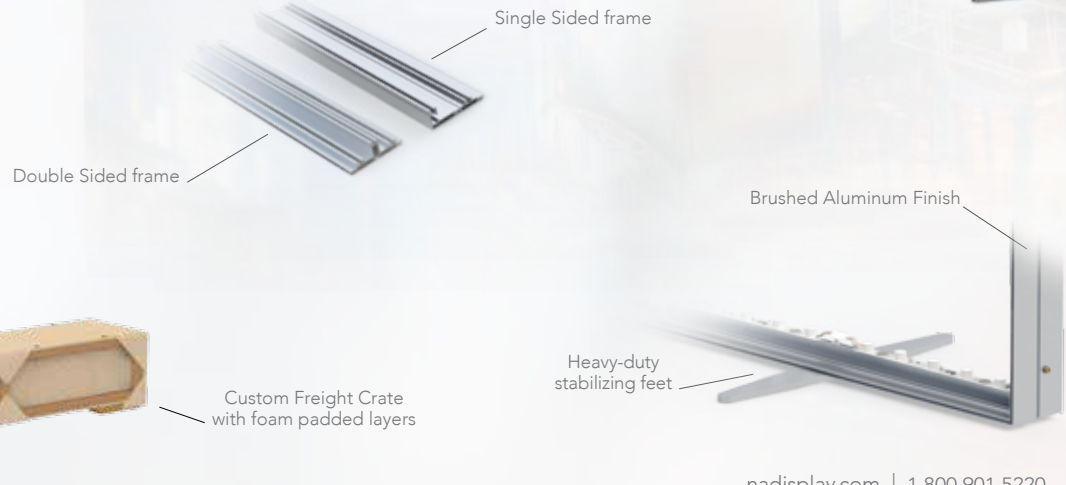

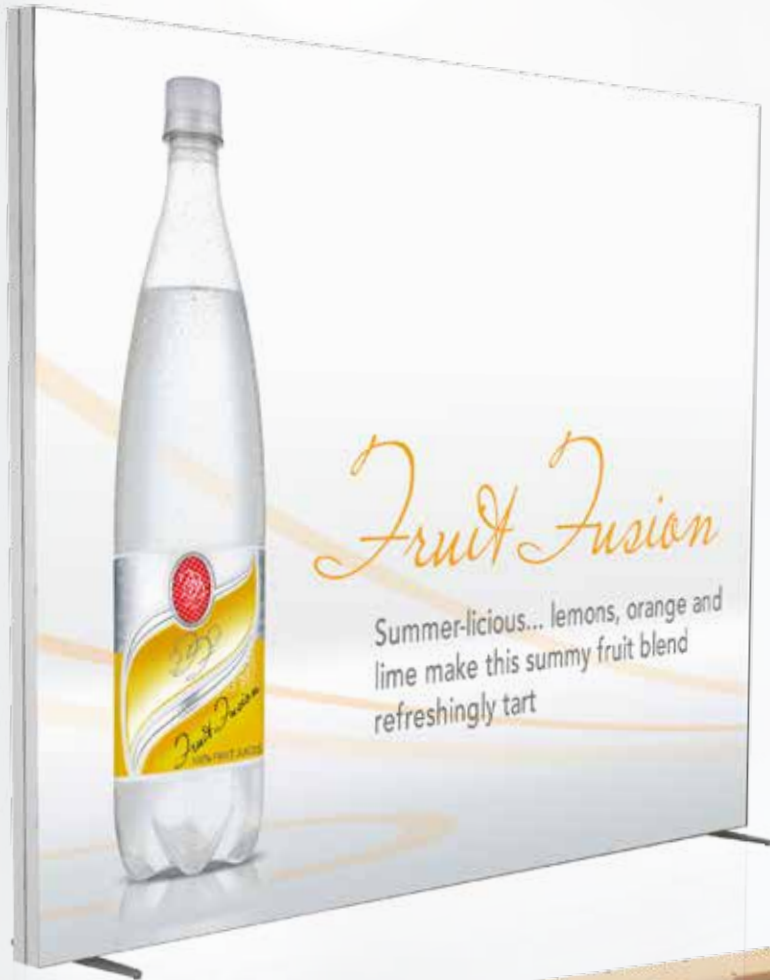

Thumb nut assembly

HARNESS THE POWER OF LIGHT

Display your graphics with new brilliance.

- Front and back panels are inter-changeable and slip into frame for easy set-up or change-out
- Ultra-bright LED lights emit an even glow on both sides
- Silicone strip stitched to the graphic's edge, and seated in the frame, makes for a drum-tight fit

TENSION FABRIC FRAMES

Turn up your visibility.

- Silicone-edged fabric graphics make changing images simple—just push the silicone edge into the groove on the frame and the new image is stretched securely into place
- Frames can be mounted to the wall, ceiling or used as a floor display
- Full-color seamless, dye-sublimation fabric
- Sleek, modern profile

Side-by-side, angles and other configurations are offered on a project basis

Please call for a prompt quotation

TENSION FABRIC FRAMES

More size, more color, more clarity.

- Single or double-sided
- Frames can be made to any size
- Full-color seamless, dye-sublimation fabric
- Edgeless frame leaves more surface for graphic

FRAMES CAN BE MADE TO ANY SIZE
FRAMELESS EDGE LEAVES MORE ROOM GRAPHIC

POP-UP AND INTRODUCE YOURSELF!
Expandable frame pops from travel case to fill your display space.

CAR FOOT FFCF1
Goes under the tire of your car

WATER BAG PVC FFWB
Fill up with water for extra weight

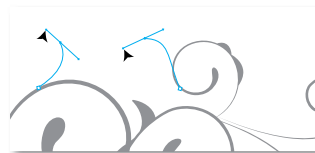

BITMAP VRS VECTOR

BITMAP/RASTER IMAGE

Bitmaps images made up entirely of pixels. When enlarging a bitmap image, additional pixels are added to create this new size.

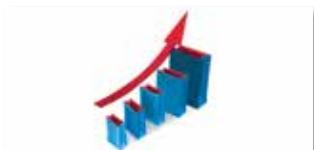

The "new" pixels pick up and average colors from neighboring pixels in an attempt to create a new color that will blend between areas. This is where the overall image suddenly becomes soft and blurry and sharp defined edges develop noticeable jagged pixelated edges.

VECTOR IMAGE

Vector graphics use points, lines and curves to create an image. It's based on mathematical formulas and unlike bitmaps can be enlarged to any size without losing detail.

HOW TO PREPARE GRAPHIC FILES

TEMPLATES - SIZE

Layout guidelines and templates can be downloaded from each of the product pages on our website.

Make your graphic dimensions match the product you are purchasing.

Your image should be to size of your product at 72-150 dpi.

Bleeds: Not all products require bleeds; check guidelines for specific product requirements.

RESOLUTION - FILE TYPES

Final size files are only required to be 72-150 dpi.

You can view your file in Photoshop at 100% to see how it will look when printed.

If designing to reduced scale, adjust dpi accordingly.

We accept files in the following formats: Adobe Photoshop and Adobe Illustrator: .ai, .psd, .tiff, .eps and high resolution jpg.

COLOR

Your print file must be in CMYK format.

Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files.

However, we can only guarantee color accuracy when a printed proof is ordered and approved.

PROOFS

We always e-mail a digital proof before production. It is your responsibility to proofread all your text. Please be aware that we will print your graphics exactly as you send them to us. Spelling or grammatical errors are your responsibility.

We rely solely on your approval of the proof as final verification and acceptance of the project. After your proof has been delivered, we will wait for your approval before printing your artwork.

Any adjustment to your graphic can take time and fees may apply if your modifications or adjustments take an hour or more.

HOW TO PLACE YOUR ORDER

PLACE ORDER

Go to www.nadisplay.com to find the products you need. Choose sizes, quantity, material type and additional options. Shop for more products and checkout.

Or simply call
1.800.901.5220
Live Chat also available

SUBMIT FILES

Once you have placed your order you can submit your print files on our website under the "Send Us Art" tab. Follow directions for uploading or e-mail art to:

graphics@nadisplay.com

Make sure to include your contact information so that we can match the art with the order.

APPROVE

Within one business day of uploading your print files, we will e-mail you a digital proof and an order confirmation. We will not print your files without your written approval. If you would like to order a printed hard proof to ensure color and resolution, please contact us.

PAYMENT AND SHIPPING INFORMATION

PAYMENT

We accept Visa, Master Card, Discover and American Express credit cards, PayPal, check or wire transfer.

Orders are not shipped or put into production until payment has been made.

SHIPPING

We ship via Fed Ex and UPS. Shipping costs are additional unless we ship on your account. Non-U.S. orders: all customs, duties, and taxes are additional and are the responsibility of the buyer.

NON-U.S. ORDERS

We require brokerage information or a credit card on file for future customs, duties, and taxes that we will bill you.

PRODUCTION

Orders with hardware only will usually ship within 24 hours. If printing is involved, production starts after proof approval. Normal turnaround is three to five business days unless requested otherwise.

RUSH ORDERS

Orders must ship via overnight service. Orders of this nature take a minimum of one day for vinyl banners and a minimum of two days for fabric. If you require a two-sided vinyl print, the minimum production time is five business days. Rush fees are non-refundable. Rush orders are subject to availability based on time, production schedule and size of order. Please contact us for more information.

TERMS AND RETURN INFORMATION

TERMS

All of our displays are covered under a warranty to be free from defects in hardware material and workmanship when properly used under normal conditions. We strongly suggest that you inspect your product within three days of receiving to ensure accuracy.

Please visit our website to read and download our terms & conditions, warranty and return policy. Prices are subject to change without notice. For current pricing go to:

www.nadisplay.com
