

Cost and System Requirements

The Administration of Justice and Forensic Science program is available for license on a yearly basis. The license agreement authorizes the licensee to use the curriculum for one instructor teaching one or more classes at the same school location. It includes the instructor DVD and a StudentWorks CD containing course curriculum, technical support, annual revisions to existing modules, and new curriculum modules as they are developed. The annual license agreement price is \$375.00 per instructor for one school. If you intend to use the curriculum in more than one school or second classroom (second instructor) a separate license agreement would be required for each instructor.

System Requirements

In order to use the curriculum materials included with this program you will need the following minimum computer hardware:

1. IBM compatible ([DOES NOT RUN ON MAC COMPUTERS](#))
