

WARRANTY INFORMATION

At UnslingIt Outdoors, we are proud of the workmanship and pride that goes into every UnslingIt Outdoors Paracord product. In fact, we are so darned sure of our products that our warranty can be summed up in 2 simple words:

FOR LIFE!

You read that right, my friends. If your UnslingIt Outdoors Paracord product ever fails due to a manufacturers defect (*a fancy way of saying that we screwed up when making it*), we will replace your UnslingIt Outdoors Paracord product with a brand new one.

HERE'S WHAT I WILL DO:

If your UnslingIt Outdoors Paracord product ever fails, send it back to us and we will inspect it. If it is a manufacturers defect (*those fancy words again!*), I will get a brand new one out to you right away at no cost to you. I'll even pay for the shipping back to you.

Now, if you're worried that we are going to "*inspect it*" and tell you that it wasn't our fault, then you have another surprise coming! I want you to be a customer for life. Heck, I even want you to tell all your friends that my UnslingIt products are the best thing since sliced bread! And I know you won't do that if I don't treat you right. So, it is in my best interests not to "screw you over".

HERE'S WHAT I NEED YOU TO DO:

I suppose I could require you to send in your receipt before I honor warranty work. Truthfully, I've always thought that was a cheesy way for companies to get out of honoring their warranty. Let's face it: who the heck can find a receipt 6 months later, not to mention 10 years down the road? As far as I am concerned, if the product is warranted for life, and you own the product, that should be enough. And it is for me.

So, all I need you to do is send me your defective product and tell me what happened and how the product failed. That's it! Wait. No, that's not it. After you get your new product back, you have to tell everyone what a fantastic company UnslingIt Outdoors is and that the owner is an awesome guy (*of course, I will have to trust you on that last part, but you're trusting me, so we should be good*).
