November has arrived and so has the cooler weather. Kind of a welcome change don't you think?

As it cools off we want to reiterate the value of a superior exterior door program that we offer. As you know a prehung exterior door unit is only as good as the materials used and the quality of millwork in machining and assembly. Of course this is all for naught if the door unit is not installed properly and/or the unit is not cared for periodically throughout its lifetime.

For years now ABP has embraced the Force 5 Guaranteed Performance system from Endura, the world's leader in exterior door component products including sills, weatherstrip, frames and door sweeps. All testing for our Force 5 system is done by an independent and certified third party. Endura inspects our millwork facility and our procedures once a quarter to be sure that we still meet the required specifications of the program and keep our certification of being a Force 5 producer.

The term Force 5 refers to these five major factors that make up the whole exterior system.

1. The high dam sill which can now be one of two different sills
2. The ultimate astragal that is used on double door units
3. The weatherseals on the frame which must be the QE650 and the new low wick corner pads
4. The bottom door sweep which has a dual bulb and fin construction
5. The continuous head and

sill components that make up the units with sidelites

The Force 5 Door System program is a combination of state of the art Force 5 products, certified testing and a performance warranty to create reliable and competitive door systems.

Endura developed the Force 5 Door System to produce the highest performing door systems available reducing the possibilities and causes of door unit failure. Utilizing the Force 5 Door System eliminates:

- Customer call backs
- Wasted time on repairs
- Lost productivity on repairs
- Lost revenue on repairs
- Expensive damage due to water leaks

Except for certain special orders and/or cut down units every ABP exterior prehung carries a lifetime warranty applicable to the original homeowner. Every unit has a Force 5 Door system certified tag proudly attached to the hinge jamb at eye level and should not be removed. In addition to the tag, every door also comes with a plastic bag containing 6 long screws, two corner pads, an installation guide for the builder and a homeowner's manual and warranty guide in the sealed bag.

Please call ABP for all your exterior door unit needs. You can be assured that you are backed with the best exterior unit available today with a lifetime warranty to match.

Have a great Thanksgiving and thank you for your continued support of ABP!

Endura Force 5 Features

Performance Standard 

Performance:

Why Do Force 5 Door Systems™ Perform?

The Force 5 Door System™ program is a combination of state-of-the-art Force 5 products, certified testing, and a performance warranty to create reliable and competitive door systems.

Endura developed the Force 5 Door System™ to produce the highest-performing door systems available which reduce the possibilities and causes of door unit failure. Utilizing the Force Five Door System™ eliminates:

- Customer Callbacks
- Wasted Time on Repairs
- Lost Productivity on Repairs
- Lost Revenue on Repairs
- Expensive Damage Due to Water Leaks

Force 5 Door Systems™ are superior because the parts are designed to work together. When these components are used in conjunction, the seal between the door and the opening is maximized, and air and water infiltration is minimized.

Force 5 Door Systems™ provide:

- **Superior Performance** - Force 5 provides you with a certified 3rd-party tested and field proven door system backed by a warranty you pass on to your customers.
- **Components That Work Together** - Force 5 is a complete system of components designed specifically for your door slabs. You benefit directly from our engineering and certified testing.
- **You Can Stand Behind Force 5 and Sell** - The Force 5 Door System™ is something you can sell with confidence. You get proven performance and a warranty your customer can transfer to the homeowner. This valuable feature builds your company's reputation and market share.
- **Force 5 Marketing Tools** - The program provides you with attractive and effective marketing materials to help you sell Force 5 Door Systems.™
