

# The ABP Update

## Great New Products!

### Joke of the Month

I went to the Psychiatrist today. She told me I had a split personality and charged me 160 dollars.

I gave her 80 Dollars and told her to get the rest from the other idiot!!

### ABP Birthdays

Michael Watson	8/10
Bobby Sladek	8/17
Matt Schulte	8/18
Charlie Fick	9/01

We made it to August and it is coming in with good weather. Any time it is green in August we are ahead of the game. Business continues to be steady with no end in sight at least through the end of the year. Unless something unforeseen happens we believe the growing economy will continue at this pace for a while. However in this day and age of world economy, "unforeseen" has become fairly common.

ABP has provided an offering of garage door frames for a long time. Frontline Building Products has been manufacturing a superb garage door frame for new construction for many years. They have had much success with it nationwide. We do not know why this aluminum-clad, easy to install, maintenance free, cost effective system has not prevailed in our market. However, we suspect it is due to lack of exposure. This frame takes no more than 45 minutes to set up and install. That's it! The frame is better-looking, stronger and wood-free unlike the typical wrapped frames. No chance of rotting! These frames are available in ten colors. It will match other cladding around the entry doors. THIS IS A BETTER MOUSETRAP PERIOD!! Please see your ABP rep for more details on the Frontline garage door clad system.

Some great news from ODL! Four new enclosed blind colors: sand, espresso, slate gray and silver

moon. With matching privacy channels and operators the colors of your entry door blinds will always coordinate with your décor. The collection is available in Evolve frames which provide superior rigidity and eliminates bothersome squeeze-out using a dry glaze seal. Check out the colors at [www.odl.com](http://www.odl.com).

Finally Jeld-wen is introducing an additional shaker style interior door with the upscale feel of a Craftsman-style wood door at a molded door price point. The new three equal flat panel design called Birkdale, meets the ever-increasing demand for a simple, modern wood door look at the affordable price point and low maintenance of a molded door. Jeld-wen offers the largest selection of Shaker-style molded interior door designs on the market today. Featuring recessed panels with non-profiled sticking, Birkdale joins Jeld-wen's impressive flat panel collection of molded interior doors including Conmore, Craftsman III, Madison and Monroe. In addition to the new design offering, we now can special order any of the flat panel doors prefinished in four colors from the Woodview Collection. ABP now stocks all of the Jeld-wen flat panel doors in primed molded hardboard. Please see the back of this newsletter to view the new Birkdale offering.

Try to stay cool this August and thank you for your past and future support!
