Get ready

Think about whether meals delivered to your door would make life easier. There may be other services we can provide such as assistance with shopping

What would you have to pay?

Your NDIS budget plan pays the provider to prepare and deliver the meal to you. Before NDIS, the provider was paid directly by the Government to prepare and deliver the meal to you. And now, just like before NDIS, you still only pay from your own money for the meal ingredients at the same cost that the service provider paid to buy them because NDIS will not pay for the food.

How NDIS works

You need support approval from NDIS in your plan so that we can deliver meals to you.

Yes, I need meals delivered

You will need Meal Delivery placed on to your plan. Inform your NDIS Planner 1800 800 110. If the NDIS Planner agrees that meals are reasonable and necessary, then you just need to contact your local Meals on Wheels Service.

Agreement

When NDIS has approved your meal support we will meet with you to complete a Service Agreement and a Service Booking. You can then discuss meal options with us and the meal delivery can then begin.
