

The Avantis FMT Security Window Lock

Floating mushroom, bi-directional locking system

The Avantis Floating Mushroom Technology security window locking system combines ease of manufacture and class leading tolerance levels, together with fully accredited security, weather proofing and life cycle performance.

Effortless operation and robust security is maintained, even in cases of window dropping, through the FMT's floating mushrooms being smoothly guided into their optimum position by the cleverly designed security keeps.

Features

- ✓ Strategically positioned Bi-directional locking cams
- ✓ Floating mushroom delivers superior tolerances
- ✓ Fully compression adjustable security cams
- ✓ Standard routing preparation
- ✓ Clever keep design guides floating mushroom cams into correct position
- ✓ Secured by Design accredited
- ✓ 10 year mechanical guarantee

Technical specifications

- ✓ 16mm plated mild steel faceplate
- ✓ 20mm and 22mm back sets
- ✓ 7.5mm and 9mm mushroom cams
- ✓ Compression adjustment ± 1 mm
- ✓ 280mm to 1350mm sash rebates covered
- ✓ Profile specific keeps with night vent position
- ✓ Tested to PAS24
- ✓ Corrosion resistance to EN1670:Grade 4 (240 hours NSS)
- ✓ Service life of over 30,000 cycles
