

# Post-Cleaning/Disinfection Verification Sampling & Analysis

Compliance Plus Services, Inc.

*Has Your Place of Business Been Impacted by Someone Confirmed  
(or Suspected) to be COVID-19 Positive?*

*Are You Conducting Precautionary Cleaning/Disinfection of Your  
Facility?*

*During these ever-changing times, Compliance Plus Services, Inc. (CPS) can provide you with support services to ensure that you, your employees, and your families are protected. Our services are conducted in accordance with the **most up-to-date guidance** issued by State regulatory agencies, United States Environmental Protection Agency (EPA), Occupational Safety and Health Administration (OSHA), Center for Disease Control (CDC), and the World Health Organization (WHO).*

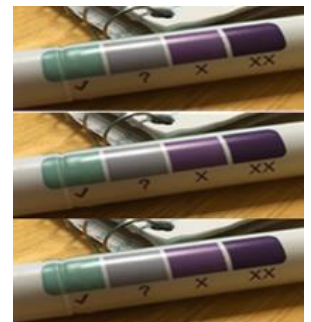

- **Sampling with REAL-TIME ANALYSIS & Evaluation of Surface Cleanliness:**

CPS can conduct surface sampling of a strategic number of high-touch surfaces immediately after your or your vendor's Cleaning/Disinfection Event. CPS will use **REAL-TIME analysis techniques before leaving the site** indicating the effectiveness of the cleaning in accordance with established industry standards for clean surfaces.

- **Supplemental Sampling and Laboratory Analysis in 48 hours:**

CPS can supplement the REAL-TIME analysis with additional **LABORATORY ANALYSIS within 48-72 hours** of sampling that will quantify the cleanliness of cleaned surfaces using microbial indicators.

Premier Industry Provider of Environmental  
and Safety Services
