

# CPS Essential Business Services

**“To Keep Your Business Running”**

## **Compliance Plus Services, Inc.**

Compliance Plus Services, Inc. (“CPS”) is Here for You. CPS is ready to support you with sustaining your current and ever-changing business operations while protecting the health and safety of your employees and their families during these unprecedented times.

CPS is on the for front of preparing procedures for planning, managing and cleaning/disinfecting your facilities during this COVID-19 pandemic. CPS has developed the procedures conforming with the latest research and guidance issued by the **Center of Disease Control (CDC)**, **Occupational Safety and Health Association (OSHA)** and **World Health Organization (WHO)**.

CPS has partnered with professional industrial cleaning companies that can provide high-quality cleaning/disinfecting services in accordance with the most up-to-date available guidance.

## **CPS Offers the Following Services:**

- **Preparation of Cleaning/Disinfection Procedures:** CPS can help you develop procedures for Cleaning/Disinfecting your facility utilizing the most up-to-date available guidance from State regulatory agencies, EPA, OSHA, CDC, and WHO.

- **PPE Reviews and Recommendations:** CPS can review and recommend Personal Protective Equipment (PPE) for self-cleaning/disinfection of your company facility and your employees' personal workspaces.
- **Cleaning/Disinfection Waste Handling:** CPS can assist you with understanding and complying with your State's Cleaning/Disinfection waste handling, transportation, and disposal requirements.
- **Independent Review of Cleaning/Disinfection Plans:** CPS can review your Cleaning/Disinfection vendor's procedures, verification testing, quality control plan and provide recommendations to ensure your staff's return to a safe healthy workspace.
- **Cleaning/Disinfection Verification and Sampling:** CPS can conduct post-Cleaning/Disinfection Verification Sampling & Analysis (with a quality-control report) indicating the cleanliness in accordance with established industry standards.
- **Cleaning/Disinfection Partners Referrals:** CPS can recommend one of our highly trained and reputable Cleaning/Disinfection partners to conduct Cleaning/Disinfection of your facility.
- **Cleaning/Disinfection Training:** CPS can develop and implement a customized Training Program for the Cleaning/Disinfection, PPE usage, and proper waste disposal.

## **Additional Regulatory Assistance and Support:**

CPS maintains close contact with key staff at the Federal, State, Local regulatory agencies to better understand their teleworking capacities and limitations.

CPS is continually tracking up-to-the-minute modifications to regulatory policies, procedures, permitting, and reporting deadlines that may impact your business.

CPS' professional staff are on the front lines with various State regulatory agency leaders, assisting with development of policies and procedures for disinfection as well as precautionary cleaning of your facility so that you can ensure safe workspaces for your essential employees.

CPS is here and fully operational to ensure that your business remains in compliance with all its regulatory requirements and your consulting needs are met. Please call us at 215-734-1414 or **1-866-976-PLUS** (7587).

**Thank you and Stay Safe and Healthy!**
