

## SSPP FAQ's

### **What are the THREE options for the SSPP?**

#### **The SSPP Full Programme**

This is for beginner stop smoking practitioners with no previous health qualifications or NZQA qualifications at level 1-2. The SSPP full programme consists of 9 assessment tasks in total.

Students for the SSPP Full Programme attend a 2 day face-to-face training workshop in Stop Smoking Core Competency Fundamentals delivered by NTS.

#### **The SSPP Fast Track Programme**

This is for experienced stop smoking practitioners or health professionals that have achieved formal health or wellbeing qualifications at Level 3 or above. SSPP assessment tasks can be cross-credited and candidates will be advised of the tasks they need to complete to achieve the SSPP qualification, based on their areas of expertise.

Students for the SSPP Fast Track Programme attend a 2 day face-to-face training workshop in Stop Smoking Core Competency Fundamentals.

#### **The SSPP Health Professionals Programme**

For registered Health Professionals including Nurses, Pharmacists and Midwives. As these health professionals have significant experience and prior learning in health at degree level or above, they have the following 3 assessment tasks to complete for the SSPP:

**Task 1:** Stop Smoking Medicines.

**Task 2:** Working with your Maori, Pacific or other client (a client from a culture different from your own).

**Task 3:** Working with your complex need client.

Students for the SSPP Health Professionals Programme may attend a 1 day Health Professionals Stop Smoking training workshop or elect to attend the 2 day face-to-face training workshop in Stop Smoking Core Competency Fundamentals on an individual needs basis
