

SSPP FAQ's

What about people who are already experienced practitioners and hold a higher qualification?

It is recommended that everyone completes the qualification to ensure their practice meets the national standard of best practice. Practitioners who have achieved recognised prior learning (such as higher qualifications or completed papers in a health related field) are able to apply to NTS for Recognition of Prior Learning.

If you think you might qualify for this or would like to learn more about it please email nts@inspiring.org.nz
