2016 ENTRY DOORS PATIO DOORS STORM DOORS

WHAT MAKES PROVIA[®] PROFESSIONAL-CLASS?

Tailored Just for Your Home

Nothing feels quite as good as well-tailored clothing, created specifically to your size, shape and style preference. Off-the-rack clothing just doesn't fit everyone's measurements.

Similarly, off-the-rack doors fall short of expectations in the same way. The materials and workmanship that goes into custom-made doors are of exceptional quality and durability, and far exceeds what is available as ready-made. Unlike consumer-grade doors, which are cut down to fit your need, professional-class doors are built to your exact measurements for a better fit and a more secure and energy efficient door. **Entry systems tailored for you - that's THE PROFESSIONAL WAY.**

Highest Standards

ProVia is committed to making doors individually customized for homeowners to the highest standards of durability, security and energy efficiency in the residential market. A clear difference so defining that it has established a new category of professional-class doors, a better alternative to consumer-grade doors.

Beauty - A beautiful ProVia entry system will always greet your guests with classic elegance and style.

Security - We focus on the strength and security of every door so you can focus on what's really important - your life.

Durability - Made with the finest materials and backed by our Lifetime Limited Transferable Warranty, our durability can't be beat.

Energy Efficiency - Engineered to keep the elements at bay and your home comfortable all year long.

Customized for You

An entry system is a reflection of you and your style. What ProVia offers is the freedom to have a door just the way you want, perfectly complementing your personality. Each made-to-measure door is a creation of its own, uniquely customized in three easy steps:

- 1** Choose your door's construction from beautiful Embarq™ or Signet® Fiberglass; Heritage™ Textured or Smooth Fiberglass; or Legacy™ Woodgrain Textured or Smooth Steel.
- 2** Create the perfect entry from a wide range of glass options and door styles.
- 3** Add the finishing touches of hardware and accessories.

ProVia Builds Doors The Professional Way

ProVia has developed a competitive position by catering to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as "professional-class." We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

— WE SERVE BY CARING FOR —
DETAILS
IN WAYS OTHERS WON'T

It Has Led Us to Exacting Standards

If you ask around, you'll find attention to detail is what our customers have come to appreciate and expect from the ProVia brand. Our company is family-owned and faith-based with an intense focus on producing Professional-Class products. ProVia feels so strongly about the performance and workmanship of our entry system—built by skilled craftspeople with state-of-the-art manufacturing processes—that it's backed with a Lifetime Limited Warranty. The warranty is even transferable to one subsequent owner. You can visit our website provia.com for details. We're building your doors and our company to last a lifetime...that's The Professional Way.

future

ENERGY STAR®

ProVia®'s ENERGY STAR certified doors and windows are independently tested and certified to meet strict energy-efficiency standards set by the Environmental Protection Agency. ProVia has been awarded nine times by the EPA with our entry doors, four for Partner of the Year, four for Partner of the Year – Sustained Excellence, and in 2015, our first award for **Excellence in Promotion** for our outstanding efforts to promote and educate our communities on the importance of saving energy with our Sammy the Star™ ENERGY STAR Educational Program.

EXCELLENCE IN
PROMOTION 2015

Most of our Entry Systems are ENERGY STAR certified.

At ProVia, not only do we manufacture energy efficient products, but we also exercise corporate environmental stewardship.

Here are a few examples:

- We use Honeywell's fourth generation Solstice® Liquid Blowing Agent that was formulated to be nonflammable while significantly lowering global warming potential and improve energy efficiency.
- We recycle paper, metals and glass.
- Solar energy panels are being used at three production facilities as part of the company's effort to lower energy costs.
- Our Pollution Prevention Program dramatically reduced solvent usage.
- To save fuel, our trucks use the TriPac Idle Reduction and Temperature Management System.
- Paperless online ordering and internal paperless fax system reduces paper usage.

For more information, visit the Environmental Stewardship section of our website at: provia.com/energy-star

Standing up to the Elements

CERTIFIED
WIND LOAD PRODUCTS

Most products in this catalog meet or exceed testing standards required by the Florida Building Code. Products that were NOT tested for Certified Wind Load regions are noted throughout this catalog in **gold colored type**.

IMPACT SHIELD
PRODUCTS

Impact Shield Products are designed to protect your family and home against the harshest storms and help deter burglaries. Impact Shield products feature laminated glass and can withstand repeated blows from wind-borne debris or unwanted intruders and are indicated throughout this catalog with the blue shield icon and **blue colored type**. See Impact Shield section on pgs 142-159 for information and available styles.

We're constantly testing new Certified Wind Load and Impact Shield products. For the latest information visit: provia.com/certification

HOW does your home's STYLE determine your choice of a new ENTRYWAY?

Your home has its own style and every component works in harmony to create that style. Choosing a door and door glass that fits your needs, as well as your style, is important. We make it easy for you to make the choice that's right for you. When you combine your preferred door style, door glass, paint or stain finish, plus hardware and accessories, the end result is a customized entryway that reflects your personalized style.

Photographs have been provided to offer ideas on how ProVia® doors can be incorporated onto a variety of home styles. We understand your personal style will be a major factor in determining which door and glass is right for you, so please browse through the entire catalog to find a style that best fits your needs.

THE COMPONENTS

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

460GEM, 160GEM, 612/613GEM

Components

A

High-performance, heat-resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

Plugless window trim is standard on Embarq™ and Signet® (N/A on Fir Series) and optional for Heritage™† and Legacy™†.

1. Embarq and Signet Cherry and Mahogany 2. Embarq and Signet Oak and Knotty Alder

3. Signet Fir 4. Heritage and Legacy

5. Modern Flat Trim (only available on models 112, 114, 115 and 160 sidelites)

 Impact Shield doors have aluminum window trim.

B

We offer **hardware from Emtex® and Schlage®** that provide some of the most stylish, durable hardware available today.

C

Our **polyurethane core** reduces energy loss.

D

Our **stains are hand-applied by professionals**, then oven-cured for maximum beauty and durability.

State-of-the-art electrostatic paint application ensures a beautiful even coat.

E

Our exclusive **Sahara™ heavy-duty extruded threshold** has a 1½" wide thermal barrier wood-look riser that will not warp or rot while providing excellent energy efficiency. On entry systems with sidelites, our continuous threshold improves structural integrity and helps prevent rotting. Also available in Anodized Nickel or Anodized Bronze finish.

 Thresholds for Impact Shield rated Heritage Fiberglass and Hinged Patio Doors have an oak-like riser and do not have composite base material

Frame Options

F

Rot-resistant **wood frame and brickmold** are end-sealed with a high quality copolymer latex acrylic sealer that prevents water absorption and carry a Lifetime Limited Warranty when used with **PVC vinyl coated aluminum frame cladding** outside.

Steel L-Frame

Available on select Signet and Legacy door styles

Aluminum door stop provides greater security and is more durable than wood.

Energy efficient weatherstripping.

18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security.

(NOT tested for Certified Wind Load or Impact Shield regions)

Not all Steel L-Frames are ENERGY STAR® certified. Visit ProVia®'s website for manufacturer's certification statement.

Our **PermaTech™ Composite door frame system** option combines all the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.*

* No storm door applied. See full warranty for limitations

† See price list for available styles.

THE COMPONENTS

(CONTINUED)

440LYN, 140LYN

Components

A Highly-skilled craftsmen assemble our **decorative glass** by precisely cutting, mitering and soldering each component into artistically-designed patterns. Art glass seeks visual character through aesthetic imperfections. Each sheet is unique and adds beauty to any home.

 Impact Shield doors feature laminated decorative glass.

Our **INSPIRATIONS™ Art Glass** offers color accents in a wide range of designs that will make a unique statement your neighbors will be sure to notice.

 Impact Shield doors feature laminated Inspirations glass.

B Our **2½" casing** conveniently covers paint lines providing a professional installation. **Also available in 3½"**. Choose from Cherry, Mahogany, Oak and Poplar.

Your home is unique and deserves to have **custom glass options** like our ComforTech™ Warm Edge Glazing Systems, internal blinds and many grid patterns and colors.

 Impact Shield doors feature laminated glass.

C Three **heavy-duty ball bearing hinges** come standard with every entry system.

Additional 4th hinge option for greater durability.
(only available with Full Wood Frame)

 Impact Shield doors have heavy-duty stainless steel hinges.

D The energy efficient **weatherstripping** runs along the top and sides of the door and interlocks with the **CornerShield™** for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

E We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

F We include a **solid brass fully adjustable strike plate** of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

F The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don't provide.

G **Bulb and blade sweep** virtually eliminates drafts, keeping your home comfortable.

EMBARQ™

FIBERGLASS DOORS

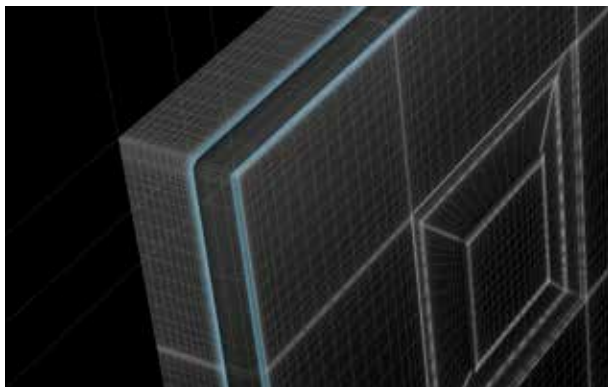

All Embarq Fiberglass
Entry Systems are
ENERGY STAR® Certified.

A New Way of Thinking

We set out on a journey to develop a new door and it expanded into a complete philosophy of creating unrivaled efficiency in home building products. We call this new way of thinking "*EnVision*," and are proud to introduce its first creation: **Embarq™** – the doorway to innovation and efficiency.

2.5" Thick Door with Dual Perimeter Seal

To enhance efficiency and accommodate more insulation, we thickened the door and sidelites from the standard 1¾" to 2½" which is 43% thicker than standard exterior doors. We also engineered a dual perimeter seal for the entry door to create a superior barrier against drafts and energy leaks.

We started from the inside out to maximize energy savings and reduce thermal loss, resulting in the most energy efficient door in the U.S. market. In fact, this door offers at least 4-times more insulating value than a typical wood door giving an unprecedented U-Factor of 0.10 - the lowest recorded heat conduction measurement for entry doors in the U.S.

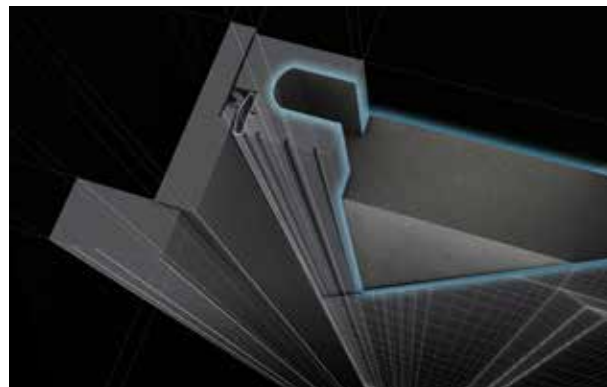

ProVia® Earns Crystal Achievement Award for Most Innovative Door from *Window & Door Magazine*

Crystal Achievement Awards recognize significant innovations and achievements in window and door technology, manufacturing and marketing.

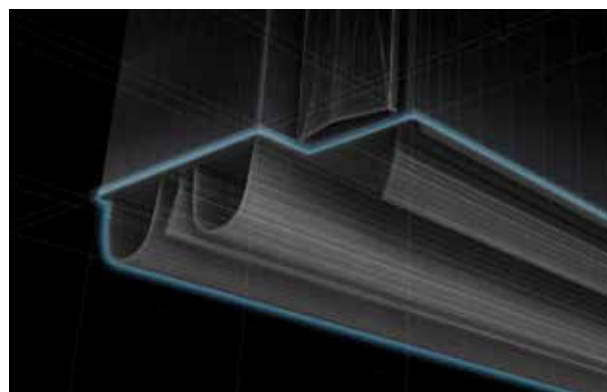

"Every aspect of the ProVia [Embarq] fiberglass door makes it a winner."

- Crystal Achievement Award Judge

Insulation Channel

We engineered a channel in the side rails and header of the door to allow for a larger energy efficient polyurethane core. Our computer-controlled process fills every crevice with the foam barrier material resulting in a level of energy efficiency unparalleled in the industry.

Custom Bottom Sweep

We custom designed a sweep to accommodate the Embarq door's added thickness. This creates a new breed of thermal barrier to keep out unwanted elements and uncomfortable temperatures.

EMBARQ[™]
Fiberglass Doors with EnVision[™] Innovation

Quad Glass System

Our EnVision™ innovation and technology has created a revolutionary new design utilizing a Quad Glass System. This glass system is only available for Embarq fiberglass doors and sidelites and utilizes the most energy efficient glass package available on the market today. This high performance glass system provides an optimal energy efficiency rating.

- A** Low-E Glass Surface
- B** Krypton Filled Air Space
- C** Decorative Glass Core
- D** Super Spacer®
- E** Tri-Seal Spacer
- F** We re-engineered our ComforTech™ Warm Edge Glazing System to accommodate for the extra panes of glass in this highly efficient package.

Sidelite Styles

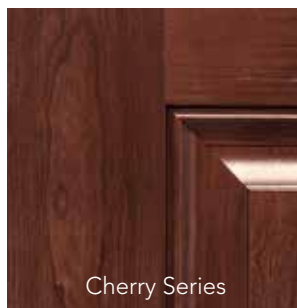

- ⌘ Signet® Cherry Series
- Signet® Mahogany Series
- + Signet® Oak Series
- Signet® Knotty Alder Series

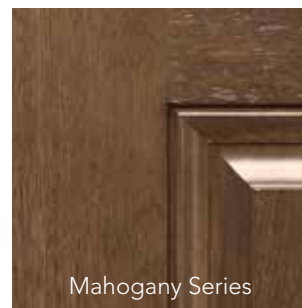

Lock area is reinforced to provide a solid mounting surface for Emtek® hardware.

Hardware and Accessories

Embarq doors are only available with Emtek® hardware found on pg. 99 of this catalog. Colonial Door Knocker, Peepsite, and Kick Plate on pg. 107 and Hinge Straps and Clavos on pg. 108 are also available on Embarq doors.

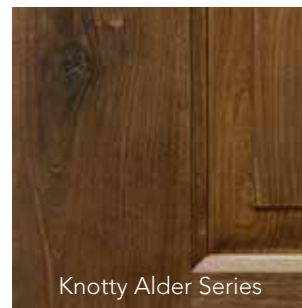

Cherry Series

Mahogany Series

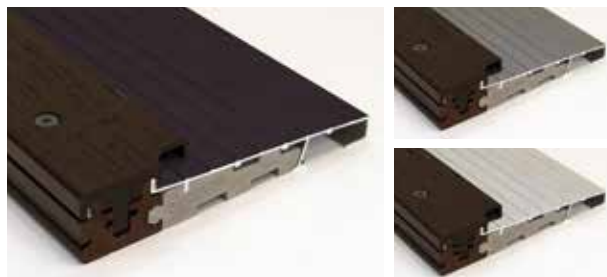

Oak Series

Knotty Alder Series

Series and Finishes

Embarq doors available in Cherry, Mahogany, Oak and Knotty Alder Series and feature all the same stain and paint finishes as our Signet doors shown on pg. 21.

Our exclusive Bronze Sahara™ heavy-duty extruded threshold has a 2 $\frac{3}{8}$ " wide thermal barrier wood-look riser that will not warp or rot while providing excellent energy efficiency. Also available in Anodized Nickel or Mill finish.

SIGNET[®]

FIBERGLASS

Signet Fiberglass doors are available in Cherry, Mahogany, Oak, Fir and Knotty Alder Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P³ Fusion, allowing us to offer an industry-best 10-year* finish warranty.

Most Signet Fiberglass Entry Systems are ENERGY STAR[®] Certified.

10-YEAR FINISH WARRANTY*
See pgs. 20-21 for paint and stain finishes

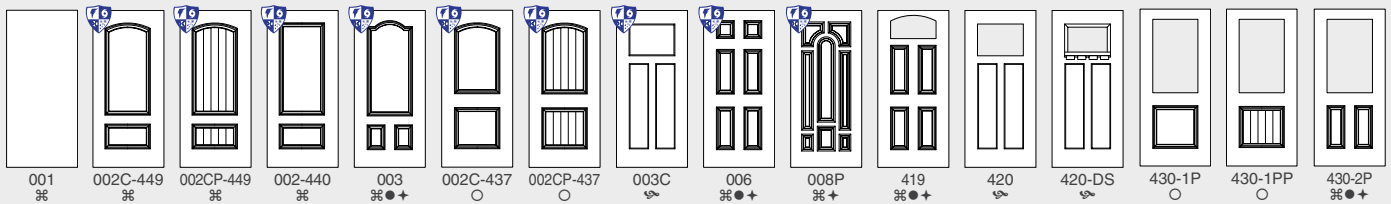

Entry System U-Factor: As low as .17 (Tested to NFRC specifications for a 6 panel door with wood frame).
Note: All Signet doors are shipped finished.

* Warranty time period may be limited in extreme applications. See warranty for details.

All Signet Fiberglass doors without glass are Available as an Impact Shield Product.

* NOT tested for Certified Wind Load regions

8' Doors

8' Sidelite

Signet Advantages

A **Stiles and rails are dovetailed and glued** at each corner creating a structurally solid, integrated frame.

B The **2½" finger-jointed 3-ply hardwood hinge stile** provides superior structural integrity.

C ProVia doors are **foam filled by a computer driven process** that ensures the optimal foam fill for maximum efficiency and strength.

D The **4¼" finger-jointed 4-ply hardwood strike stile** provides a solid mounting surface for decorative hardware and superior structural integrity.

E **Door edge** is constructed with cherry, mahogany, oak or fir wood matching the selected series.

F **A high-performance, composite material** is utilized on all Signet fiberglass bottom rails, giving excellent rot-resistance.

The authentic wood look is made possible by using cutting-edge nickel vapor deposition technology.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.

G **High-definition panel profile** creates excellent shadow lines and distinct panel designs.

The revolutionary **DuraFuse™ Finishing System featuring P3 Fusion** yields unprecedented finish durability.

Signet fiberglass entry systems come standard with an **anodized bronze threshold with a complementary riser.**

Plugless Window Trim is standard on Signet (N/A Fir Series).

The inside door **frame is hand-stained or painted to match your door** providing you with a consistent visual appearance. (Signet doors are also available with a Steel L-frame.)

Simulated Divided Lites for Signet Fiberglass, see pg 90 for details.

You can customize your entry by ordering a different series, style and finish on each side of your door.

Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

EMBARQ™ AND SIGNET® FINISHES

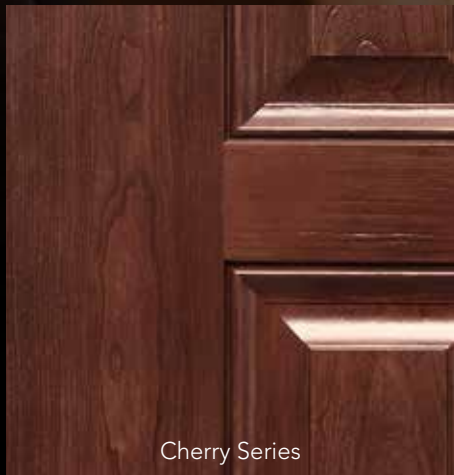

Applied with care, by professionals. If you buy an entry system and finish it yourself, chances are it's the first door you've ever painted or stained. At ProVia®, stains are hand-applied by professional craftsmen, many who have been perfecting their work for years.

- ⊙ Hemlock Grain Pattern
- ⊠ Smooth Fiberglass

All Heritage Fiberglass doors without glass are available as an Impact Shield Product.

Heritage Advantages

A

1½" Finger-jointed, 2-ply solid oak laminated stiles for both hinge and strike sides are proven to provide increased rigidity and structural integrity.

B

Polyurethane core reduces energy loss.

C

Improved definition panel profile creates excellent shadow lines and distinct panel designs.

D

Lock area is reinforced to provide a solid mounting surface for decorative hardware.

E

Specially engineered fiberglass door facings will not dent and resist splitting, cracking and warping.

F

Variable-depth woodgrain texture with hand-applied stain imitates a wood door appearance.

G

Square-edge design offers an attractive wood door appearance.

H

A high-performance, composite material is utilized on all Heritage fiberglass bottom rails, giving excellent rot-resistance.

Plugless Window Trim is optional on Heritage Fiberglass (see Price List for available styles)

Heritage Smooth Fiberglass doors exhibit the same durable construction as woodgrain textured fiberglass featuring high-definition panel profiles. (Only available in styles with  symbol shown on pg. 22)

Custom Heights Available for all Heritage Fiberglass doors

HERITAGE™ FINISHES

LEGACY™

STEEL

Legacy Steel features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

Most Legacy Steel Entry Systems are ENERGY STAR® Certified.

Legacy Steel Doors with full-lite or half-lite decorative glass with ComforTech™ glazing will include a pane of Low-E glass in order to be ENERGY STAR certified. This includes the following styles; 150, 230, 239, 240, 350, 430, 437, 439 and 460. Since Low-E glass has a slight color tint, it is recommended that sidelites and transoms are ordered with optional Low-E pane to match the door.

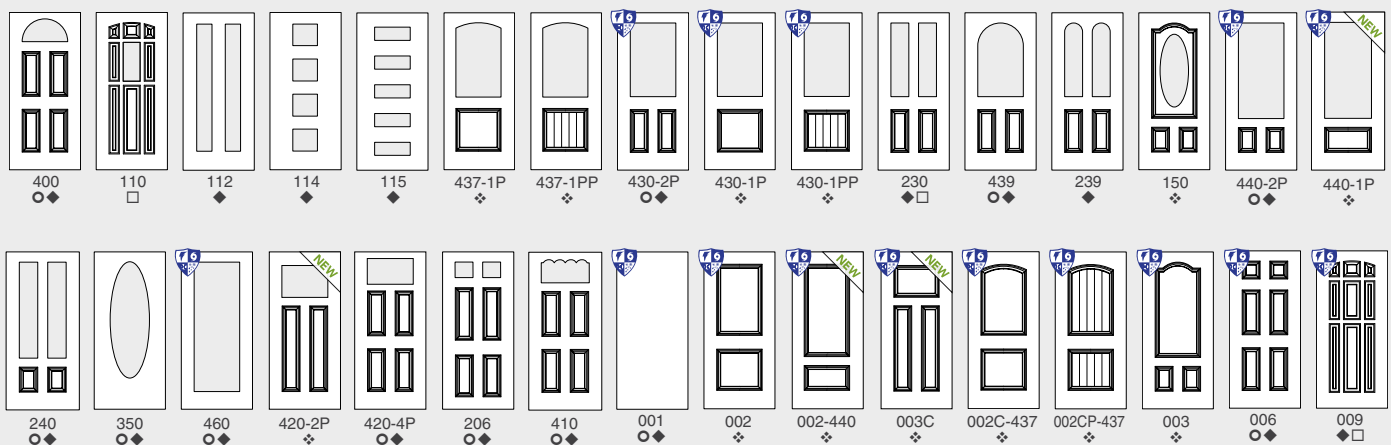

7-YEAR FINISH WARRANTY*
See pgs. 28-29 for paint and stain finishes

Entry System U-Factor: As low as .17 (Tested to NFRC specifications for a 6 panel door with wood frame).

* Warranty time period may be limited in extreme applications. See warranty for details.

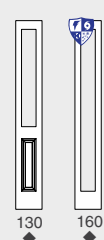

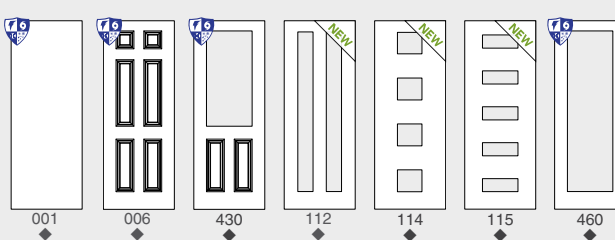

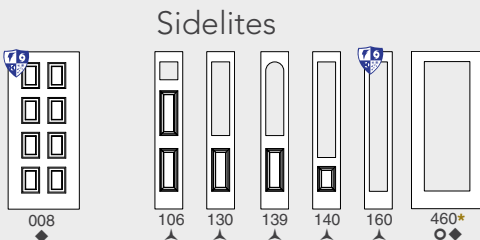

† Patent - USD621062

8' Doors

8' Sidelites

- 20-gauge Woodgrain Textured Steel
- 22-gauge Woodgrain Textured Steel
- ◇ 20-gauge Smooth Steel
- ◆ 20-gauge Smooth Steel with High-Definition Embossing
- ▲ 24-gauge Smooth or Textured Steel (used with all 20 and 22-gauge doors)

Indicated Legacy Steel doors are available as an Impact Shield Product.

* NOT tested for Certified Wind Load regions

Legacy Advantages

A

Composite top and bottom endcaps increase rigidity and energy efficiency.

B

The edges and face skin of our steel doors are **one continuous piece of steel** for strength and durability.

C

Special adhesives/thermal barrier reduce heat and cold transfer, while our exclusive tab and slot system of **mechanical interlocks** gives the door exceptional structural strength.

D

ProVia doors are **foam filled by a computer driven process** that ensures the optimal foam fill for maximum energy efficiency and strength.

E

To reinforce the lock and deadbolt area, we add a **rigid composite lock block** to all of our steel doors.

F

Our 20-gauge steel doors give you **49% more galvanized steel** than a standard 24-gauge door.

Plugless Window Trim is optional on Legacy Steel (see Price List for available styles)

Smooth Steel with High-Definition Embossing

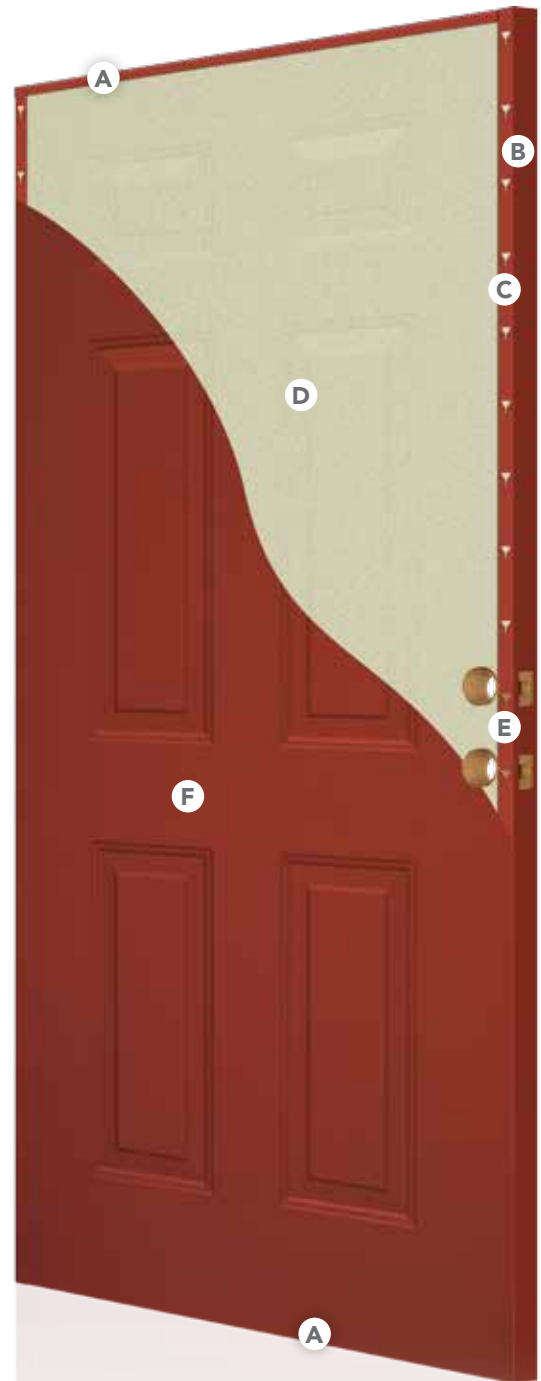

- Embossed texture provides a traditional panel wood door look
- Provides deep shadow lines accentuating the character of the door's design
- Rich contouring adds depth and artistic character
- Only available in 20-gauge steel. Only available in styles with ❖ symbol shown on pg. 26

You can customize your 20-gauge entry by ordering different styles and finishes on each side of your door.

Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

LEGACY™ FINISHES

7-YEAR*

Legacy Steel Stains

To select stain color, refer to our color selector for accurate color representation.

Legacy Steel Paints

5-Step Paint Finishing System

- 1. A40 Hot-dipped Galvannealed** 300% more coating thickness than 40Z Full Electrolytic Zinc Coated steel, resisting rust inside and out
- 2. Base Coat (Prime Paint)** A 2-part urethane, catalyst-hardened base coat is applied by a robotic reciprocating paint system
- 3. Oven-Cured** Base coat is oven-cured for lasting durability
- 4. Finish Coat** The door is then coated with a 2-part urethane, catalyst-hardened finish coat using our state-of-the-art electrostatic application
- 5. Oven-Cured** The door is oven-cured a second time, creating a long-lasting, durable finish

Legacy Steel Paint Colors

To select paint color, refer to our color selector for accurate color representation.

† Limited Colors. Available on entry doors and storm doors. Matching cladding and caulking not available.

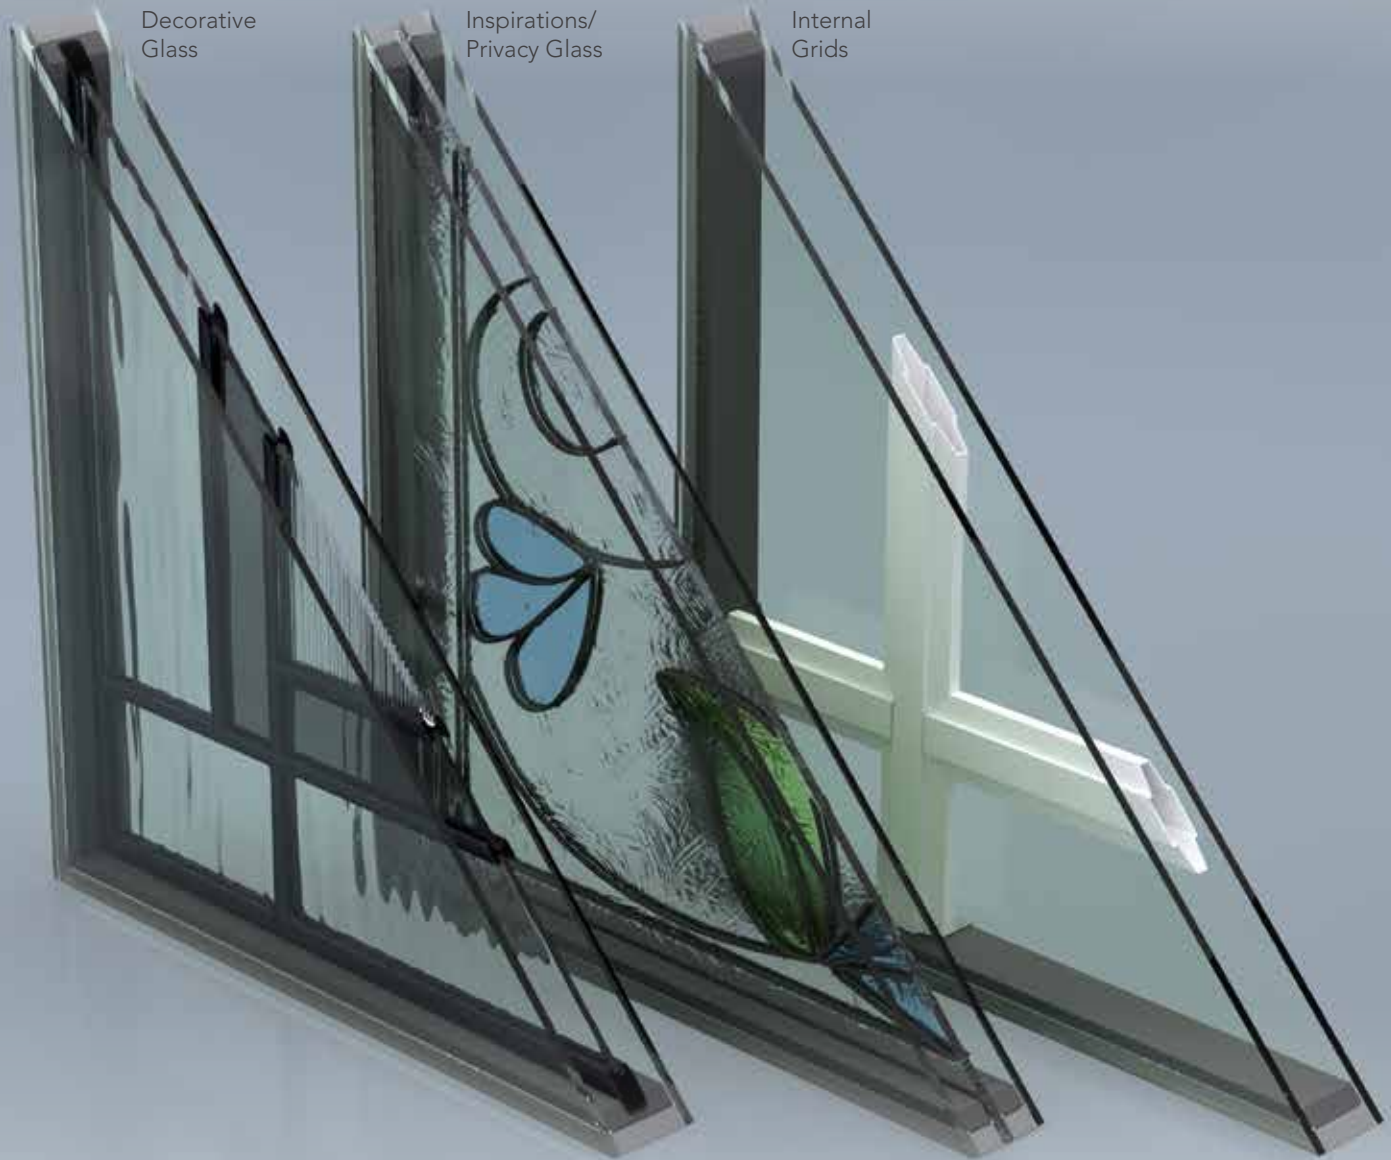

COMFORTECH™

LIFETIME LIMITED WARRANTY
Includes Glass Breakage and Seal Failure

Measurably improve thermal performance with our ComforTech™ Warm Edge Glazing System.

You'll enjoy better energy efficiency and a warmer glass edge.

ComforTech Warm Edge Glazing System is included in all:

- Decorative Glass (except for Tuscany)
- Inspirations™ Art Glass
- Privacy Glass
- Clear Glass
- Grids (Internal, External and SDL)
- Designer™ Patio Doors
- Vinyl Sliding Patio Doors
- Vinyl Replacement Windows

ComforTech™ Advantages

The NO-Metal Advantage

"Thermal efficiency through no presence of conductive metals" is the Super Spacer® hallmark.

Mylar 10-Layer Vapor Barrier

The Super Spacer® thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Withstands Normal Bowing

The design of our Warm Edge Glazing System stands up to the bending and bowing that is natural in any glass unit.

Enhanced Noise Reduction

Our all-foam formula's excellent sound-dampening properties reduce outside noise, even in industrial environments.

Glazing System Options See page 142 for Impact Shield laminated glass options

ComforTech™ **TLK** (Solarban® 60)
ComforTech™ **TLK-UV** (Solarban® 70XL)

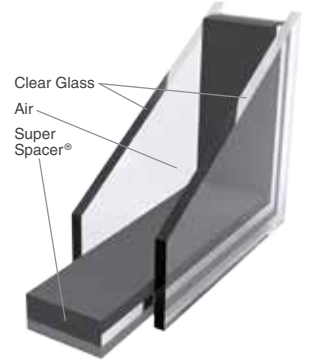

ComforTech™ **TLA** (Solarban® 60)
ComforTech™ **TLA-UV** (Solarban® 70XL)

ComforTech™ **DLA** (Solarban® 60)
ComforTech™ **DLA-UV** (Solarban® 70XL)

ComforTech™ **DC**

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.

DECORATIVE GLASS

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options by precisely cutting, mitering and soldering each component into artistically designed patterns. Art glass purposefully seeks visual character through aesthetic imperfections, while maintaining structural stability. These "imperfections" mimic the hand-made sheet glass of centuries past. They come in the form of textural waves and striations, random seeds (air bubbles) and a variety of other natural effects. Art glass achieves its personality through these apparent flaws and no two sheets are ever identical. Each glass panel is hand-made and reflects minor differences from piece to piece. This is characteristic of any hand-made product and adds to the charm and beauty of the product.

We continually inspect for consistency. The patterns can vary in size and particular shapes, but pose no danger of spontaneous breakage or structural instability. Any patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality glass panels.

Each piece of glass is meticulously inspected for consistency.

ESSENCE

DECORATIVE GLASS

Essence features a bronze softwave glass combined with micro-granite that brings elegance to a whole new level.

Caming Finishes Available

High Performance Benefits

Remarkable beauty and security at a great price. 99% UV blockage prevents fading of carpets and furniture.

Forced Entry Deterrent

All glass can be shattered after continuous impact, but these laminated decorative designs are break-through resistant to deter burglaries.

440TUS

Tuscany glass is designed to deter burglaries. Unfortunately, entry systems with Tuscany glass are not ENERGY STAR® Certified.

INSPIRATIONS™

ART GLASS

Inspirations Art Glass allows you to do just what the name suggests, let your doors and windows reflect the inspiration of your imagination with your choice of design and color.

-  A PROVIA® EXCLUSIVE
-  COMFORTECH™ WARM EDGE GLAZING SYSTEM
-  IMPACT SHIELD AVAILABLE
See pg. 153 for available door styles
-  LIFETIME LIMITED WARRANTY
Includes Glass Breakage and Seal Failure

Inspirations Art Glass Features

Designs:

The process begins with conceptual design. Our eleven beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

Resin Bead:

The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

Color Fill:

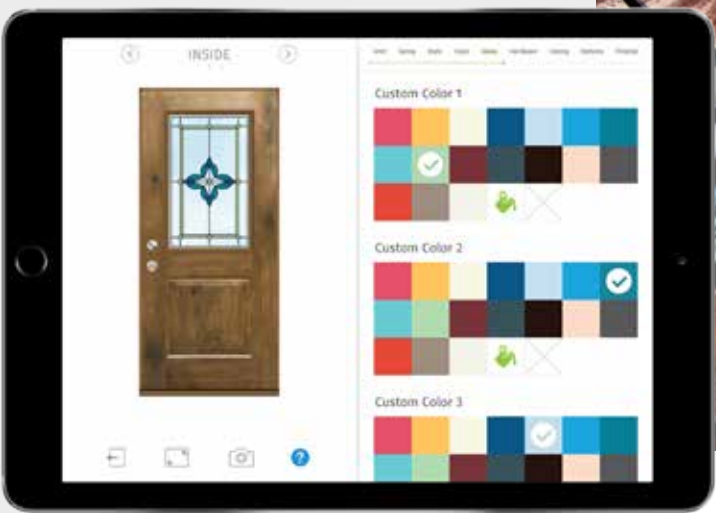

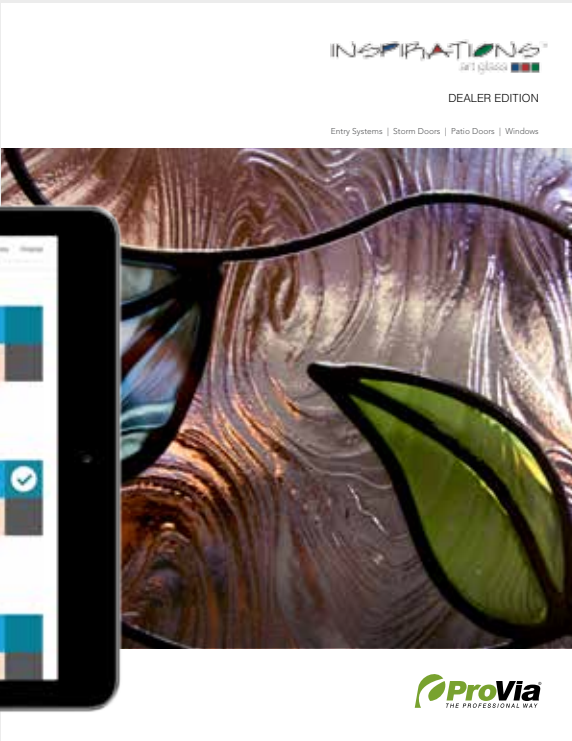

The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

Our Guarantee:

The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

To See More Inspirations:

Ask to see our Inspirations Art Glass brochure for available styles and color palettes, or use our ProVia iPad app to create custom color palettes and design your dream door.

Visit the App Store to download your free app today!

o Steel sidelites are made from 24-Gauge steel

§ Also available in 10" width.

* Embarq doors and sidelites are not available in 8' heights

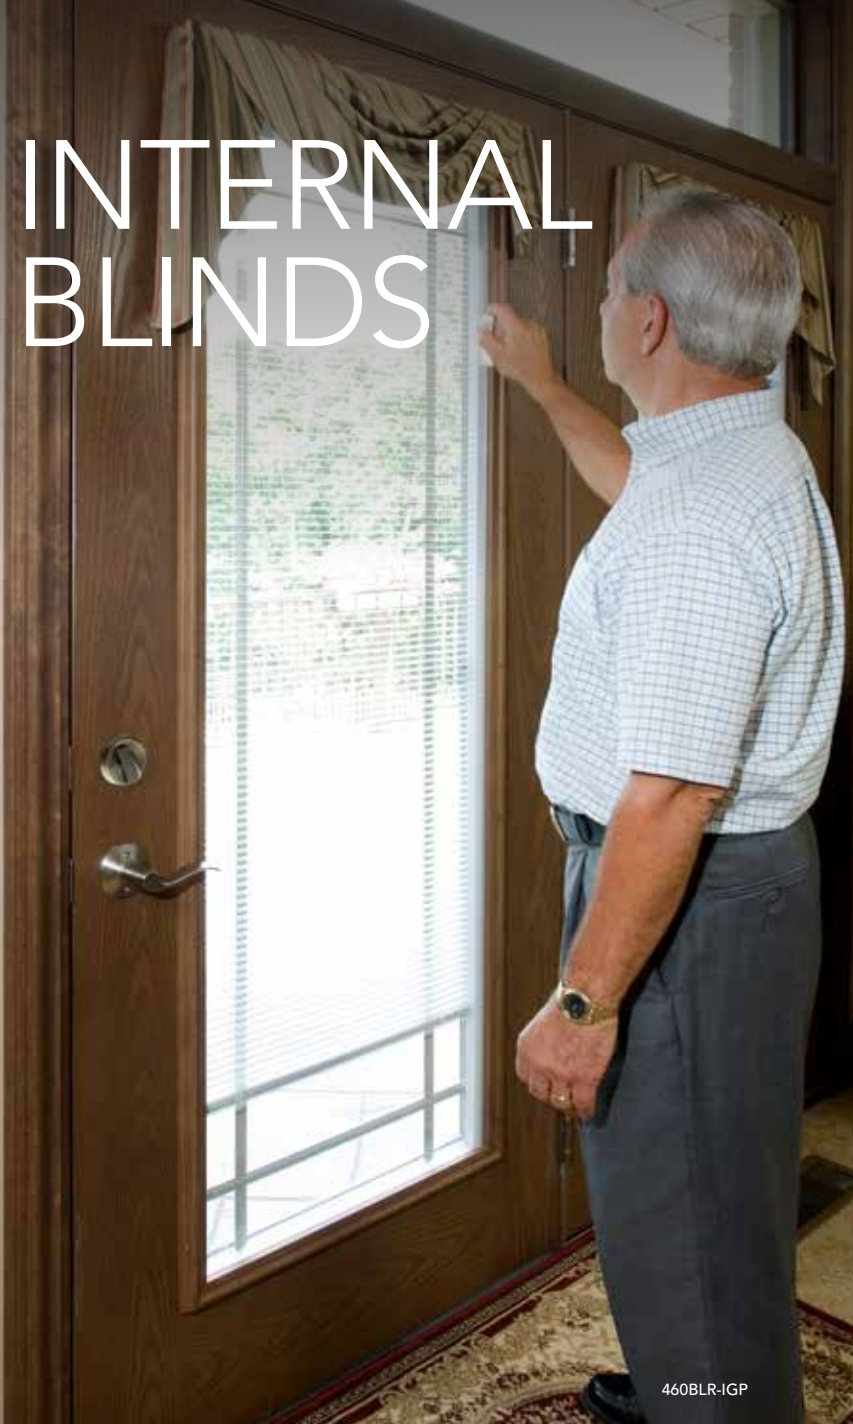

● Not tested for Certified Wind Load region

⊕ Cannot be mullied with Heritage Fiberglass doors in Certified Wind Load regions

◆ Only available with Modern Flat Window Trim. Only available with 770 sidelite(s) or 160 sidelite(s) with Modern Flat Window Trim.

Note - Privacy glass is available in SDLs (see pg. 91) and Heritage and Legacy External Grids (see pg 89).

INTERNAL BLINDS

460BLR-IGP

Internal Blinds are constructed with sturdy white aluminum and enclosed in tempered safety glass. Easy to clean; no more dusting of blinds. Internal Blinds are suitable for entry doors, sidelites and patio doors and carry a 10-Year Warranty.

An innovative design results in stacked blinds that take up the smallest of space at the top of the door glass when fully opened. Privacy channels on each side of the door glass eliminate light gaps when the blinds are closed, including streetlight shadows or sunlight glare. Note: Operator is always located on the right-hand side.

Additional Light Control - BLR styles can also be raised and lowered completely.

Internal Blinds also available with optional Low-E
 Note: 160BLD-IGT, 160BLD-IGP, 160BLD-IGC, and 160BLD cannot be raised and lowered

SIMULATED DIVIDED LITES

EMBARQ™
Fiberglass Doors with EnVision™ Innovation

SIGNET®
fiberglass doors

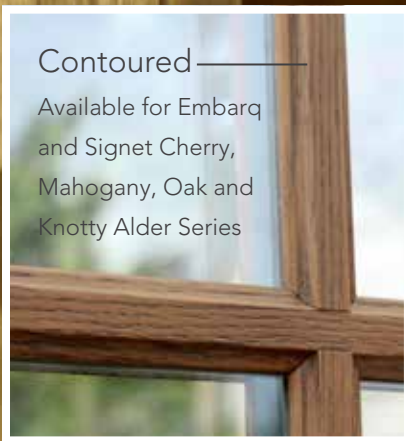

Simulated Divided Lites (SDL) on our Embarq™ and Signet® Fiberglass entry doors are reminiscent of old world craftsmanship when separate pieces of glass were mullered together with wooden grids. We deliver that same stunning appearance through our high-tech stained fiberglass 1" wide x 1½" thick grids combined with the energy efficient qualities of our ComforTech glass packages.

EMTEK® MORTISE HARDWARE

EMTEK's Mortise hardware features the added advantages and options that come with push-button controls.

- Push-button passage controls
For more passage and locking options
- Heavy-duty Forged Brass Construction
For long lasting beauty
- Solid Brass Nose Bolts on Latches
For dependable use
- Lifetime Mechanical Warranty
Our guarantee of value
- Lifetime Anti-tarnish Finish Warranty
Beauty for life

Push button passage controls provide added security and peace of mind. When the upper button is pressed in, the mortise lock is only accessible by using a key.

To activate the Passage Function, push in the lower button. This will allow you to access the thumb latch without a key.

Note: As long as the Passage Function is NOT engaged, the door will lock automatically when latched, and will not allow entry without a key.

Emtek Mortise hardware is available in these finishes

Lifetime Bright Brass

Lifetime Satin Nickel

Lifetime Oil Rubbed Bronze

(EMTEK Mortise hardware is NOT tested for Certified Wind Load or Impact Shield regions)

(EMTEK Mortise hardware is only available for Signet Fiberglass and 20-gauge steel doors)

Introducing Nexia™ Home Intelligence. Now, no matter where you go, the front door is within reach. That's because Nexia Home Intelligence is more than a lockset. It's a brilliant new way to enhance your home's security, and your family's peace of mind.

On the surface, Nexia Home Intelligence looks like a keypad entry lock — and it is. But it also features technology that

allows you to use your smart phone or computer to remotely unlock your doors, monitor entry and change pass codes. You can even pair Nexia Home Intelligence with other household items like lights and appliances for additional security and convenience.

That's freedom. That's intelligence. That's Nexia Home Intelligence.

Nexia Home Intelligence Starter Kit

Nexia Home Intelligence requires the purchase of a Starter Kit which includes the Light Module and the Wireless Bridge, plus a monthly subscription fee to enable remote access from your computer or smart phone over the internet. Go to www.nexiahome.com for more information on Nexia Home Intelligence or to view their other home automation solutions such as Indoor Cameras, Outdoor Cameras, Thermostats, Motion Sensors and Window & Door Sensors.

 Lifetime finish warranty time period is limited to five years if product is installed in an Impact Shield region.

TRILENNIUM[®] MULTI-POINT HARDWARE

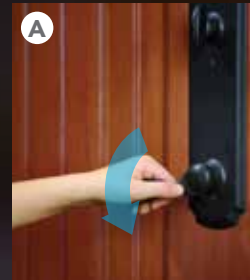

The Trilennium Multi-Point hardware system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

3 1" Deadbolts latch with deadbolt throw.

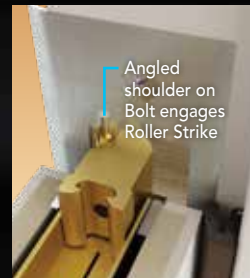

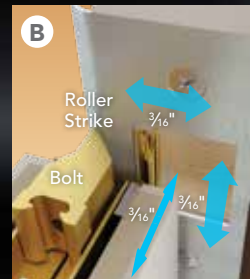

Deadbolts include anti-saw hardened steel pin.

A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.

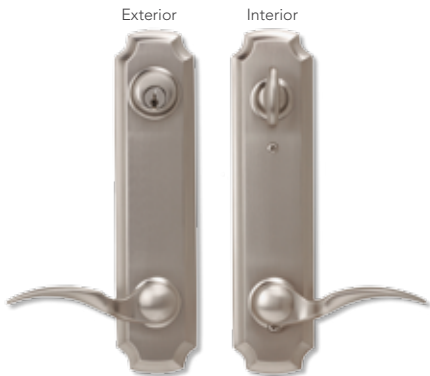

Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and $\frac{3}{8}$ " pull-in when deadbolted.

Eclipse

Trilennium hardware is required on all 8' Signet® and Heritage™ fiberglass doors. Optional on all other fiberglass doors.

Also available on all 20-gauge Legacy steel doors.

NOT available on Steel L-Frames

Trilennium hardware has a 10-Year warranty on materials and workmanship.

Trilennium hardware is NOT available on French Doors in Certified Wind Load or Impact Shield regions.

Pinnacle

Trilennium hardware is available in these finishes

-  Lifetime Bright Brass
-  Lifetime Satin Nickel
-  Lifetime Flat Bronze*

* Flat Bronze coordinates (but is not an exact match) with Aged Bronze accessories.

OPTIONS

002CP-437, 160BRC

The Speakeasy, Hinge Straps and Clavos are options that can give your entryway an old world look. Combine these options with our Signet® Knotty Alder Series to achieve a rustic or antique style. Speakeasy, Hinge Straps and Clavos are constructed of durable flat black aluminum.

Speakeasy Available on all door styles shown below except for 8' 002C-437 and 8' 002CP-437

NOT tested for Impact Shield regions. (Doors with Speakeasy are not ENERGY STAR® certified.)

ProVia does not recommend entry doors with Speakeasy applications in the Northern climate zone. We also recognize some of the North-Central climate zone areas are not suitable for this application as well. We recommend this application to be used only in the South-Central and Southern climate zones. Speakeasy applications carry a 5-year limited warranty. See price book for more details.

Hinge Straps Available on all door styles shown below

Available as an Impact Shield product.

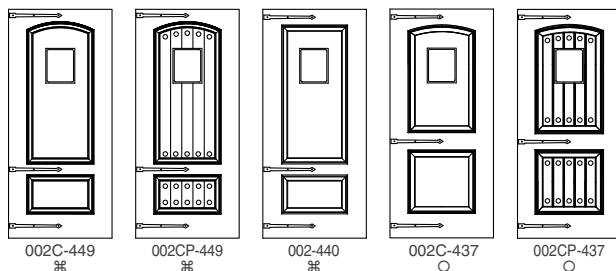

Clavos Available only on door styles shown below with planks (002CP-449, 002CP-437, 8' 002CP-449 and 8' 002CP-437)

Available as an Impact Shield product.

InVent™ Retractable Screens

Upgrade your door with our InVent Retractable Screens. Now our color matched retractable screen is factory installed and available in custom sizes.

- Disappears into the natural recesses of the frame making them virtually invisible
- Glides within the rails – no wheels or rollers to replace or lubricate
- Screen expands upon impact – prevents damage or injury
- The top and bottom tracks contain weatherstripping on the inside and outside of the screen mesh to keep insects out
- A patent pending quiet, smooth brake system
- Factory installed to ensure the most precise fit
- Housing is color matched to all of our paint colors
- Easy access to the screen cartridge makes screen replacement simple
- Available for single, french or patio doors
- Available for 8' doors

Pg. 113 ProVia® Door Price List

Freedom Pet Door

(NOT available in Certified Wind Load or Impact Shield regions)
(Doors with Pet Door are not ENERGY STAR certified)

8' DOORS

8' Doors provide a majestic first impression. Choose from many available glass and door styles (shown on pgs. 34-93). Trilennium® multi-point hardware offers homeowners better door closure and sealing than a single point lock.

IMPACT SHIELD AVAILABLE

See pgs. 144-157 for available door styles

002CP-437, 160IGT

8' Doors

Trilennium multi-point hardware is required on all 8' fiberglass doors. See pages 104-105 for more information on Trilennium hardware.

440BLO

FRENCH DOORS

French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.

IMPACT SHIELD AVAILABLE
See pgs. 151 for available door styles

8' 440CHP

- All door styles are available as a French Door
- Available with Full Wood Frame or Steel L-Frame
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on Full Wood Frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Optional InVent™ Retractable Screens

Astragal Details

The French Door Astragal provides functionality and security

Astragal secures inactive door at top and bottom of your french door system

Lockable throw bolts improve security

Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements

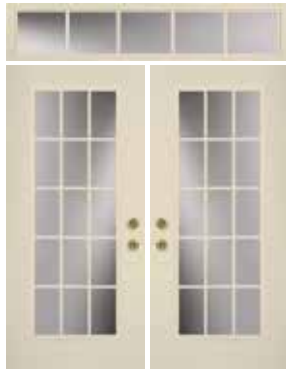

Astragal is now stained to match Signet Fiberglass stained doors.

Styles/Configurations

All door styles are available as a French Door.

 Cannot be mulled with Heritage Fiberglass doors in Certified Wind Load regions

Unequal French Doors

You now have the ability to utilize the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in smooth steel only. Internal blind sizes are limited. See Price List for details.

DESIGNER HINGED PATIO DOOR

460BLR

Designer Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

 **IMPACT SHIELD AVAILABLE**
See pgs. 159 for available door styles

**Designer Patio Doors with Heritage Fiberglass
are NOT available in Certified Wind Load regions.**

Patio Door Standard Features

A keyed Schlage® flair handleset with a Maximum Security thumbturn deadbolt is included. Choose from bright brass, antique brass, satin nickel or aged bronze finish. Optional Lifetime finishes available.

The lock area is reinforced with a **20-gauge steel security plate** for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. **BetterVue™ fiberglass screen mesh** is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel screen is optional.

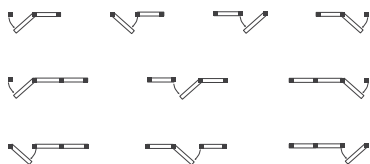

Suspended by ball bearing rollers this **top-hung heavy-duty aluminum screen frame** reduces binding, creating effortless operation. Screen frames are available in all 16 paint colors.

Our **Sahara™ heavy-duty extruded sill** has a 1½" wide thermal barrier wood-like riser that will not rot or warp and is non-conductive. Available in Anodized Nickel finish or Anodized Bronze finish.

 Thresholds for Impact Shield rated Hinged Patio Doors have an oak-like riser and do not have composite base material

Door Swing

Options

- Custom Widths and Heights** - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8" increments.
- Door Swing** - (Doors viewed from above. Inswing only.)
- Finishes** - Patio doors are available in all finishes shown on pages 21-29.
- Optional InVent Retractable Screen** - See page 110.

VINYL SLIDING PATIO DOORS

-  COMFORTECH™ WARM EDGE GLAZING SYSTEM
-  IMPACT SHIELD AVAILABLE
See pg. 159 for available door styles
-  LIFETIME LIMITED WARRANTY
Includes Glass Breakage and Seal Failure

Vinyl Sliding Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind load resistance, ease of operation, forced entry and much more. This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

All Vinyl Sliding Patio Doors are ENERGY STAR® Certified

Features

A

Galvanized steel reinforced panels ensure rigidity and stable operation.

B

Sill is reinforced with galvanized steel. Pair that with our patented water draining system, and the results are an efficient and durable base for our patio door.

C

Strong, multi-chamber profiles and 5 3/8" frame depth offer greater thermal efficiency and increased sound abatement. (Endure Patio Door frames have Neopor® insulation)

D

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

E

The vent lock adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out.

F

Patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

G

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue fiberglass mesh is standard; heavy-duty fiberglass, stainless steel or aluminum mesh is optional.

H

Fixed and mobile panel rails meet and interlock perfectly, making removal from the outside virtually impossible. Lower sill design provides safer entry and exit.

STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality.

Storm Door Construction

A

Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

B

Extruded aluminum frame adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

C

All our storm doors are constructed with **tempered safety glass**.

D

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

E

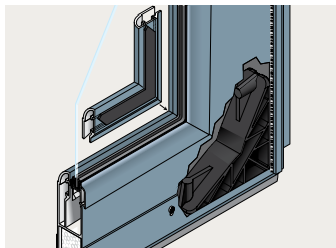

Each door features **quality hardware** that adds beauty and functionality to your new storm door. Varies by model.

Sashes are secured by our **color matched polycarbonate clips** or an **internal sash lock system**. Varies by model.

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

F

Corrosion-proof corner gussets enhance the structural integrity of the door.

G

Our **bottom expander with sweep** allows for a beautiful custom-fit to any entry. Varies by model.

All ProVia Storm Doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.

STORM DOOR DETAILS

The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

Storm Door Paint Finishing System

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

 LIFETIME FINISH WARRANTY
For all Storm Doors

IMPACT SHIELD PRODUCTS

Florida

Impact Shield Products are designed to protect your family and home against the harshest storms and deter burglars. All entry systems and patio doors in this Impact Shield Products section are wind-borne debris resistant and approved by the State of Florida. floridabuilding.org

- Impact Shield
- Certified Wind Load
- High-Velocity Hurricane Zones
(ProVia products have not been tested for use in High-Velocity Hurricane Zones)

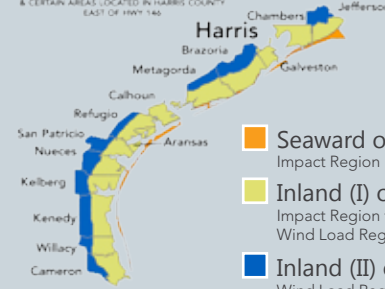

Texas

Impact Shield Products have been tested for the Designated Catastrophe Areas in Texas. Refer to provia.com/certification for a complete listing of approved products.

Designated Catastrophe Areas

TEXAS FIRST TIER COASTAL COUNTIES & CERTAIN AREAS LOCATED IN HARRIS COUNTY EAST OF HWY 146

- Seaward of Intracoastal Canal Impact Region
- Inland (I) of Intracoastal Canal Impact Region for All Glazed Product Wind Load Region for All Opaque Product
- Inland (II) of Intracoastal Canal Wind Load Region

We're constantly testing new Certified Wind Load and Impact Shield products. For the latest information visit: provia.com/certification

All of our Impact Shield Products feature ComforTech™ laminated glass.

ComforTech™ **TLK-C** (Solarban® 60)

ComforTech™ **TLA-C** (Solarban® 60)

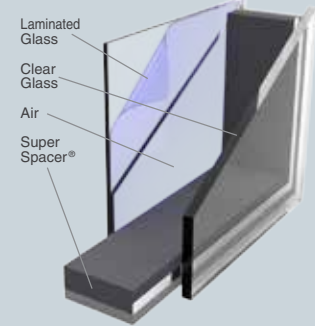

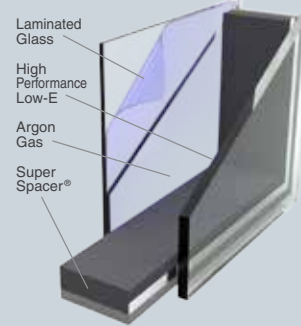

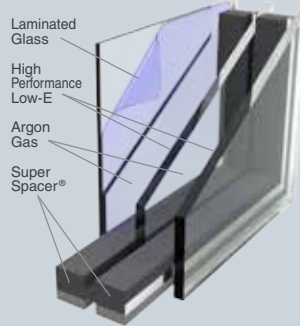

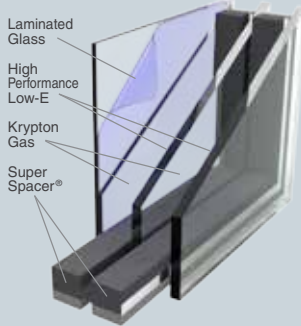

ComforTech™ **DLA-C** (Solarban® 60)

Look for indicated ENERGY STAR® Certified Impact Shield Products.

Entry Door and Designer™ Patio Door Impact Shield Features

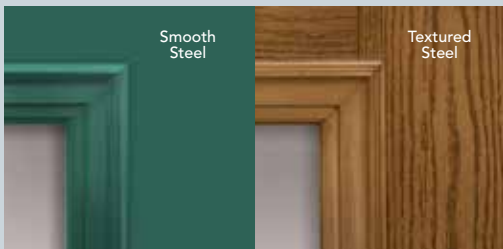

A

All glass for Impact Shield Products is laminated to provide protection against wind-borne debris.

B

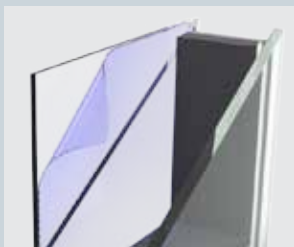

Heavy-duty stainless steel hinges resist corrosion and are standard in wind-borne debris regions.

C

Aluminum window trim of our own exclusive design provides ultimate durability in the harshest of elements. Textured Steel doors have hand-stained smooth aluminum window trim.

Vinyl Sliding Patio Door Impact Shield Features

A

All glass for Impact Shield Patio Doors is laminated to provide protection against wind-borne debris.

B

Additional heavy aluminum interlock on center stile adds durability and strength.

Storm Doors

All ProVia® storm doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.

OUR PRODUCTS

DOORS

WINDOWS

— WE SERVE, BY CARING FOR —
DETAILS
IN WAYS OTHERS WON'T

Across ProVia®'s complete line of products, you can be confident we put the same care into every detail of windows, siding and stone you've come to value in our doors.

SIDING

STONE

At ProVia, we care about our customers as much as we do the products and services we meticulously provide. We combine old-world craftsmanship with state-of-the-art technology to deliver personalized care with every order. We invite you to experience ProVia's full line of products crafted the Professional Way - which includes the industry's best in doors, windows, siding and stone.
