Specialty Vinyl Replacement Windows

STANDARD FEATURES

1. *Color-matched, weatherproof PVC exterior* is maintenance free and resists scratching and denting.
2. *Hand-selected 1-1/4" furniture-grade Birch or Oak hardwood interior* is 67% thicker than typical products and won't delaminate or show glued seams.
3. *Solid Timberstrand laminated wood mullion* construction with "walled in" window openings provide superior strength and will not twist or warp.
4. *6" threaded lagbolt construction* anchors the head and seatboard for support and durability.
5. *Veneer-banded edges* for a beautifully finished interior reveal.
6. *Eyebolt anchors and concealed adjustable cable support system* allows precise leveling of the window's pitch, while providing sturdy support.
7. *Optional low-voltage recessed lighting* highlights accent pieces.
8. *Optional insulated seat* increases comfort.
Choose Superior R9 (as shown above) or Ultimate R21.

Additional optional features include: pre-finished knee braces, custom matched interior 3 1/2" casing, pre-fabricated roof in a variety of styles, laminated or corian interior, and pre-finished interior. Garden Window also available.

IntelliGlass
High Performance Glass for Every Climate

Prestige Bay & Bow windows proudly feature IntelliGlass high performance glazing system. This efficient combination of Intercept® Warm Edge spacer system and ClimaGuard high performance Low E glass provides superb energy efficiency by reflecting heat back to its source. This keeps your home more comfortable year round. See our IntelliGlass brochure for more details.
