

WYOMING MEDICARE RURAL HOSPITAL FLEXIBILITY (FLEX) PROGRAM

WY Quality Improvement Roundtable

January 11, 2018

Facilitated By: Rochelle Schultz Spinarski,
Rural Health Solutions

AGENDA

MBQIP: Reporting Changes and Reminders

QHi: Reminders, Reporting, and Next Steps

Diabetes Prevention Program – Updates and Changes

Flex Program Updates

Upcoming Meetings and Reminders

FLEX PROGRAM: QI

MBQIP & QHi

MBQIP: MEDICARE BENEFICIARY QI PROJECT

National Flex Program initiative that encourages and supports CAHs participation in CMS' Hospital Compare along with other areas of rural relevant QI.

2018 MBQIP MEASURES

* Outpatient:

- * **OP-1:** Median time to Fibrinolysis
- * **OP-2:** Fibrinolytic Therapy Received within 30 minutes
- * **OP-3:** Median Time to Transfer to another Facility for Acute Coronary Intervention
- * **OP-4:** Aspirin @ arrival
- * **OP-5:** Median time to ECG
- * **OP-18:** Median time ED to discharge
- * **OP-20:** Door to diagnostic evaluation by a qualified medical professional
- * **OP-21:** Median time to pain management for long bone fracture
- * **OP-22:** Patient left without being seen

* EDTC:

- EDTC-1: Administrative Communication (2 data elements)
- EDTC-2: Patient Information (6 data elements)
- EDTC-3: Vital Signs (6 data elements)
- EDTC-4: Medication Information (3 data elements)
- EDTC-5: Physician or Practitioner Generated Information (2 data elements)
- EDTC-6: Nurse Generated Information (6 data elements)
- EDTC-7: Procedures and Tests (2 data elements)
- All Data Elements

* Immunizations

- **HCP/OP-27:** Influenza vaccination coverage among healthcare personnel
- **IMM-2:** Influenza Immunization

* HCAHPS:

- Communication about Nurses
- Communication about Doctors
- Responsiveness of Staff
- Pain Management
- Communication about Meds
- Cleanliness of Hospital
- Quietness of Hospital
- Discharge Information
- Care Transitions
- Overall Rating
- Willingness to Recommend

Antibiotic stewardship program established

* ED:

- ED-1: Median Time from ED Arrival to ED Departure for Admitted ED Patients
- ED-2: Admit Decision Time to ED Departure Time for Admitted Patients

Note: CAHs should continue to collect these measures through Q1 2018 encounters (due 8/1/2018).

MBQIP ANTIBIOTIC STEWARDSHIP AND INPATIENT ED-1- AND ED-2 REPORTING FOR FISCAL YEAR 2018.

Inpatient ED-1 and ED-2: The first quarter of required reporting is 3Q 2017 (submission deadline February 1, 2018). Video training for reporting: https://www.youtube.com/watch?v=HEISUJ7AZGQ&list=PLrX6m5cvp8hAEJXD3Z1NeP_o1AxyTJw5w&index=8

Antibiotic Stewardship: CAHs should submit the 2017 NHSN Annual Facility Survey: https://www.cdc.gov/nhsn/forms/57.103_pshospurv_blank.pdf. CDC encourages all CAHs to complete the survey by March 1, 2018.

- **Upcoming webinar:** FORHP/CDC webinar for CAHs on **January 23, 2018 1:00-2:00PM CST** focusing on completion of the Annual Facility Survey and to answer questions you have about the survey. Register here: <https://cc.readytalk.com/registration/#/?meeting=uwh6mhxlp6a&campaign=6u5vm83tbs31>

MBQIP: UPCOMING REPORTING REMINDERS

January 31, 2018

Emergency Department Transfer Communication (EDTC):

Patients seen Q4 2017 (October, November, December)

Submitted to Kyle Cameron or entered into QHi

February 1, 2018

CMS Population and Sampling (optional)*

Patients seen Q3 2017 (July, August, September)

Inpatient and outpatient

Entered via the Secure Portal on QualityNet

Contact Shanelle Van Dyke or Kyle Cameron for more information

February 1, 2018

CMS Outpatient Measures:

Patients seen Q3 2017 (July, August, September)

CMS Hospital Outpatient Reporting Specifications Manual version [10.0a](#)

Submitted to the QualityNet warehouse via CART or by vendor

CART version – [1.15](#)

February 15, 2018

ED-1, ED-2, and IMM-2:

Patients seen Q3 2017 (July, August, September)

Submitted to the QualityNet warehouse via Inpatient CART or by vendor

March 1, 2018

NHSN Facility Survey

MBQIP QUESTIONS?

Measures:

- Quality
- Financial and Operations
 - Department Level
- Patient Satisfaction

Paid for By the Wyoming Flex
Program for all CAHs to Use

Share Your Story

Success Stories from the Kansas Healthcare Collaborative HIIN

The Kansas Healthcare Collaborative supports 117 Kansas hospitals with patient safety improvement efforts as one of 32 state partners with the Health Research and Educational Trust (HRET) of the American Hospital Association. Since 2012, QHi is proud to have served as the data... [Read more...](#)

What's New?

Kansas HIIN NHSN to QHi Transfer a Success

KHC HIIN hospitals that submit HAI (hospital-acquired infection) data to NHSN can now see their monthly aggregated NHSN data in QHi. KHC and the QHi team at the Kansas Hospital Association completed development of the new process to transfer HAI data submitted to NHSN to the Quality Health... [Read more...](#)

New Hospital and RHC Measures in QHi

Ten new hospital measures: four new CMS ED measures, three Swing Bed measures, three CMS OP-18 measures and one CMS SEP-1 measure and **ten new RHC measures:** five Pediatric Oral Health measures and five Adults with Diabetes Oral Health Measures. [Read more...](#)

Training and Education

November QHi Training Recording Available

Thank you to those that joined our November QHi Back to Basics session. The recording is available here. [Read more...](#)

NDPP OVERVIEW

- A **lifestyle change program** following an evidence-based, CDC-approved curriculum
- Designed for people who **have prediabetes** or **are at risk for type 2 diabetes**
- Consists of 16 weeks of **intervention** followed by 6 months of **maintenance and follow-up**
- Focuses on **healthy habits**

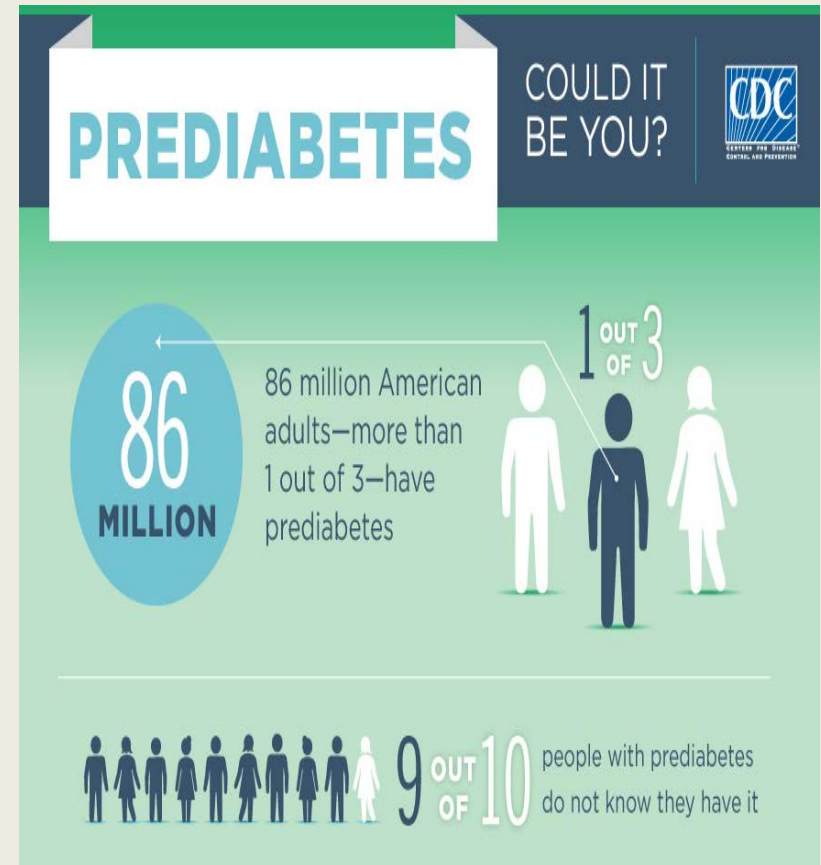

WHAT IS PREDIABETES?

A **reversible** cardiometabolic risk factor

- Plasma glucose levels are above normal, but not high enough for diagnosis of type 2 diabetes
- A1c between 5.7 - 6.4
- No prior diabetes diagnosis

Risks factors for Prediabetes include:

- Overweight/Obesity
- Lack of physical activity
- Age (risk increases with age)
- Race/Ethnicity
- Low birth weight

STANDARD NDPP CURRICULUM

First 6 Months - Modules	Last 6 Months - Modules
Program Overview/Introduction	When Weight Loss Stalls
Get Active to Prevent T2	Take a Fitness Break
Track Your Activity	Stay Active to Prevent T2
Eat Well to Prevent T2	Stay Active Away from Home
Track Your Food	More About T2
Get More Active	More About Carbs
Burn More Calories Than You Take In	Have Healthy Food You Enjoy
Shop and Cook to Prevent T2	Get Enough Sleep
Manage Stress	Get Back on Track
Find Time for Fitness	Prevent T2 – For Life!
Cope with Triggers	
Keep Your Heart Healthy	
Take Charge of Your Thoughts	
Get Support	
Eat Well Away from Home	
Stay Motivated to Prevent T2	

NDPP OUTCOMES

NDPP is a result of a major clinical research study designed to test whether lifestyle changes (diet and physical activity) could prevent or delay onset of type 2 diabetes.

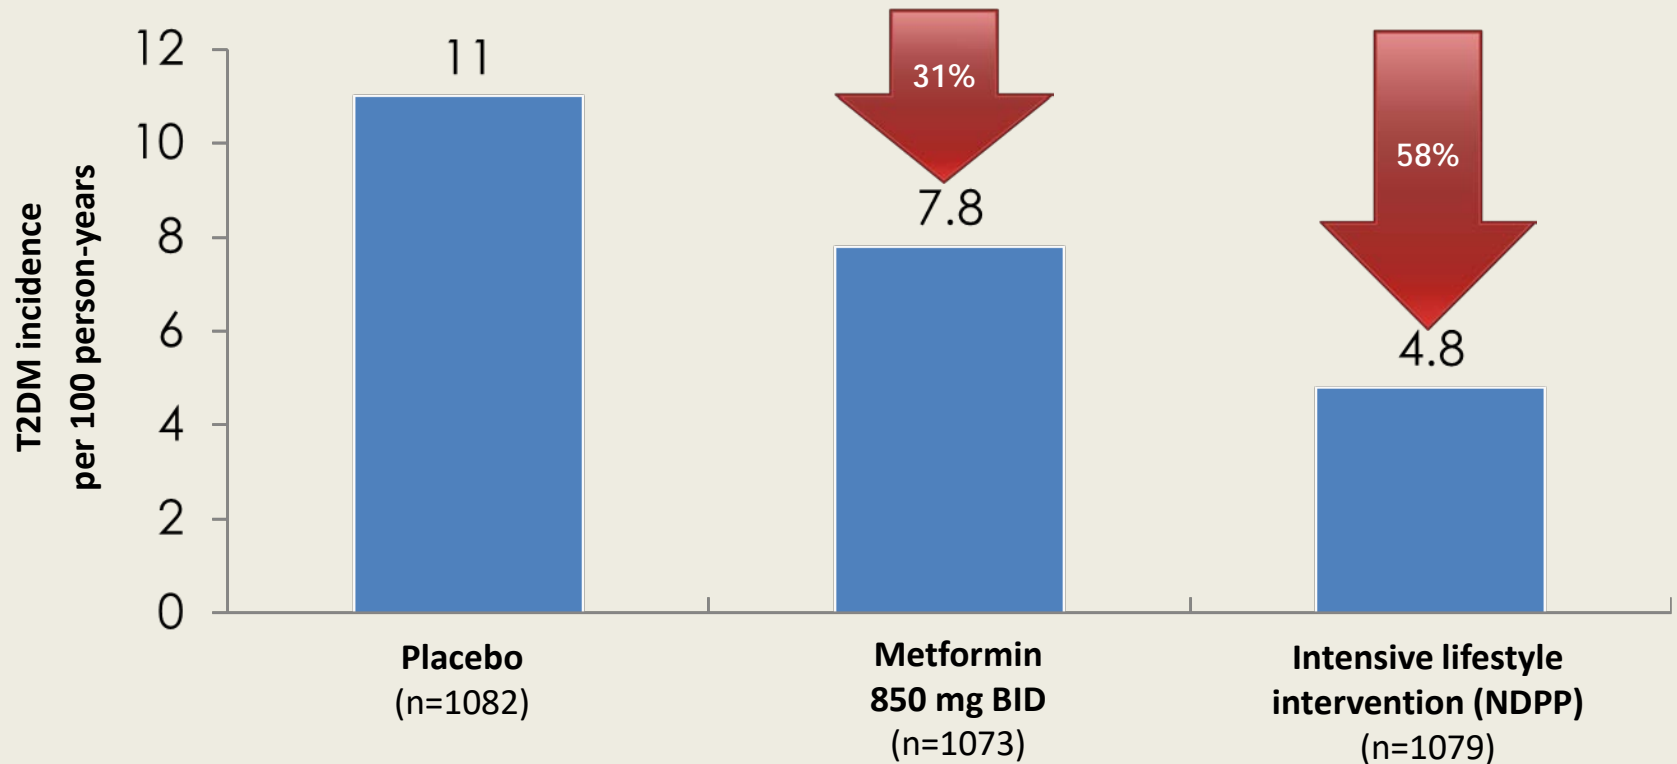

National Institute of Health (NIH)-funded 3-arm Randomized Control Trial		
Control Group	Intervention Group 1	Intervention Group 2
Placebo	Metformin	Intensive Lifestyle Coaching*

*Individual counseling and motivational support on effective diet, exercise, and behavior modification

Outcome – 3 years
Intervention Group 2
A 5-7% body weight loss reduced the risk of developing type 2 diabetes by 58% in those with prediabetes (71% in those 60+ years).
Outcome – 10 years
Intervention Group 2
34% decrease in prevalence of type 2 diabetes.

NDPP OUTCOMES

Reduction in Risk of Developing Type 2 Diabetes

WHAT IS THE IMPORTANCE OF AN NDPP?

1 in 5 adults could have type 2 diabetes by **2025**

In 2013, diabetes as a primary or secondary diagnosis cost the state of Wyoming **\$232,825,610** in inpatient costs alone

Participation in an NDPP resulted in Medicare cost savings of **\$2,650 per patient** compared to control beneficiaries

BENEFITS OF OFFERING NDPP

HOW DOES OFFERING A NDPP BENEFIT YOU?

Provides increased visibility to your organization.

- CDC lists all recognized lifestyle change programs on its website

Provides increased credibility to your organization.

- The science behind the program and its association with the CDC brings added credibility.

HOW DOES OFFERING A NDPP BENEFIT YOU?

Complements your current work.

- A DPP works to improve the health and well-being of individuals in your community – just like much of the other work you already do.

Expands reach in your community.

- Expanding your scope of services will expand the population you see and/or treat. This may translate to additional clients for services beyond the DPP.

HOW DOES OFFERING A NDPP BENEFIT YOU?

Improves quality metrics.

- **MIPS Quality Measures:**

- Preventive Care and Screening: BMI Screening and Follow-Up Plan

- **NCQA Wellness & Health Promotion Performance Measures:**

- Percentage of adults who had at least one of the three core risk factors (obesity, cigarette smoking, or physical inactivity), as defined by a baseline HA and who reduced their risk, as identified by a follow-up HA
- Percentage of adults who were obese and had at least one interactive contact specific to weight loss, and who have maintained their BMI or reduced their BMI by at least one point

HOW DOES OFFERING A NDPP BENEFIT YOU?

Increases income.

- Potential to increase incentive payments
- In January 2018, NDPP became a covered benefit of Medicare
- NDPP may soon become a covered benefit of Wyoming Medicaid
- Covered by some private insurance companies:
 - GEHA
 - Humana
 - Kaiser Permanente
 - UnitedHealthcare
- Covered by some employers

HOW DOES OFFERING A NDPP BENEFIT YOU?

Your employees may see greater job satisfaction:

"It's the most beautiful transformation to witness, and to be a part of, and to say that you contributed to someone regaining their mobility. You contributed to someone getting their blood pressure management reduced. You contributed to them giving up the unhealthy choices and substituting those for now-healthy choices... that has been such a gift I have witnessed and experienced in this program."

- DPP Facilitator

REMEMBER - WYOMING HAS A NEED FOR MORE NDPP!

NDPP OPPORTUNITIES

IN-PERSON OR TELEHEALTH

NDPP VIA TELEHEALTH

What? High-quality lifestyle interventions with frequent provider interaction delivered to patients in remote locations

Why? Reduce cost burden to health systems and disease burden to Wyoming

How?

Provide:

- Facilities
- Facilitator
- Referrals and recruitment
- Video conferencing technology

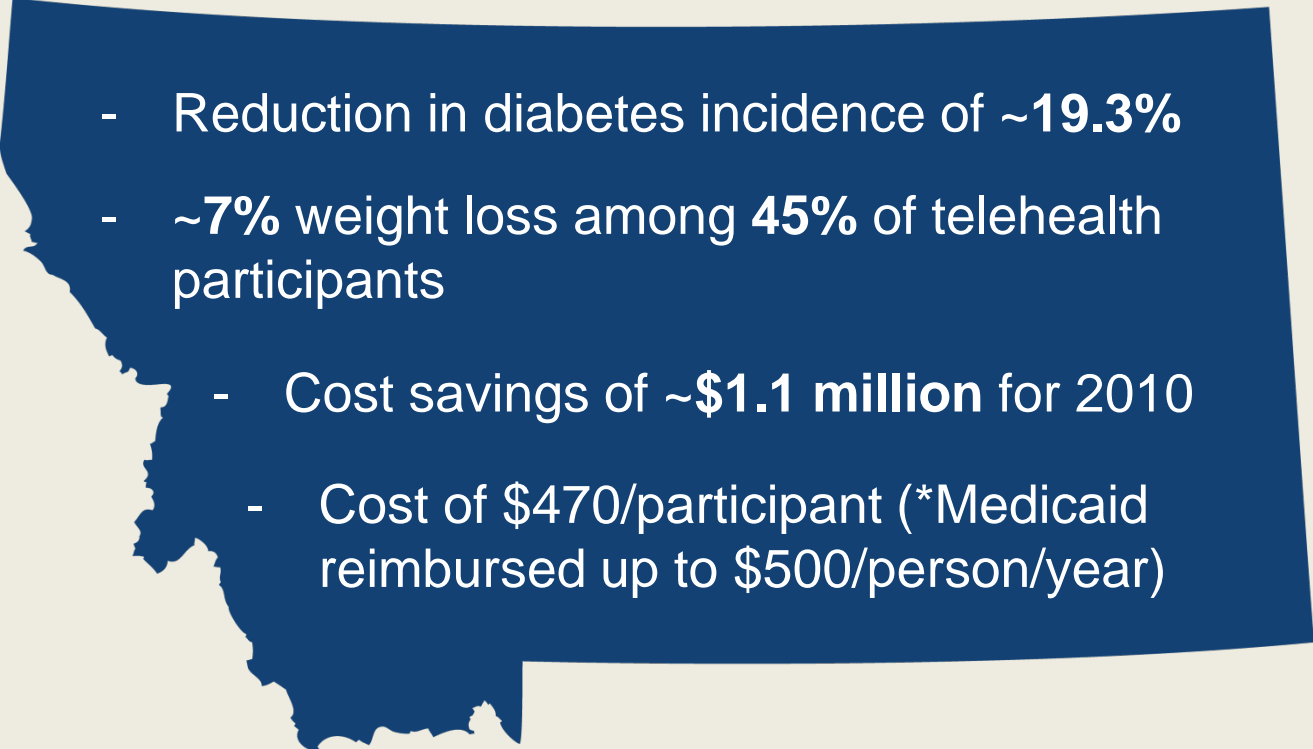

Receive:

- CDC-recognized NDPP
- Trained Lifestyle Coach
- Cost savings
- Innovative program

NDPP VIA TELEHEALTH

Can a Telehealth NDPP be successful? Yes!

In Montana, a Telehealth NDPP resulted in:

- 
- Reduction in diabetes incidence of **~19.3%**
 - **~7%** weight loss among **45%** of telehealth participants
 - Cost savings of **~\$1.1 million** for 2010
 - Cost of **\$470/participant** (*Medicaid reimbursed up to **\$500/person/year**)

NDPP VIA TELEHEALTH

Can a Telehealth NDPP be successful? Yes!

In a meta-analysis of 28 NDPPs nationally,

virtual programs had

equivalent rates

of **participant retention**

and **weight loss**

to in-person interventions.

LOOKING FORWARD...

ORGANIZATIONAL CAPACITY ASSESSMENT

The CDC provides an organization capacity assessment that will help you identify areas that may need enhanced prior to applying for CDC recognition.

We recommend you start reviewing this now – it will help in the process!

Capacity assessment can be found here:

<https://www.cdc.gov/diabetes/prevention/pdf/capacity-assessment.pdf>

*(*CDC has not yet updated website to reflect the 2018 capacity assessment)*

BECOMING A RECOGNIZED DPP

Centers for Disease Control and Prevention (CDC)

- Diabetes Prevention Recognition Program (DPRP)
- <https://www.cdc.gov/diabetes/prevention/lifestyle-program/requirements.html>
*(*CDC has not yet updated website to reflect the 2018 standards)*
- Standards for CDC recognition include:
 - CDC-approved curriculum
 - Ability to begin offering program <6 months from CDC approval
 - Capacity and commitment to deliver program for >1 year
 - Ability to record and submit data on participant progress
 - Trained lifestyle coaches
 - Designated DPP Coordinator(s)

Support from Chronic Disease Prevention Program at the Wyoming Department of Health and Independent Contractors

UPCOMING LIFESTYLE COACH TRAINING

- Lifestyle Coach training hosted by Wyoming Association of Diabetes Educators and supported by the Wyoming Department of Health.
- Travel stipends available through Wyoming FLEX program.

March 15 & 16, 2018

Casper, WY
