

TURF SPEC

Specifier's Series

The new generation
of tall fescue.

Kansas Premium

Cranmer Grass Farms' Kansas Premium Fescue sod makes for the ultimate lawn!

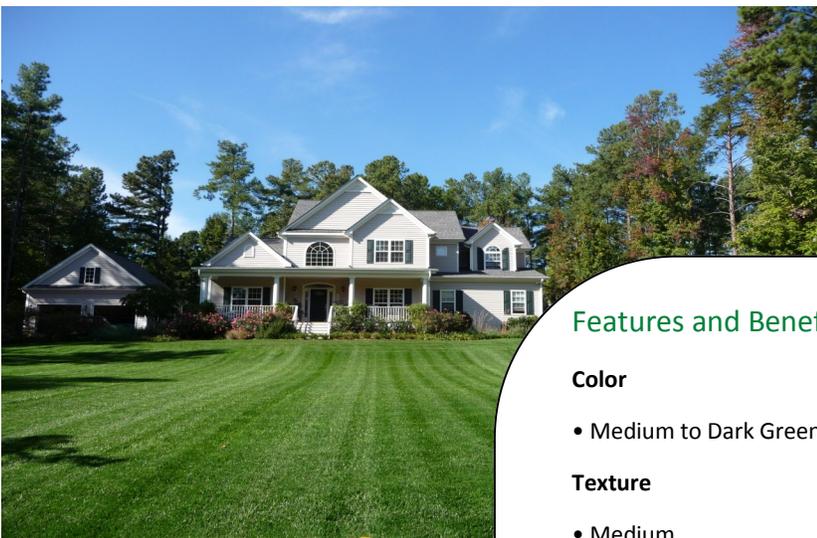

The finest quality tall fescues and Kentucky bluegrass are merged together in just the right ratios

to provide the highest turf quality available. Kansas Premium has a beautiful medium to dark green color, with

lasting wear tolerance, and excellent disease resistance. It is more drought tolerant, recovers from drought

better, and uses less water than the older varieties of tall fescue. Kansas Premium can endure partial shade,

as well as heat, and is ideal for home lawns, landscapes, and parks. It performs well in all areas of the Midwest,
